Rosewarne, 2014-10-15 Through reference to over six hundred scenes from film and television as well as a diverse and cross disciplinary academic bibliography Masturbation in Pop Culture investigates the role that masturbation serves within narratives while simultaneously mirroring our complicated relationship with the practice in real life and sparking discussions about a broad range of hot button sexual subjects From sitcoms to horror movies teen comedies to erotic thrillers autoeroticism is easily detected on screen The portrayal however is not a simple one Just as in real life a paradox exists where most of us masturbate and accept it as normal and natural there simultaneously exists a silence about it that we do it but we don't talk about it that we enjoy it but we laugh about it The screen reflects this conflicted relationship It is there

hundreds and hundreds of times but it is routinely whispered about mocked and presented as a punchline and is inevitably portrayed as controversial at the very least Masturbation in Pop Culture investigates the embarrassment and squeamishness sexiness and inappropriateness of masturbation showcasing and analyzing how our complex off screen relationship is mirrored in film and television **Business** ,1909 American Housekeeper ,1909 **A Geography of Digestion** Nicholas Bauch,2017 A Geography of Digestion explores the legacy of the Kellogg Company one of America s most enduring and storied food enterprises In the late nineteenth century company founder John H Kellogg was experimenting with state of the art advances in nutritional and medical science at his Battle Creek Sanitarium At the same time he was involved in overhauling the form and function of the broader landscapes in which his health practice was situated Innovations in food manufacturing machinery urban sewer infrastructure and agricultural technology came together to forge an extensible geography of his patients bodies changing the way Americans consumed and digested food In this novel approach to the study of the Kellogg enterprise Nicholas Bauch asks his readers to think geographically about the process of digesting food Beginning with the stomach Bauch moves outward from the sanitarium through the landscapes and technologies that materialized Kellogg s particular version of digestion Far from a set of organs confined to the epidermal bounds of the body the digestive system existed in other places Moving from food processing machines to urban sewerage to agricultural fields A Geography of Digestion paints a grounded portrait of one of the most basic human processes of survival the incorporation of food into our bodies leading us to question where exactly our bodies are located Provided by publisher **Playing Fast and Loose:** Michael K. Elias,2003-04-01 Co winner of the Perkins Prize from the Society for the Study of Narrative Literature Has twentieth century political violence destroyed faith in historical knowledge What happens to historical fiction when history is seen as either a form of Western imperialism or a form of postmodern simulation In *Sublime Desire* Amy Elias examines our changing relationship to history and how fiction since 1960 reflects that change She contends that postmodernism is a post traumatic imagination that is pulled between two desires the political desire to acknowledge the physical violence of twentieth century history and the yearning for an escape from that history into a ravishing realm of historical certainty Torn between these desires both historical fiction and historiography after 1960 redefine history as the sublime a territory beyond lived experience that is both unknowable and seductive In the face of a failure of Enlightenment ideals about knowledge and the West s own history of violence post World War II history becomes a desire for the secular sacred sublime for awe certainty and belief *Sublime Desire* is an eloquent melding of theory and practice Mixing the canonical with the unexpected Elias analyzes developments in the historical romance genre from Walter Scott s novels to novels written today She correlates developments in the historical romance to similar changes in historiography and philosophy *Sublime Desire* draws engagingly on more than thirty relevant texts from Tolstoy s *War and Peace* to Jeanette Winterson s *Sexing the Cherry* Charles Johnson s *Dreamer* and Charles Frazier s *Cold Mountain* But the book also examines theories of postmodern space and time and defines the difference between postmodern and postcolonial historical perspectives The final chapter draws from trauma theory in Holocaust studies to define how fiction can pose an ethical alternative to aestheticized history while remaining open to pluralism and democratic values In its range and

sophistication *Sublime Desire* is a valuable addition to postmodernist studies as well as to studies of the historical romance novel
