**The Road to Dictatorship** ,1964      **The Road to Dictatorship** Theodor Eschenburg,1964      *The Road to Dictatorship* ,1964      *The Road to Dictatorship: Germany 1918-1933* ,1964      **The Road to Dictatorship** Lawrence Wilson,1964      **The Road to Dictatorship. Germany 1918-1933. Translated ... by Lawrence Wilson. Ten Contributions by Th. Eschenburg [and Others], Etc. (Reprinted.).** Theodor ESCHENBURG,Lawrence WILSON (Translator.),1970      *The Road to Dictatorship* ,      *The Road to Dictatorship: Germany 1918-1933 ; Ten Contributions by Th. Eschenburg ... [Et AL.] ; Translated From the German by Lawrence Wilson* ,1964      *European Dictatorships 1918-1945* Stephen J. Lee,2016-02-12 *European Dictatorships 1918 1945* surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe s states to dictatorships between the first and the second world wars From the notorious dictatorships of Mussolini Hitler and Stalin to less well known states and leaders Stephen J Lee scrutinizes the experiences of Russia Germany Italy Spain Portugal and Central and Eastern European states This fourth edition has been fully revised and updated throughout New material for this edition includes the most recent research on individual dictatorships a new chapter on the experiences of Europe s democracies at the hands of Germany Italy and Russia an expanded chapter on Spain a new section on dictatorships beyond Europe exploring the European and indigenous roots of dictatorships in Latin America Asia and Africa Extensively illustrated with images maps tables and a comparative timeline and supported by a companion website providing further resources for study [www.routledge.com/cw/lee/EuropeanDictatorships19181945](http://www.routledge.com/cw/lee/EuropeanDictatorships19181945) *European Dictatorships 1918 1945* is a clear detailed and highly accessible analysis of the tumultuous events of early twentieth century Europe      *The Road to Dictatorship, Germany 1918-1933* Theodor Eschenburg,1964      *Occupation and Insurgency* Colin D. Heaton,2008      **Germany and Europe 1919-1939** John Hiden,2014-09-25 This is the only short study in English to survey Germany s foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany s international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of new scholarship since the book first appeared in 1977      **A Companion to Nazi Germany** Shelley Baranowski,Armin Nolzen,Claus-Christian W. Szejnmann,2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical

insight from the Nazi Party's emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era's lasting legacy this book offers an in depth examination of modern history's most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich's ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today's political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world

**The Origins of the Second World War** Esmonde Manning Robertson,1971-01-21 This collection of essays deals with some of the problems posed by the origins of World War II Was World War II part of a developing world crisis or should it be seen purely in a European context Before 1960 general historical opinion held that World War I broke out World War II was precipitated Fritz Fischer's and A J P Taylor's challenge to this thesis caused a controversy which made it impossible to isolate the causes of the two World Wars Whether Hitler was an opportunist or a planner or both is discussed in a series of articles the introduction to which considers the irrational element in Hitler's character and the contradictions in his policy One author presents Hitler's attitude towards Japan and offers reasons why there was so little collusion between Germany and Japan before the end of 1937 Readers are introduced to the ideas of both American and Japanese writers as to the causes of the China Incident of July 1937 and its influence on European politics Other topics presented include Mussolini's role as an icebreaker for Hitler Chamberlain's policy of appeasement the Rome Agreements of 1935 which caused a rift between Britain and France over Ethiopia Hitler's attitude towards Japan Roosevelt's movement of the U S Fleet the defeat of France the Japanese occupation of Indo China and other key issues A plea for historians of the former belligerents to meet periodically in small groups to discuss research concludes this volume

The Popular Front in Europe Helen Graham,Paul Preston,1988-12-05 Out of the social and economic turmoil of Europe in the 1930s the Popular Front emerged as the spearhead of the left's bid to stop fascism in its tracks Fifty years on from the birth of the Popular Front this edited collection assesses the impact of the idea of bourgeois proletarian alliance on the European left as a whole It also examines the fate of the Popular Front governments both in France which remained nominally at peace and in Spain where the bitter strife over social and economic reform erupted into open civil war

