River Road to China Milton Osborne,2007-12-01 A compelling finely researched account of an adventure that was hailed as one of the grandest explorations of the nineteenth century The Washington Post A New York Times Notable Book In 1866 six Frenchmen set out on a dangerous mission to seek a trade route up the Mekong During the two years that followed they would journey through more than four thousand miles of unmapped territory from the tropical heat of the swamps of Vietnam and Cambodia to the bitter cold of the mountain ranges of southwestern China Their historic expedition is the dramatic subject of *River Road to China* a story of courage endurance and determination in the face of unpredictable dangers and near insurmountable odds This edition has been updated to include a new postscript by the author and more than thirty full color illustrations by the expedition s artist The highest of high adventure Osborne s documentation is flawless The New Yorker As exciting as it is historically illuminating A tale of heroism that has seldom been duplicated spurred by the continuing fatal attraction of the Great River The New Republic

The Mekong: A Socio-legal Approach to River Basin Development Ben Boer,Philip Hirsch,Fleur Johns,Ben Saul,Natalia Scurrah,2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The

book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing

The Mekong Ian Charles Campbell, 2009-11-20 The Mekong is the most controversial river in Southeast Asia and increasingly the focus of international attention It flows through 6 countries China Myanmar Laos Thailand Cambodia and Viet Nam The 4 downstream countries have formed the Mekong River Commission to promote sustainable development of the river and many of their people depend on it for their subsistence it has possible the largest freshwater fishery in the world and the Mekong waters support rice agriculture in the delta in Viet Nam which produces about 40% of that country s food as well as in Cambodia Laos and Thailand China is now building the first large mainstream dam on the river and has proposals for several more These dams are likely to affect the downstream countries Several of the downstream countries also have plans for large scale hydropower and irrigation development which could also impact the river This book will provide a solid overview of the biophysical environment of the Mekong together with a discussion of the possible impacts biophysical economic and social of some possible development scenarios It is intended to provide a technical basis which can inform the growing political and conservation debate about the future of the Mekong River and those who depend on it It is aimed at river ecologists geographers environmentalists and development specialists both in the basin and especially outside for whom access to this material is most difficult This book will be the first comprehensive treatment of the Mekong system The first comprehensive overview of all aspects of the Mekong River system Deals with a regionally critical ecosystem and one under threat The Mekong supports the world s largest freshwater fishery and provides water underpinning a major regional rice paddy system Presents the authoritative findings of the Mekong River Commission s research for a wider audience for the first time outside of limited distribution reports

A Land on Fire James Fahn, 2008-03-31 The future of Earth's environment will be decided in Asia home to 60 percent of the world's population and some of the world's fastest growing economies As an award winning investigative journalist based in Bangkok James Fahn spent a decade grappling with the challenges facing the region's mega cities tropical forests coastlines and societies dashing toward modernity In *A Land on Fire* he shares his findings the profound implications for global issues such as climate change the loss of biodiversity and the greening of world trade He explores Southeast Asia's environmental battles through the eyes of the people fighting them and recounts his many adventures while covering them Whether chasing down log smugglers along the Thai-Burmese border exposing the dumping of toxic mercury into the Gulf of Thailand by multinational oil corporations or covering the controversy surrounding the filming of the movie *The Beach* Fahn provides unique insight into the relationship between sustainable development and democracy the crippling impact of corruption and the environmental challenges facing us all

