prosperity at home the 2004 Spanish socialist government reasoned that they could no longer rely exclusively on unilateral measures old Cold War alliances or a Spain first approach Against the backdrop of this changing world the book explores the concept of effective multilateralism put forward by the PSOE in which Spain abandoned its hitherto unconditional support for the US and instead engaged in a series of multilateral collaborations with regions around the world Above all this study seeks to provide a new international history of contemporary Spain demonstrating how domestic changes intersected with global transformations and put forward the argument that diplomacy works
