The Nature of Homosexuality Erik Holland, 2004-11 Some biological correlates of homosexuality can be dismissed with little difficulty but others are hard to explain away Some specific family environments and childhood experiences have been reported as more common among homosexuals than heterosexuals Homosexual behaviors or interests tend to be unstable in some individuals and this has been interpreted as suggesting that some people chose to be homosexual Additionally homosexuality in some contexts was socially tolerated and not extremely uncommon as in classical Greece Tokugawa Japan and some other societies i e homosexuality could be socially constructed Given diverse potential sources of homosexuality is a parsimonious explanation of what makes one a homosexual possible

anthropological questions and methods and is offered as a supplement to textbooks on the anthropology of religion It is designed to help students collecting and interpreting their own fieldwork or archival data and relating their findings to the work of others

*Sexuality and the Devil* Edward J. Tejirian, 2016-06-10 At the time of publication our understanding of sexuality relied heavily on biology and also on morality as was particularly evident when homosexuality and bisexuality were discussed In this title originally published in 1990 the author presents a compelling case for viewing the sexual dimension of life through an understanding of its symbols The potent figure of the devil serves as his avenue of approach In the first part of the book the author presents a detailed case history of a young man who began psychoanalytic therapy with him because of a terrifying conviction that he could be possessed by the devil In the course of therapy it emerged that the devil had entered into his consciousness as a vehicle to express a complex of homosexual wishes and fears that were deeply troubling to a man whose life history had been entirely heterosexual The author argues that the assumptions about male psychology that came to pervade psychoanalytic theory after Freud's death could not account for the nature of this young man's conflicts or for the outcome of the analysis In the second part of the book the author cites historical and anthropological data to demonstrate that the depth and breadth of male psychology extend beyond the limits of what was considered normal by the neoconservative theorists who revised Freud's theories to exclude his ideas about bisexuality Rejecting the reduction of sexuality to biology the author asserts that sexuality can be properly regarded as symbolic in the same way that meaningful works of art and rituals are symbolic The power of sexual images and actions comes from their ability to combine important meaning with intensely felt emotion Finally the author examines the way in which culture affects sexuality through its control of consciousness and its influence on what kinds of sexual symbols may be utilized and what kinds of meanings they may express

*Race and Redemption* Jane Samson, 2017-11-06 *Race and Redemption* is the latest volume in the *Studies in the History of Christian Missions* series which explores the significant yet sometimes controversial impact of Christian missions around the world In this historical examination of the encounter between British missionaries and people in the Pacific Islands Jane Samson reveals the paradoxical yet symbiotic nature of the two stances that the missionaries adopted othering and brothering She shows how good and bad intentions were tangled up together and how some blind spots remained even as others were overcome Arguing that gender was as important a category in the story as race Samson paints a complex picture of the interactions between missionaries and native peoples and the ways in which perspectives shaped by those encounters have endured

*Echoes of the Tambaran* Paul Roscoe, David Lipset, 2011-10-01 In the Sepik Basin of Papua New Guinea ritual culture was dominated by the Tambaran a male tutelary spirit that acted as a social and intellectual guardian or patron to those under its aegis as they made their way through life To Melanesian scholarship the cultural and psychological anthropologist Donald F Tuzin was something of a Tambaran a figure whose brilliant and fine grained ethnographic project in the Arapesh village of Ilahita was immensely influential within and beyond New Guinea anthropology Tuzin died in 2007 at

the age of 61 In his memory the editors of this collection commissioned a set of original and thought provoking essays from eminent and accomplished anthropologists who knew and were influenced by his work They are echoes of the Tambaran The anthology begins with a biographical sketch of Tuzin s life and scholarship It is divided into four sections each of which focuses loosely around one of his preoccupations The first concerns warfare history the male cult and changing masculinity all in Melanesia The second addresses the relationship between actor and structure Here the ethnographic focus momentarily shifts to the Caribbean before turning back to Papua new Guinea in essays that examine uncanny phenomena narratives about childhood and messianic promises The third part goes on to offer comparative and psychoanalytic perspectives on the subject in Fiji Bali the Amazon as well as Melanesia Appropriately the last section concludes with essays on Tuzin s fieldwork style and his distinctive authorial voice

**Third Sex, Third Gender** Gilbert Herdt, 2020-10-27 Most modern discussions of the relationship of biological sex to gender presuppose that there are two genders male and female founded on the two biological sexes But not all cultures share this essentialist assumption and even Western societies have not always embraced it Bringing together historical and anthropological studies Third Sex Third Gender challenges the usual emphasis on sexual dimorphism and reproduction providing a unique perspective on the various forms of socialization of people who are neither male nor female The existence of a third sex or gender enables us to understand how Byzantine palace eunuchs and Indian hijras met the criteria of special social roles that necessitated practices such as self castration and how intimate and forbidden desires were expressed among the Dutch Sodomites in the early modern period the Sapphists of eighteenth century England or the so called hermaphrodite homosexuals of nineteenth century Europe and America By contextualizing these practices and by allowing these bodies meanings and desires to emerge Third Sex Third Gender provides a new way to think about sex and gender systems that is crucial to contemporary debates within the social sciences

**Foreign Bodies** Alphonso Lingis, 2014-06-11 Foreign Bodies analyzes how our culture elaborates for us the bodies we have by natural evolution Calling on the new means contemporary thinkers have used to understand the body Alphonso Lingis explores forms of power pleasure and pain and libidinal identity The book contrasts the findings of theory with the practice of the body as formulated in quite different kinds of language the language of plastic art the artwork body builders make of themselves biography anthropology and literature Lingis explains how we experience our own powers of perception our postures attitudes gestures and purposive action how our susceptibility to pain and excitability by pleasure acquiesce in and resist the ways they are identified and manipulated today how cultures code our sensuality with phallic and with fluid identities how others dress appeals to and puts demands on us
