### **Road To Nab End The A Lancashire Childhood:**

**The Road To Nab End** William Woodruff, 2012-09-20 William Woodruff had the sort of childhood satirised in the famous Monty Python Yorkshireman sketch The son of a weaver he was born on a pallet of straw at the back of the mill and two days later his mother was back at work Life was extremely tough for the family in 1920 s Blackburn a treat was sheep s head or cow heel soup and got worse when his father lost his job when the cotton industry started its terminal decline Woodruff had to find his childhood fun in the little free time he had available between his delivery job and school but he never writes self pityingly leaving the reader to shed the tears on his behalf At ten his mother takes him on his one and only holiday to Blackpool He never wonders where they get the money to do so only where she disappears to with strange men in the afternoons before taking him to the funfair pockets jingling an hour or two later NAB END is certainly not all grime and gloom however there s a cast of great minor characters from an unfrocked vicar to William s indomitable grandmother Bridget who lend some colour and humour and all against the strongly rendered social backdrop of the 1920s and 1930s

**Men and Menswear** Laura Ugolini, 2017-03-02 Despite increasing academic interest in both the study of masculinity and the history of consumption there are still few published studies that bring together both concerns By investigating the changing nature of the retailing of menswear this book illuminates wider aspects of masculine identity as well as patterns of male consumption between the years 1880 and 1939 While previous historical studies of masculinity have focused overwhelmingly on the moral spiritual and physical characteristics associated with notions of manliness this book considers the relationship between men and activities which were widely considered to be at least potentially unmanly selling as well as buying clothes thus shedding new light on men s lives and identities in this period

Johnston, Emma Short, 2015-12-22 Because all wars in the twenty first century are potentially global wars the centenary of the first global war is the occasion for reflection This volume offers an unprecedented account of the lives stories letters games schools institutions such as the Boy Scouts and YMCA and toys of children in Europe North America and the Global South during the First World War and surrounding years By engaging with developments in Children's Literature War Studies and Education and mining newly available archival resources including letters written by children the contributors to this volume demonstrate how perceptions of childhood changed in the period Children who had been constructed as Romantic innocents playing safely in secure gardens were transformed into socially responsible children actively committing themselves to the war effort In order to foreground cross cultural connections across what had been perceived as enemy lines perspectives on German American British Australian and Canadian children's literature and culture are situated so that they work in conversation with each other The multidisciplinary multinational range of contributors to this volume make it distinctive and a particularly valuable contribution to emerging studies on the impact of war on the lives of children      Folk Song in England Steve Roud, 2017-08-15 In Victorian times England was famously dubbed the land without music but one of the great musical discoveries of the early twentieth century was that England had a vital heritage of folk song and music which was easily good enough to stand comparison with those of other parts of Britain and overseas Cecil Sharp Ralph Vaughan Williams Percy Grainger and a number of other enthusiasts gathered a huge harvest of songs and tunes which we can study and enjoy at our leisure But after over a century of collection and discussion publication and performance there are still many things we don't know about traditional song Where did the songs come from Who sang them where when and why What part did singing play in the lives of the communities in which the songs thrived More importantly have the pioneer collectors restricted definitions and narrow focus hindered or helped our understanding This is the first book for many years to investigate the wider social history of traditional song in England and draws on a wide range of sources to answer these questions and many more      **Personal Life** Carol Smart, 2013-05-20 For more than a decade Carol Smart has been at the forefront of debates about the sociology of the family Yet she has become frustrated by the fixation of many commentators with the supposed decline of commitment and even the decline of the possibility of family life In this exciting new book she puts forward a new way of understanding families and relationships Breaking with conventional wisdom her book offers a fresh conceptual approach to understanding personal life which realigns empirical research with theoretical analysis She gives emphasis to ideas of connectedness relationality and embeddedness rejecting many of the assumptions found in theories of individualisation and de traditionalisation by authors such as Beck and Beck Gernsheim Bauman and Giddens Instead her approach prioritises the bonds between people the importance of memory and cultural heritage the significance of emotions both positive and negative how family secrets work and change over time and the

underestimated importance of things such as shared possessions or homes in the maintenance and memory of relationships. This ground breaking text will be essential reading for anyone who cares about the future of families and personal relationships and who wants to understand this most intimate area of social life. So clean Brian Lewis, 2017-10-03 This book is an unorthodox biography of William Hesketh Lever 1st Lord Leverhulme 1851-1925 the founder of the Lever Brothers Sunlight Soap empire. Unlike previous biographies which have focused on the man's life story and eccentricities or just considered one aspect of his career So clean places him squarely in his social and cultural context and is fully informed by recent historical scholarship. Much more than a warts and all biography the book uses Lever as an entry point for contextualized and comparative essays on the history of advertising on factory paternalism town planning the Garden City movement and their ramifications across the twentieth century and on colonialism and forced labour in the Belgian Congo and the South Pacific. It concludes with a discussion of his extraordinary attempt in his final years to transform crofting and fishing in the Outer Hebrides. Written in an engaging and accessible style So Clean will appeal to academics and students working in business social cultural and imperial history.

