Chisholm,2012-11-12 First Published in 1975 The first Kuwait oil concession agreement granted on 23rd December 1934 by the late Shaikh Ahmad al Jaber al Subah to the Kuwait Oil Company Ltd has been of fundamental importance in the history of the State of Kuwait whose great increase in prosperity and international influence during the last twenty eight years has directly resulted from its oil production since 1946 under the Agreement and its 1951 successor Hitherto no full or authoritative account of the very long and complex commercial and political negotiations preceding the Agreement has been compiled and consequently all descriptions of them so far published except those merely quoting the Agreement s terms and naming the parties concerned have contained substantial omissions or errors of fact involving a wrong impression of what actually occurred This text is a record of the negotiations between 1911 and 1934 **Kuwait, Persian Gulf Sheikhdom** United States. Kuwait and Al-Sabah Rivka Azoulay,2020-07-23 The Emirate of Kuwait hardly resembles the city State it was at the start of the 20th century The discovery of oil in 1938 rapidly transformed the tiny tribal sheikhdom of the Al Sabah into a modern oil producing state where by the early 1980s citizens were enjoying one of the highest standards of living in the world While much has been written on the reasons why and how the Al Sabah became a ruling dynasty little is known about the nature of their authority and its relationship to Kuwait s social structure Rivka Azoulay shows how despite the rapidity of change in the oil rich family run emirate it is the pre oil dynamics of social and political life that dictate how society operates The author shows that Kuwait s ambitious diversification plans to reduce oil dependence by 2035 require a renegotiation of the regime s pact with society which threatens the pre oil alliances upon which the Al Sabah s regime has been built **Doing Business with Kuwait** Paul D. Kennedy,2004 Now in its second edition Doing Business with Kuwait is the most authoritative guide available on investment and trading opportunities in this vital oil rich global business centre located at the head of the

Persian Gulf The guide provides invaluable analysis of the opportunities for foreign businesses and a practical guide to local business practices The government's pro business stance is illustrated by a stable legal framework of business laws and few controls over imports and exports Under the new direct foreign investment laws it is also possible for a foreigner to have 100% ownership of a local business *The Legal Status of the Arabian Gulf States* Husain M. Oxford Business Group,2015-09-28 Kuwait is one of the biggest players in the global energy market with its proven oil reserves currently the sixth largest in the world Although revenues from hydrocarbons account for more than 60% of GDP and 95% of exports the country's low production costs and sizeable fiscal reserves mean it is well positioned to cope with lower oil prices in the short term This is clear from the government's ongoing commitment to delivering projects outlined in the national development strategy Kuwait Vision 2035 In the financial services sector Kuwait continues to perform well as a series of regulations put in place by the Central Bank of Kuwait in recent years have served to shore up the sector's recovery from the global economic downturn

The Role of the Domestic Law of the Host State in Determining the Jurisdiction ratione materiae of Investment Treaty Tribunals Reza Eftekhari,2021-10-05 The Role of the Domestic Law of the Host State in Determining the Jurisdiction ratione materiae of Investment Treaty Tribunals The Partial Revival of the Localisation Theory focuses on the largely unexplored role of the host state law in determining the jurisdiction ratione materiae of investment treaty tribunals Given domestic law's essential role in subject matter jurisdiction issues and in the light of the broader function of host state law and host state courts in contemporary investment treaty law the author argues that the dormant localisation theory that was raised and defended by developing countries in the 1960s 1970s in the context of foreign investment contract disputes has now been partially revived in the area of the investment treaty law This is a significant milestone in the ongoing discussions on the reform of the investment treaty dispute settlement regime

The EU's Approach to Human Rights Conditionality in Practice Elena Fierro,2021-10-18 Human rights in the external relations of the EU may manifest itself in different manners one of them is the conditionality policy that the EU applies to third countries This study intends to explore the modalities of this conditionality policy as well as its nature and reach It also analyzes how the policy could be improved and be made more coherent and effective The point of departure is the division made between two modes of conditionality ex ante and ex post In the first case the EU issues conditions which must be fulfilled before the negotiation or conclusion of a given agreement or an action with a view to strengthening the relations The second case conditionality ex post is when conditions are already part of an agreement or an established relation The so called human rights clause or democratic clause incarnates the second modality This study explores both types of conditionality but puts a special emphasis on the second given its legal nature its reciprocity and its systematic inclusion in all framework agreements It is argued here that this clause could represent the basis of a fully fledged human rights policy of EU At present however the implementation of the clause has been fragmentary The interpretation that has prevailed the human rights clause being a mechanism of exclusively punitive nature has constituted an obstacle for its implementation In addition the clause has been activated only as a response to breaches of democratic principles and not human rights in the ACP countries and not other regions The human rights clause has been the victim of the sectorial approaches where policy choices were determined by the instrument at issue It is about time for the EU to revisit the interpretation of the clause in order to make of it a dynamic

instrument integrated in a global and coherent external human rights policy
