**Nature's Kindred Spirits** James I. McClintock,1994-04-01 In Nature s Kindred Spirits James McClintock shows how their mystical experiences with the wild led to dramatic conversions in their thinking and behavior By embracing the ecstasy of nature they reject modern alienation and spiritual confusion From Aldo Leopold America s most important conservationist and author of the classic A Sand County Almanac to Pulitzer Prize winners Annie Dillard and Gary Snyder and defenders of the desert Joseph Wood Krutch and

Edward Abbey these writers share a common vision that harkens back to Henry David Thoreau and John Muir To nineteenth century Romantic ideals they add the authority of modern ecological science Collectively they have elevated nature s importance in American culture shaping the growth of the environmental movement and influencing American environmental policies Widely admired among educated readers but relatively neglected by the literary establishment these writers unite the experiential with the metaphysical the ordinary with the sacred the personal with the public and the natural with the social Using ecology as a touchstone McClintock further draws connections among science politics religion and philosophy to create an enlightening overview of the work of these kindred spirits **The Land's Wild Music** Mark

Tredinnick,2011-04-14 The Land s Wild Music explores the home terrains and the writing of four great American writers of place Barry Lopez Peter Matthiessen Terry Tempest Williams and James Galvin In their work and its relationship with their home places Tredinnick an Australian writer searches for answers to such questions such as whether it s possible for a writer to make an authentic witness of a place how one captures the landscape as it truly is and how one joins the place in witness so that its lyric becomes one s own and enters into one s own work He asks what it might mean to enact an ecological imagination of the world and whether it might be possible to see the work and the writer as part of the place itself The work is a meditation on the nature of landscape and its power to shape the lives and syntax of men and women It is animated by the author s encounters with Lopez Matthiessen Williams and Galvin by critical readings of their work and by the author s engagement with the landscapes that have shaped these writers and their writing the Cascades Long Island the Colorado Plateau and the high prairies of the Rocky Mountains Tredinnick seeks the spring of nature writing deep in the nature of a place itself carried in a writer s wild self inside and resonated over and over again at the desk until it is a work in which the place itself sings On Sacred Ground Nicholas O'Connell,2011-10-01

On Sacred Ground explores the literature of the Northwest the area that extends from the Pacific Ocean to the Rocky Mountains and from the forty ninth parallel to the Siskiyou Mountains The Northwest exhibits astonishing geographical diversity and yet the entire bioregion shares a similarity of climate flora and fauna For Nicholas O Connell the effects of nature on everyday Northwest life carry over to the region s literature Although Northwest writers address a number of subjects the relationship between people and place proves the dominant one and that has been true since the first tribes settled the region and began telling stories about it thousands of years ago Indeed it is the common thread linking Chief Seattle to Theodore Roethke Narscissa Whitman to Ursula K Le Guin Joaquin Miller to Ivan Doig Marilynne Robinson to Jack London Betty MacDonald to Gary Snyder Tracing the history of Pacific Northwest literary works from Native American myths to the accounts of explorers and settlers the effusions of the romantics the sharply etched stories of the realists the mystic visions of Northwest poets and the contemporary explosion of Northwest poetry and prose O Connell shows how the most important contribution of Northwest writers to American literature is their articulation of a more spiritual human relationship with landscape Pacific Northwest

writers and storytellers see the Northwest not just as a source of material wealth but as a spiritual homeland a place to lead a rich and fulfilling life within the whole context of creation And just as the relationship between people and place serves as the unifying feature of Northwest literature so also does literature itself possess a perhaps unique ability to transform a landscape into a sacred place
