practice ritual performance revealed frictions and fractures that everyday local discourse attempted to hide or to heal Using fascinating first hand evidence David Cressy shows how the making and remaking of ritual formed part of a continuing debate sometimes strained and occasionally acrimonious which exposed the raw nerves of society in the midst of great historical events In doing so he vividly brings to life the common experiences of living and dying in Tudor and Stuart England

Capitalism Magic Thailand Peter A Jackson,2021-12-13 By studying intersections among new cults of wealth ritually empowered amulets and professional spirit mediumship which have emerged together in Thailand s dynamic religious field in recent decades Capitalism Magic Thailand explores the conditions under which global modernity produces new varieties of enchantment Bruno Latour s account of modernity as a condition fractured between rationalizing ideology and hybridizing practice is expanded to explain the apparent paradox of new forms of magical ritual emerging alongside religious fundamentalism across a wide range of Asian societies In Thailand novel and increasingly popular varieties of ritual now form a symbolic complex in which originally distinct cults centred on Indian deities Chinese gods and Thai religious and royal figures have merged in commercial spaces and media sites to sacralize the market and wealth production Emerging within popular culture this complex of cults of wealth amulets and spirit mediumship is supported by all levels of Thai society including those at the acme of economic and political power New theoretical frameworks are presented in analyses that challenge the view that magic is a residue of premodernity placing the dramatic transformations of cultic ritual centre stage in modern Thai history It is concluded that modern enchantment arises at the confluence of three processes neoliberal capitalism s production of occult economies the auraticizing effects of technologies of mass mediatization and the performative force of ritual in religious fields where practice takes precedence over doctrine

Seeking Purpose & Happiness in Life Abhimanyu Singh,2020-06-08 Life is continuity with the genes we inherited from our ancestors hundreds of thousands of years ago Death is not the end of life but a break for life to rejuvenate itself Life and nature are symbiotic Our actions should not be in conflict with the laws of nature which is part of the larger cosmos else it will be destructive to life We cannot be happy by pursuing our objectives for narrow personal gains Pleasures that are physical provide only transitory happiness Lasting happiness is mental when our actions are for the general good and appreciated by others and when our inner self feels contented This can happen when our conduct is morally right and we live a life of moderation avoiding excesses We have opted for democracy as it provides for rule by the people and for its commitment to protection of human rights but powerhungry politicians have become despots repressing the rights of the people Similarly the free market has widened the gap between those who own the means of production and the employees leading to concentration of wealth which creates inequalities and exploitation of the weak We have to be not only eternally vigilant but also take advantage of the opportunities offered by emerging technologies to banish poverty which is a blot on humanity in modern times

The Palgrave Handbook of Anthropological Ritual Studies Pamela J. Stewart,Andrew J. Strathern,2021-08-24 Ritual Studies have

achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future
