Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process

Postcards from Absurdistan Derek Sayer, 2022-11-01 A sweeping history of a twentieth century Prague torn between fascism communism and democracy with lessons for a world again threatened by dictatorship Postcards from Absurdistan is a cultural history of Prague from 1938 when the Nazis destroyed Czechoslovakia s artistically vibrant liberal democracy to 1989 when the country s socialist regime collapsed after more than four decades of communist party rule

Derek Sayer shows that Prague's twentieth century far from being a story of inexorable progress toward some end of history whether fascist communist or democratic was a tragicomedy of recurring nightmares played out in a land Czech dissidents dubbed Absurdistan. Situated in the eye of the storms that shaped the modern world Prague holds up an unsettling mirror to the absurdities and dangers of our own times. In a brilliant narrative Sayer weaves a vivid montage of the lives of individual Praguers: poets and politicians, architects and athletes, journalists and filmmakers, artists, musicians and comedians caught up in the crosscurrents of the turbulent half century following the Nazi invasion. This is the territory of the ideologist, the collaborator, the informer, the apparatchik, the dissident, the outsider, the torturer and the refugee, not to mention the innocent bystander who is always looking the other way and Václav Havel's greengrocer whose knowing complicity allows the show to go on. Over and over Prague exposes modernity's dreamworlds of progress as confections of kitsch. In a time when democracy is once again under global assault *Postcards from Absurdistan* is an unforgettable portrait of a city that illuminates the predicaments of the modern world. **Postcards from the Sonora Border** Daniel D. Arreola, 2017-02-21 *Postcards from the Sonora Border: Visualizing Place through a Popular Lens 1900s-1950s* examines the urban landscapes of Mexican border cities through picture postcards. This volume aims to capture the evolution of Sonora border towns over time and create a sense of visual time travel for the reader by relying on Arreola's personal collection of postcards. Ghosts of the Revolution in Mexican Literature and Visual Culture Erica Segre, 2013. The official centenary commemorating the Mexican Revolution of 1910 provided scholars with an opportunity to consider memorialization and its legacies and afterimages in the twentieth century through to the present time. This collection of new essays commissioned from experts based in Mexico, Europe and the United States plays on the interrelated notions of revisitation, haunting, residual traces and valediction to interrogate the Revolution's multiple appearances, reckonings and reconfigurations in art, photography, film, narrative, fiction, periodicals, travel, testimonies and poetry, examining key constituencies of creative media in Mexico that have been involved in historicizing, contesting or evading the mixed legacies of the Revolution. The interplay of themes, practices and contexts across the chapters, ranging from the 1920s through to the present day, draws on interdisciplinary thinking as well as new findings framing the volume's discourse with a deliberately multi-dimensional approach to an often homogenized topic. The contributors' scholarly referencing of artists, novelists, poets, photographers, foreign correspondents, critics, filmmakers and curators is detailed and wide-ranging, creating new juxtapositions that include some rarely studied material. **Miami Beach in Vintage Postcards** Patricia Kennedy, 2000. From the early 1900s when visitors reached the sparkling new bathing resort by ferry to the heyday of Art Deco hotels in the 1930s and beyond, Miami Beach has cast its spell over millions of people and been transformed into a world-class travel destination. Sandy beaches, a balmy climate, a vibrant local community and a distinctive architectural heritage certainly make Miami Beach a one-of-a-kind city. *Federal Register*, 1999-06-28. *Postcards from the Schoolhouse: Practitioner Scholars Examine Contemporary*
