**Education Roads Less Traveled** Mitch Pearlstein, 2019-02-15 Every year large numbers of American young people who are not terribly interested in attending a four year college reluctantly enroll anyway effectively pressured by combinations of parents peers teachers guidance counselors and the normative air they breathe More than occasionally they wind up confirming that collegiate life is not for them and sooner or later drop out From there again more than occasionally they find themselves unemployed or underemployed in big time student debt and quite possibly feeling like a failure Cratered paths like these routinely stunt entries to middle class jobs and careers These are often needless delays and losses because other education and career routes are primed to better serve millions of young men and women especially those who enjoy working

with their hands Taking advantage of these routes also simultaneously enriches our economy Digging deeply into issues like these is the book's main aim Helping teenagers think through what they want to do with their lives occupationally is its main educational mission Recognizing the economic and other dangers posed by severe skill gaps made worse by the retirement of skilled baby boomers adds urgency to the mix

**Serving Vulnerable and Marginalized Populations in Social and Educational Contexts** Anies Al-Hroub, Sally Reis, Joseph Madaus, Itab Shuayb, 2024-04-26 There is evidence that the global COVID 19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups including exceptional learners stateless street migrant and refugee children and youths and the limited use of frameworks of emergency planning with and for marginalized and at risk individuals These challenges are multi sectoral and intersecting and they require multi and interdisciplinary interventions to inform inclusive responses These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education online remote and blended education Intersecting forms of discrimination such as gender socioeconomic and legal status further exacerbate the problem This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences problems and needs from an educational perspective thus bringing insights into their vulnerabilities during the pandemic

**The Road Ahead for America's Colleges and Universities** Robert B. Archibald, David H. Feldman, 2017-07-03 The US higher education system is on the verge of a revolution so some observers claim Archibald and Feldman leading analysts provide an incisive overview of the challenges facing and possibilities for America's universities and colleges in their training future generations And they demonstrate that our higher education system is resilient and adaptable enough to weather the internal external and technological threats without changing campuses beyond recognition *The Road Ahead for America's Colleges and Universities* examines the threats posed to the current health of higher education by rising tuition and falling government support as well as from new digital technologies rippling through the entire economy Some predict disaster pointing to high costs exploding debt and a digital tsunami that supposedly will combine to disrupt and sweep away many of the nation's higher education institutions or change them beyond recognition Archibald and Feldman provide a more nuanced view They argue that the bundle of services that four year colleges and universities provide will retain its value for

the traditional age range of college students Less certain Archibald and Feldman argue is whether the system will continue to be a force for social and economic opportunity The threats are most dire at schools that disproportionately serve America s most underprivileged students At the same time growing income inequality reduces the ability of many students and their families to pay for higher education Archibald and Feldman suggest a range of policy options at the state and federal level that will help America s higher education system continue to fulfill its promise      **Leadership Strategies for Community**
