*Film Noir* Andrew Spicer, 2018-10-08 *Film Noir* is an overview of an often celebrated but also contested body of films. It discusses film noir as a cultural phenomenon whose history is more extensive and diverse than American black and white crime thrillers of the forties. An extended Background Chapter situates film noir within its cultural context, describing its origin in German Expressionism, French Poetic Realism, and in developments within American genres: the gangster, crime, thriller, horror, and the Gothic romance, and its possible relationship to changes in American society. Five chapters are devoted to classic film noir: 1940-59 chapters explore its contexts of production and reception, its visual style, and its narrative patterns and themes; chapters on character types and star performances elucidate noir's complex construction of gender, with its weak, ambivalent males and predatory femmes fatales, and also provide a detailed analysis of three noir auteurs: Anthony Mann, Robert Siodmak, and Fritz Lang. Three chapters investigate neo-noir and British film noir; chapters trace the complex evolution of neo-noir in American cinema from the modernist critiques of *Night Moves* and *Taxi Driver* to the postmodern hybridity of contemporary noir, including *Seven*, *Pulp Fiction*, and *Memento*. The final chapter surveys the development of British film noir, a significant and virtually unknown cinema stretching from the thirties to Mike Hodges' *Croupier*. Films discussed include both little-known examples and seminal works such as *Double Indemnity*, *Scarlet Street*, *Kiss Me Deadly*, and *Touch of Evil*. A final section provides a guide to further reading, an extensive bibliography, and a list of over 500 films referred to in the text. Lucidly written, *Film Noir* is an accessible, informative, and stimulating introduction that will have a broad appeal to undergraduates, cineastes, film teachers, and researchers.

*The Cinema of Isolation* Martin F. Norden, 1994 Filmmakers have often encouraged us to regard people with physical disabilities in terms of pity, awe, humor, or fear. Others, who somehow deserve to be isolated from the rest of society. In this first history of the portrayal of physical disability in the movies, Martin Norden examines hundreds of Hollywood movies and notable international ones, finds their place within mainstream society, and uncovers the movie industry's practices for maintaining the status quo, keeping people with disabilities dependent and in their place. Norden offers a dazzling array of physically disabled characters who embody or break out of the stereotypes that have both influenced and been symptomatic of society's fluctuating relationship with its physically disabled minority. He shows us sweet innocents like Tiny Tim, obsessive avengers like Quasimodo, variations on the disabled veteran, and many others. He observes the arrival of a new set of stereotypes tied to the growth of science and technology in the 1970s and 1980s, and underscores movies like *My Left Foot* and *The Waterdance* that display a newfound sensitivity. Norden's in-depth knowledge of disability history makes for a particularly intelligent and sensitive approach to this long-overlooked issue in media studies.

considers the many forms of print media that served to inspire social problem films including journalism realist novels and sociological texts Cagle also explores their distinctive cinematic aesthetics Through a close analysis of films like Gentleman s Agreement The Lost Weekend and Intruder in the Dust he presents a compelling case that the visual style of these films was intimately connected to their more expressly political and sociological aspirations Sociology on Film demonstrates how the social problem picture both shaped and reflected the middle class viewer s national self image making a lasting impact on Hollywood s aesthetic direction
