Rituals in Psychotherapy Onno van der Hart,1983 Healing Symbols in Psychotherapy Erik D. Goodwyn,2016-03-02

Ritual scholars note that rituals have powerful psychological social and even biological effects but these findings have not yet been integrated into the practice of psychotherapy and psychiatry In Healing Symbols in Psychotherapy Erik D Goodwyn attempts to rectify this by reviewing the most pertinent work done in the area of ritual study and applying it to the practice of psychotherapy and psychiatry providing a new framework with which to approach therapy The book combines ritual study with depth psychology placebo study biogenetic structuralism and cognitive anthropology to create a model of interdisciplinary psychology Goodwyn uses examples of rituals from history folklore and cross cultural study and uncovers the universal themes embedded within them as well as their psychological functions As ritual scholars show time and again how Western culture and medicine is ritually impoverished the application of ritual themes to therapy yields many new avenues for healing The interdisciplinary model used here suggests new ways to approach problems with basic identity complicated grief anxiety depression meaninglessness and a host of other problems encountered in clinical work The interdisciplinary approach of this accessibly written book will appeal to psychotherapists psychiatrists and Jungian analysts as well as those in training and readers with an interest in the science behind ritual *Rituals In Families And Family Therapy 2e* Black Evan Imber,Janine Roberts,Richard Alva Whiting,2003-03-25 This edition builds on the case material of the first edition and develops the editors therapeutic approach that identifies normative family rituals as the basis for effective therapeutic rituals **Using Metaphors in Psychotherapy** Philip Barker,1992 First Published in 1993 Routledge is an imprint of Taylor Francis an informa company **Rituals In Families And Family Therapy 1e** Janine Roberts,1988 Daily rituals holiday traditions and rites of passage mark our time create unforgettable memories and define us as individuals family members and community participants *Rituals in Families and Family Therapy Revised Edition* builds on the rich case material of the first edition and develops the editors powerful therapeutic approach that identifies normative family rituals as the basis for effective therapeutic rituals **Emotion Rituals** David W. Counselling Simon Shui-Man Kwan, 2016-04-26 How Christian is Christian counselling In what ways should one's counselling practice be conducted in order to fulfil one's role as a Christian counsellor Is there a counselling practice that truly penetrates into the secular approaches while remaining faithful to the Christian traditions of healing What are the theological roots of secular counselling How may secular counselling both reinforce and challenge the Christian faith In answering these questions this book engages readers to navigate between two frames of reference one Eastern secular social scientific and modern the other Western Christian theological and traditional At levels of both theory and practice this book undertakes to integrate synthesize hybridize revise dichotomize and antagonize the two It proposes a revised presence centred counselling approach which may serve as a perspective that helps us to see things in more depth as we shuttle back and forth between the two frames This book thus negotiates a revised presence centred form of counselling that is theologically grounded socially scientifically informed and cross culturally sensitive As the author's counselling practice proceeds mainly in societies where Chinese is the majority the cross cultural examinations and proposals offered in this book have been bred in a space where Chinese culture meets the Christian Protestantism in particular West This book is an outgrowth of the author's experience teaching Christian counselling courses for 17 years and his 30 year clinical practice experience in places where East meets West namely Hong Kong and South China Guangdong Province *Interventions and Strategies in Counseling and Psychotherapy* Richard E. Bridges, 2005 Making emotional contact and inviting patients to use therapeutic relationships for their relational and developmental aims is a risky and intimate proposition But as the author of this book argues therapists must be willing to engage deeply with patients to work from within the relationship extending the

therapeutic relationship to reach the private experience of self and other and offer new relational experience Moving beyond traditional thinking the author presents a relational approach that integrates psychoanalytic thinking with the latest findings from infant research to give therapists the theoretical framework to orient the treatment and maintain psychic equilibrium and safety during times of arousing and destabilizing affect and relational scenarios A therapeutic stance which is fluid and open to intrapsychic and interpersonal influence allows for the experience and elaboration of complex unconscious affects and shifting points of identification Compelling clinical narratives bring the reader into the consulting room and show how the therapist may forge deep emotional connection within a bounded therapeutic relationship that relies upon mutual influence and self revelation and opens up relational space to ultimately rearrange a patient's experience of self and other

Emotions in Rituals and Performances Axel Michaels, Christoph Wulf, 2020-11-29 Challenging the idea that rituals are static and emotions irrational the volume explores the manifold qualities of emotions in ritual practices Focusing explicitly on the relationship between emotions and rituals it poses two central questions First how and to what extent do emotions shape rituals Second in what way are emotions ritualized in and beyond rituals Strong emotions are generally considered to be more spontaneous and uncontrolled whereas ritual behaviour is regarded as planned formalized and stereotyped and hence less emotional However as the volume demonstrates rituals often reveal strong emotions among participants are motivated by feelings or are intended to generate them The essays discuss the motivation for rituals the healing function of emotions the creation of new emotions through new media the aspect of mimesis in the generation of feelings individual collective and non human emotions the importance of trance and possession staged emotions and emotions on stage emotions in the context of martyrdom emotions in Indian and Western dance traditions emotions of love sorrow fear aggression and devotion Furthermore aesthetic and sensory dimensions as well as emic concepts of emotions in rituals are underscored as relevant in understanding social practice