Dams and Development in China Bryan Tilt, 2014-12-02 China is home to half of the world's large dams and adds dozens more each year The benefits are considerable dams deliver hydropower provide reliable irrigation water protect people and farmland against flooding and produce hydroelectricity in a nation with a seemingly insatiable appetite for energy As hydropower responds to a larger share of energy demand dams may also help to reduce the consumption of fossil fuels welcome news in a country where air and water pollution have become dire and greenhouse gas emissions are the highest in the world Yet the advantages of dams come at a high cost for river ecosystems and for the social and economic well-being of local people who face displacement and farmland loss This book examines the array of water management decisions faced by Chinese leaders and their consequences for local communities Focusing on the southwestern province of Yunnan a major hub for hydropower development in China which encompasses one of the world's most biodiverse temperate ecosystems and one of China's most ethnically and culturally rich regions Bryan Tilt takes the reader from the halls of decision-making power in Beijing to Yunnan's rural villages In the process he examines the contrasting values of government agencies hydropower corporations NGOs and local communities and explores how these values are linked to longstanding cultural norms about what is right proper and just He also considers the various strategies these groups use to influence water resource policy including advocacy petitioning and public protest Drawing on a decade of research he offers his insights on whether the world's most populous nation will adopt greater transparency increased scientific collaboration and broader public participation as it continues to grow economically

Sub-regionalism and International River Basins Soavapa Ngampramuan, Christian Ploberger, 2020-06-17 This book investigates the origins and dynamics of sub-regional phenomena based on international

river basins namely the Mekong and Danube rivers It emphasizes the integration process of the Greater Mekong Sub region and the European Strategy for the Danube Region which are located in two different geopolitical and structural settings one in Southeast Asia in the regional context of the Association of Southeast Asian Nations ASEAN and the other in Central and Eastern Europe within the regional context of the EU By comparing two unique case studies within different structural settings additional and valuable insights into the occurrence and formation of sub regional integration processes are provided enabling an evaluation of similarities and differences Understanding sub regional integration dynamics requires not only looking upward to the regional and even the global level but indeed looking downwards to the local level After all sub regional integration processes are generally described as bottom up processes based on local interests and expectations Despite the growing number of sub regional projects sub regionalism remains inadequately studied in the field of political science and as such this book offers unique contributions to the understanding of sub regional integration processes Consequently it will be of interest to readers who are interested in regional and sub regional integration processes as well as those with a specific interest in both the EU and ASEAN geographic regions

Inadvertent Expansion Nicholas D. Anderson, 2025-01-15 In *Inadvertent Expansion* Nicholas D Anderson investigates a surprisingly common yet overlooked phenomenon in the history of great power politics territorial expansion that was neither intended nor initially authorized by state leaders Territorial expansion is typically understood as a centrally driven and often strategic activity But as Anderson shows nearly a quarter of great power coercive territorial acquisitions since the nineteenth century have in fact been instances of what he calls inadvertent expansion A two step process inadvertent expansion first involves agents on the periphery of a state or empire acquiring territory without the authorization or knowledge of higher ups Leaders in the capital must then decide whether to accept or reject the already acquired territory Through cases ranging from those of the United States in Florida and Texas to Japan in Manchuria and Germany in East Africa Anderson shows that inadvertent expansion is rooted in a principal agent problem When leaders in the capital fail to exert or have limited control over their agents on the periphery unauthorized efforts to take territory are more likely to occur Yet it is only when the geopolitical risks associated with keeping the acquired territory are perceived to be low that leaders are more likely to accept such expansion Accentuating the influence of small seemingly insignificant actors over the foreign policy behavior of powerful states *Inadvertent Expansion* offers new insights into how the boundaries of states and empires came to be and captures timeless dynamics between state leaders and their peripheral agents

Where China Meets India Thant Myint-U, 2011-09-13 Thant Myint U's *Where China Meets India* is a vivid searching timely book about the remote region that is suddenly a geopolitical center of the world From their very beginnings China and India have been walled off from each other by the towering summits of the Himalayas by a vast and impenetrable jungle by hostile tribes and remote inland kingdoms stretching a thousand miles from Calcutta across Burma to the upper Yangtze River Soon this last great frontier will vanish the forests cut

