Reforming State Local Relations A Practical Guide:

Reforming State-local Relations Steven David Gold,1989 *State-Local Relations* Joseph F. Zimmerman,1995-08-30 This is a revision and update of Zimmerman s classic study of relations between state and local government The first edition published in 1983 was based on three decades of research into intergovernmental affairs and examined the legal financial and structural foundations of state local relations This new edition adds a fourth decade of research and brings the work up to date through the early 1990s adding a chapter on state mandates and local governments reviewing and analyzing the changes in fortune of state and local governments and the impact of those changes on their relations between each other and between themselves and the federal government *Intergovernmental Perspective* ,1987 Each issue concentrates on a different topic Governing New York State Jeffrey M. Stonecash,John Kenneth White,Peter W. Colby,1994-01-25 This new edition of *Governing New York State* formerly *New York State Today* provides the latest on New York State politics government and public policies The text is two thirds new material Covered for the first time are racial politics in New York political conflict the press tax policy environmental issues and transportation policy While continuing to provide a comprehensive introduction to New York State politics and government the third edition contains fewer more in depth articles *State-Local Governmental Interactions* Joseph F. Zimmerman,2012-04-02 Relations between state governments and their respective local governments are of crucial importance yet they have remained largely unexplored by scholars This neglect is all the more surprising in light of the fact that most public services are provided directly to citizens by general purpose local governments who are themselves subject to varying degrees of control by their respective state governments In *State Local Governmental Interactions* Joseph F Zimmerman builds on work conducted for the US Advisory Commission on Intergovernmental Relations pertaining to local government discretionary authority intergovernmental service agreements state and federal mandates and voluntary and state mandated transfers of functional responsibility He demonstrates that the degree of control states exercise over their political subdivisions varies greatly from very tight control in Vermont to relatively little control in Maine Particular emphasis is placed on the legal relationships between a state and its various types of political subdivisions The volume concludes with recommendations for the establishment of a state local governmental partnership The End of Welfare? Max B. Sawicky,2016-07-01 Exploring the consequences of federal devolution on state budgets this work deals with three major areas of concern the effect of moving large numbers of welfare recipients into labour markets the planned federal reforms in the health care field and trends in federal aid *Public Official Associations and State and Local Government* David S. Arnold,Jeremy F. Plant,1994-01-25 This volume is an authoritative description of a little recognized element of modern governance associations of public officials in state and local government These associations whose membership consists of elected and appointed officials such as mayors legislators council members city and county managers and planners play an often overlooked role in public administration and governmental policy on state

and local levels This work provides an incisive analysis of their role using a combination of documentary sources and extensive personal interviews with a special interest in association management It traces the historical development of associations from 1890 to 1990 within the context of the Progressive Movement the New Deal the Great Society and the era of cutbacks and devolution In addition an examination of the effects of associations in the evolving administrative state touches upon many of the most important topics in public administration including intergovernmental relations by professionalism ethics and leadership The text is augmented by an appendix of association profiles an annotated bibliography and an index

The Fiscal Crisis of the States Steven David Gold, 1995 As the federal government has cut back its support for domestic services state governments increasingly have been forced to assume a leadership position In this book prominent experts describe and analyze how state governments in the 1990s have coped with fiscal stress through changes in tax and spending policies as well as through attempts to reinvent government by abandoning long established policies In an era when state budgets verge on the brink of deficit state governments face the difficult task of reconciling the public's wish for low taxes with its desire for increased services better schools improved health systems more prisons This volume provides both a comparative overview of the fifty states as they try to meet conflicting needs and incisive case studies of six states with a reputation for being national leaders California Connecticut Florida Massachusetts Michigan and Minnesota It explores how much substance there is to claims that states were successful in developing innovative policies The Fiscal Crisis of the States draws upon research to analyze what is really happening in the state capitols Boiling down the diverse

experiences of various states into a number of important lessons this book will be a valuable resource for academics policymakers and public administrators as well as the general reader to understand the reality of state fiscal policies

A Comprehensive Review of Local Government Service Delivery in Florida ,1991 *Rethinking the State-Local Relationship: K-12 Education* Margaret Weston,2011 Governor Jerry Brown's January 2011 budget proposal suggests shifting responsibility and funding for many state programs from the state to the local level Under this realignment of government authority local governments usually counties would be given responsibility for providing the services in realigned programs and the state would provide local governments with a source of funding for the new responsibilities In addition local governments would be granted the authority to reshape realigned programs to better accommodate local conditions and priorities Although K-12 education is not included in the governor's realignment proposal similar themes apply to the current discussions and legislation pertaining to California's school finance system This report examines California's school finance system through the lens of realignment offering a framework for thinking about how K-12 realignment might work and the difficulties it might face Certainly there are arguments on both sides of the equation Proponents of greater local control argue that local school authorities have a better knowledge than state officials of the unique needs in their districts and that greater local control would reduce the administrative burden on schools and enable them to redirect their resources toward improving student outcomes Those in favor of maintaining state control argue that central control allows the state to ensure its priorities are met across individual districts and that students in all districts regardless of their size or location are provided with similar educational opportunities This study examines the trade offs of each approach concluding that thoughtful revisions in the state's categorical funding system would offer a good first step in moving toward a more productive efficient and transparent school finance system Contains 2 figures and 4 footnotes Additional funding for this report was provided by the Evelyn and Walter Haas Jr Fund

Home Rule in America Dale Krane,Platon N. Rigos,Melvin B. Hill,2001 Home rule powers are essential parts of the American governing process but they vary widely from state to state This authoritative reference work examines the powers and functions of municipalities and counties that operate under home rule within each state For example the ability of a local municipality to raise taxes annex land or impose regulations is determined by their home rule powers from the states This volume provides a reliable reference work for researchers and students a single source that readers can trust for information about The actions that local governments can and cannot pursue States where power is centralized at the capital and where it is not How home rule varies within each state by governmental function Trends in important issues such as taxes land annexation and citizen access The editors organized the book in three parts an overview of American home rule

including its history a state by state description of home rule authority and a comparative appendix that allows readers a quick reference source of powers by state A scholar or governmental expert was selected in each state to prepare the state descriptions Each chapter follows the same outline of content that allows easy comparison between states In an era of power and responsibilities devolving from the national government to states and localities the use of home rule powers has become increasingly important to the health of American government and federalism Researchers and interested citizens will benefit from this comprehensive reference Home Rule in America was directed by Dale Krane of the department of public administration University of Nebraska Omaha Platon N Rigos department of government and international affairs University of South Florida and Melvin Hill the Vinson Institute of Government University of Georgia
