The Reflective Journey Toward Order Marion Montgomery,2008-10-01 This book embodies a sequence of closely related essays which explore the modern poet s uneasy awareness of a tradition the romantic tradition with which he must contend The author s premise is that the romantic age extends from The Divine Comedy through Wordsworth to Eliot The roots of contemporary questions about the self and alienation are seen to extend at least as far back as Dante who is the first poet to choose the ego as a focus for poetry of epic dimensions In the course of the study Montgomery considers the growing emphasis upon the self s becoming the focus of poetry until this shift culminated in the literature of the most autobiographical century in western letters the twentieth Dante Wordsworth and Eliot are discussed at length individually and in relation to one another as principal instances of the reflective poet The critic also considers other illustrative figures such as Milton Coleridge Keats Whitman Pound Joyce and Hemingway These and other writers have traveled along the romantic road anticipated by The Divine Comedy Finally the author suggests the road may end in a labyrinth so far as the contemporary writer is concerned In his increasing concern with the problems of the self and of the mind the poet has been forced to invent new modes and techniques which as the author demonstrates grow out of his response to the psychological and metaphysical preoccupations of his age

The Enlightenment of Sympathy Michael L. Frazer, 2010-08-18 The Enlightenment of Sympathy reclaims the sentimentalist theory of reflective autonomy as a resource for enriching social science normative theory and political practice today The sentimentalist description of the reflective process is more empirically accurate than the competing rationalist description and can guide scientists investigating the processes by which the mind formulates moral and political principles Yet the theory is much more than merely descriptive and can also contribute to the philosophical project of finding principles including principles of justice that wield genuine normative authority Enlightenment sentimentalism demonstrates that emotion is necessarily central to our civic life and shows how our reflective sentiments can counterbalance the unreflective feelings that might otherwise lead our political principles astray

studies that seek to demonstrate the applicability of various aspects of reception theory to biblical interpretation **Real and Imagined Women in British Romanticism** Gaura Shankar Narayan, 2010 Real and Imagined Women in British Romanticism uses feminist ideology and deconstructive criticism to reconstruct the cultural context embedded in Romantic canonical texts To achieve this end the book undertakes a close textual study of these texts and places them in the intellectual context of Mary Wollstonecraft's critique of culture As a result of intellectual contextualizing as well as theoretical applications the Romantic imagination as represented by William Wordsworth and John Keats emerges as the place where gender division and gender certitude break down This book intervenes in the traditional critical debates about the Romantic imagination to show that the Romantic imagination as set forth in these texts registers the vigorous cultural politics of gender and aesthetics that defined the 1790s and continued to exert influence for decades Book Jacket