down dirt roads replaced by superhighways insurgencies crushed leaving China and India exposed to each other as never before This basic shift in geography as sudden and profound as the opening of the Suez Canal will lead to unprecedented connections among the three billion people of Southeast Asia and the Far East What will this change mean Thant Myint U is in a unique position to know Over the past few years he has traveled extensively across this vast territory where high speed trains and gleaming new shopping malls are now coming within striking distance of the last far flung rebellions and impoverished mountain communities And he has explored the new strategic centrality of Burma where Asia's two rising giant powers appear to be vying for supremacy At once a travelogue a work of history and an informed look into the future Where China Meets India takes us across the fast changing Asian frontier giving us a masterful account of the region's long and rich history and its sudden significance for the rest of the world *Liquid Territories* Christoforos Romanos, 2024-11-29 In addition to being a fundamental concept for planning the water infrastructure which supports extensive agricultural economies across Southeast Asia knowledge of the Mekong River's hydrological catchments has calibrated the control of land resources and people *Liquid Territories* shows how and why the areal dimensions of the Mekong's basin delta and floodplain have become a critical geographic reference for human activities This book concentrates on the way knowledge of the river's catchments has been recorded on and extracted from maps Repeatedly drawn by geographers engineers and cartographers since before the start of European colonization the book describes how cartographic projections of the basin delta and floodplain have affected geopolitical strategy the exercise of military power and anthropogenic modifications of the terrain Drawing on the discourses of hydrology geography and cartography as well as military science colonial politics and regional planning the book explains why the spatial articulation of surface water flows is reflected in the configuration of national boundaries soils and settlements today Focusing on geographic concepts the book provides insights into the process of urbanization in Southeast Asia the region's colonial and post colonial history the Mekong River's political ecology the scales of contemporary water management and the design of territory This book will be relevant to academics who are interested specifically in the Mekong River and Lower Mekong Basin as well as in integrated water management planning It would be especially relevant to architects urbanists and landscape architects *Hot Sour Salty Sweet* Jeffrey Alford, Naomi Duguid, 2000-10-07 Luminous at dawn and dusk the Mekong is a river road a vibrant artery that defines a vast and fascinating region Here along the world's tenth largest river which rises in Tibet and joins the sea in Vietnam traditions mingle and exquisite food prevails Award winning authors Jeffrey Alford and Naomi Duguid followed the river south as it flows through the mountain gorges of southern China to Burma and into Laos and Thailand For a while the right bank of the river is in Thailand but then it becomes solely Lao on its way to Cambodia Only after three thousand miles does it finally enter Vietnam and then the South China Sea It was during their travels that Alford and Duguid who ate traditional foods in villages and small towns and learned techniques and ingredients from cooks and market vendors came to realize that the

local cuisines like those of the Mediterranean share a distinctive culinary approach Each cuisine balances with grace and style the regional flavor quartet of hot sour salty and sweet This book aptly titled is the result of their journeys Like Alford and Duguid s two previous works Flatbreads and Flavors a certifiable publishing event Vogue and Seductions of Rice simply stunning The New York Times this book is a glorious combination of travel and taste presenting enticing recipes in an odyssey rich in travel anecdote National Geographic Traveler The book s more than 175 recipes for spicy salsas welcoming soups grilled meat salads and exotic desserts are accompanied by evocative stories about places and people The recipes and stories are gorgeously illustrated throughout with more than 150 full color food and travel photographs In each chapter from Salsas to Street Foods Noodles to Desserts dishes from different cuisines within the region appear side by side A hearty Lao chicken soup is next to a Vietnamese ginger chicken soup a Thai vegetable stir fry comes after spicy stir fried potatoes from southwest China The book invites a flexible approach to cooking and eating for dishes from different places can be happily served and eaten together Thai Grilled Chicken with Hot and Sweet Dipping Sauce pairs beautifully with Vietnamese Green Papaya Salad and Lao sticky rice North Americans have come to love Southeast Asian food for its bright fresh flavors But beyond the dishes themselves one of the most attractive aspects of Southeast Asian food is the life that surrounds it In Southeast Asia people eat for joy The palate is wildly eclectic proudly unrestrained In Hot Sour Salty Sweet at last this great culinary region is celebrated with all the passion color and life that it deserves