Borrowing Constitutional Designs Cindy Skach,2011-02-11 After the collapse of communism some thirty countries scrambled to craft democratic

constitutions Surprisingly the constitutional model they most often chose was neither the pure parliamentary model found in most of Western Europe at the time nor the presidential model of the Americas Rather it was semi presidentialism a rare model known more generally as the French type This constitutional model melded elements of pure presidentialism with those of pure parliamentarism Specifically semi presidentialism combined a popularly elected head of state with a head of government responsible to a legislature Borrowing Constitutional Designs questions the hasty adoption of semi presidentialism by new democracies Drawing on rich case studies of two of the most important countries for European politics in the twentieth century Weimar Germany and the French Fifth Republic Cindy Skach offers the first theoretically focused and historically grounded analysis of semi presidentialism and democracy She demonstrates that constitutional choice matters because under certain conditions semi presidentialism structures incentives that make democratic consolidation difficult or that actually contribute to democratic collapse She offers a new theory of constitutional design integrating insights from law and the social sciences In doing so Skach challenges both democratic theory and democratic practice This book will be welcomed not only by scholars and practitioners of constitutional law but also by those in fields such as comparative politics European politics and history and international and public affairs Democracy Against Itself Mark Chou, 2014-06-18 Why do some democracies self destruct Using the collapse of democracy in ancient Athens and the Weimar Republic as well as the uncertain fate of democratic rule in the United States and China today as illustrative examples Mark Chou examines the conditions and characteristics of democracy that make it prone to self destruct In drawing out the political lessons from these past collapses he explains how a democracy can simply by being democratic sow the seeds of its own destruction **The Oxford Handbook of Comparative Constitutional Law** Michel Rosenfeld, András Sajó, 2012-05-17 The field of comparative constitutional law has grown immensely over the past couple of decades Once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now moved front and centre Driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially Even in the United States where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U S Supreme Court The trend towards harmonization and international borrowing has been controversial Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law Can a parliamentary democracy be compared to a presidential one A federal republic to a unitary one Moreover what about differences in ideology or national identity Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context Is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts These controversies form

the background to the field of comparative constitutional law challenging not only legal scholars but also those in other fields such as philosophy and political theory Providing the first single volume comprehensive reference resource the Oxford Handbook of Comparative Constitutional Law will be an essential road map to the field for all those working within it or encountering it for the first time Leading experts in the field examine the history and methodology of the discipline the central concepts of constitutional law constitutional processes and institutions from legislative reform to judicial interpretation rights and emerging trends

**Explaining Auschwitz and Hiroshima** Richard J. B. Bosworth, 2002-01-31 Explaining Auschwitz and Hiroshima explores the way in which the main combatant societies of the Second World War have historicised that experience Since 1945 debates in Germany about the past that would not fade away have been reasonably well known But in this book Richard Bosworth maintains that Germany is not unique He argues that in Britain France Italy the USSR and Japan as well as in Germany the traumatic history of the long Second World War has remained crucial to the culture and the politics of post war societies Each has felt a compelling need to interpret this past event and thus to explain Auschwitz and Hiroshima Bosworth explores the bitter controversies that have developed around a particular interpretation of the war such as disputes over A J P Taylor's Origins of the Second World War Marcel Ophüls's film The Sorrow and the Pity Renzo De Felice's biography of Mussolini in the 1970s or in post Glasnost debates about the historiographies of the Commonwealth of Independent States Richard Bosworth's book is a wide ranging and thoughtful excursion into comparative history

**The Peculiarities of German History** David Blackbourn, Geoff Eley, 1984-12-13 A well written stimulating piece of scholarship German Studies Review In a major re evaluation of the cultural political and sociological assumptions about the peculiar course of modern German history the authors challenge the widely held belief that Germany did not have a Western style bourgeois revolution Contending that it did indeed experience one but that this had little to do with the mythical rising of the middle class the authors provide a new context for viewing the tensions and instability of 19th and early 20th century Germany
