Road To Now Taking Stock Of Evolution And Our Place In The World:

The Atheist's Bible Geoff Linsley, 2008-07 Did God create the universe If so who created him The Atheist's Bible tackles these complex and important ancient mysteries With the discoveries of modern science author Geoff Linsley offers a new look at the questions most philosophers throughout history have thought unanswerable Mysteries such as Why does the universe exist as it does and When did it come about are thought to be demystified by modern science Mixing scientific knowledge with common sense Linsley answers these questions in an easy to understand dialogue The Atheist's Bible compiles the case for an atheistic universe in a thorough discussion provides facts that science has gathered about existence and creates a new view of the nature of the universe Linsley searched through scientific discussions of how nature operates through religious wisdom and through topics thought to be paranormal to present the first complete theory regarding the origin and evolution of existence and humanity A collection of several books with individual purposes The Atheist's Bible furthers the understanding of reality and helps to overcome the fear of the unknown Linsley challenges the realm of theism and looks outside of it to explain how the universe functions The depth of research and the volume of information given make this book exceptional Linsley treats faith respectfully and doesn't get into baseless arguments against views that oppose his own This book is well written very informational and entertaining Foreward CLARION Review

The Face in the Smaller Picture Melvin Bolton, 2008 Melvin Bolton's writing skills have long been recognized but never before has he combined fact fiction and prediction to such memorable effect The story is set in the near future Organized crime has capitalized on growing social upheaval around the world Two families from entirely different cultures but possibly having one crucial connection are caught up in the same deadly snare Intensely personal at the family level and yet global in perspective The Face in the Smaller Picture has the authentic feel of a historical novel while looking forward instead of backward It is a story to be savoured for its drama and characterizations and to be thought about for its politically unfettered view of our impact upon the planet

Out of Chaos Wayne M. Bundy, 2007-12 Are we really the pinnacle of 4500 million years of evolution Closely related to the aggressive chimpanzees have we evolved enough to cope The nightly news on television that marvelous technical invention of scientists no turned into a field too barren to be termed a wasteland provides little hope that Homo sapiens is more than another of nature

Ferocious Minds Damien Broderick, 2005-01-01 Two centuries ago the first Enlightenment failed when its dream of reason smashed into the passions and fury of stubborn humans Without a deep broad understanding of the world the emerging Enlightenment was left floundering its best impulses perverted into the bloody excess of the French Revolution Arguably its idealism and noble goals led directly and shockingly to the 20th century's totalitarian nightmares Now the 21st century is learning anew the Faustian hunger to know everything that can be known But Enlightenment values of reason and tolerance enriched by new knowledge face a complex world no less eager to embrace medieval terrorism and ancient superstitions a world bizarrely denying itself many of the fresh opportunities and