*Being boys* Melanie Tebbutt, 2017-10-03 This original and fresh approach to the emotions of adolescence focuses on the leisure lives of working class boys and young men in the inter war years. *Being Boys* challenges many stereotypes about their behaviour. It offers new perspectives on familiar and important themes in interwar social and cultural history ranging from the cinema and mass consumption to boys clubs personal advice pages street cultures dancing sexuality mobility and the body. It draws on many autobiographies and personal accounts and is particularly distinctive in offering an unusual insight into working class adolescence through the teenage diaries of the author's father which are interwoven with the book's broader analysis of contemporary leisure developments. *Being Boys* will be of interest to scholars and students across the humanities and social sciences and is also relevant to those teaching and studying in the fields of child development education and youth and community studies.

**The Road to Nab End** William Woodruff, 2002-03 On Foot Joseph Amato, 2004-11-01 A sweeping social history on walking from humanity's first steps to modern urban pavement pounders. I have met with but one or two persons in the course of my life who understand the art of Walking that is of taking walks who had a genius so to speak for sauntering. Henry David Thoreau 1817-1862 Everything is within walking distance if you have the time. Stephen Wright 1955 For approximately six million years humans have walked the earth. This is the story of how why and to what effect we put one foot in front of the other. Walking has been the primary mode of locomotion for humans until very recent times when we began to sit and ride first on horses and in carriages then trains and bicycles and finally cars trucks buses and airplanes rather than go on foot. The particular way we saunter clomp meander shuffle plod along jaunt tramp and wander on foot conveys a wealth of information about our identity condition and destination. In this fast stepping social history Joseph A. Amato takes us on a journey of walking from the first human migrations to marching Roman legions and ancient Greeks who considered man a featherless biped from trekking medieval

pilgrims to strolling courtiers from urban pavement pounders to ambling window shoppers to suburban mall walkers Concentrating on walking in Europe and North America and with particular focus on how walking differed according to social class Amato distinguishes how where when who what and under which conditions people moved on foot He identifies crucial transformations in the history of walking including the adoption of the horse by the mounted warrior the rise of public display among European nobility and the building of roads and transportation systems which led to the inevitable ascent of the wheel over the foot

Sex Before the Sexual Revolution Simon Szreter, Kate Fisher, 2010-10-14 What did sex mean for ordinary people before the sexual revolution of the 1960s and 1970s who were often pitied by later generations as repressed unfulfilled and full of moral anxiety This book provides the first rounded first hand account of sexuality in marriage in the early and mid twentieth century These award winning authors look beyond conventions of silence among the respectable majority to challenge stereotypes of ignorance and inhibition Based on vivid compelling and frank testimonies from a socially and geographically diverse range of individuals the book explores a spectrum of sexual experiences from learning about sex and sexual practices in courtship to attitudes to the body marital ideals and birth control It demonstrates that while the era's emphasis on silence and strict moral codes could for some be a source of inhibition and dissatisfaction for many the culture of privacy and innocence was central to fulfilling and pleasurable intimate lives

**A Concise History of the Modern World** W. Woodruff, 2016-01-22 By investigating the major changes of world history during the past five hundred years this book provides the necessary global perspective to understand the geopolitical and geoeconomic changes facing us today We have reached a crucial transitional stage in world history in which the world will no longer be shaped by the single image of western modernism but increasingly by the image of all cultures and civilizations The need to take a world view which this book provides has become acute

Childhood in Modern Europe Colin Heywood, 2018-09-06 This invaluable introduction to the history of childhood in both Western and Eastern Europe between c 1700 and 2000 seeks to give a voice to children as well as adults wherever possible The work is divided into three parts covering in turn childhood in rural village societies during the eighteenth and nineteenth centuries in the towns during the Industrial Revolution period c 1750 1870 and in society generally during the late nineteenth and twentieth centuries Each part has a succinct introduction to a number of key topics such as conceptions of childhood infant and child mortality the material conditions of children their cultural life the welfare facilities available to them from charities and the state and the balance of work and schooling Combining a chronological with a thematic approach this book will be of particular interest to students and academics in a number of disciplines including history sociology anthropology geography literature and education
