Roald Amundsen And The Quest For The South Pole:

Roald Amundsen and the Quest for the South Pole Leo Flaherty, William H. Goetzmann, 1992 Chronicles Roald Amundsen's expedition to the South Pole **The South Pole (Complete Edition)** Roald Amundsen, 2018-12-21 This eBook has been formatted to the highest digital standards and adjusted for readability on all devices The South Pole is a book by Roald Amundsen and it represents an interesting first hand account of the Norwegian expedition's successful attempt to reach the South Pole in 1911 Amundsen spends a great deal of time talking about logistics and placing of depots in preparation for his polar attempt all the way from the preparation leading up to the initial sea voyage the voyage itself and then the establishing of a camp at the Antarctic Although they were lucky with the weather and Amundsen attributed the success of the expedition to good luck it is obvious that the Norwegian expedition was well prepared and ready for the troubles ahead the equipment the sledges with well trained dogs the supply depots with seal meat at regular intervals along the route the sunglasses to avoid snow blindness it was all thought of in advance South With the Sun Lynne Cox, 2011 An account of the famed explorer's career offers insight into his successful expeditions as well as his role in inspiring the author's own achievements

Race to the Pole Ranulph Fiennes, 2005-11-16 Now in paperback the real story of Captain Robert Scott's legendary Antarctic quest told by the man whom the Guinness Book of World Records has proclaimed the world's greatest living explorer In 1911 Captain Robert Scott and his competitor Roald Amundsen conquered the unconquerable Antarctica This perilous race to the South Pole claimed the life of Scott and became the stuff of legend as well as scrutiny This compelling meticulously researched history of Captain Scott and his fatal journey by renowned modern day explorer Sir Ranulph Fiennes holder of 10 expeditionary records is the definitive account of this hotly debated quest Fiennes offers an account of Scott's motivations and aspirations for the Pole and his historic clash with Amundsen over goals and approaches He also reveals the unpredictably disastrous weather patterns that led to the extreme cold that ultimately doomed Scott's return trip Infused with the intensity of fiction and exhibiting an exhaustive eye for detail found in the greatest historical biographies Race to the Pole is a prodigious achievement and certain to become a classic in the literature of exploration The South Pole: An Account of the Norwegian Antarctic Expedition in the "Fram" 1910-12 □ Volumes 1 and 2 Roald Amundsen, 2020-09-28 On February 10 1911 we started for the South to establish depots and continued our journey until April 11 We formed three depots and stored in them 3 tons of provisions including 22 hundredweight of seal meat As there were no landmarks we had to indicate the position of our depots by flags which were posted at a distance of about four miles to the east and west The first barrier afforded the best going and was specially adapted for dog sledging Thus on February 15 we did sixty two miles with sledges Each sledge weighed 660 pounds and we had six dogs for each The upper barrier surface was smooth and even There were a few crevasses here and there but we only found them dangerous at one or two points The barrier went in long regular undulations The weather was very favourable with calms or light winds The lowest temperature at this

station was 49 F which was taken on March 4 When we returned to winter quarters on February 5 from a first trip we found that the Fram had already left us With joy and pride we heard from those who had stayed behind that our gallant captain had succeeded in sailing her farther south than any former ship So the good old Fram has shown the flag of Norway both farthest north and farthest south The most southerly latitude reached by the Fram was 78 41 Before the winter set in we had 60 tons of seal meat in our winter quarters this was enough for ourselves and our 110 dogs We had built eight kennels and a number of connecting tents and snow huts When we had provided for the dogs we thought of ourselves Our little hut was almost entirely covered with snow Not till the middle of April did we decide to adopt artificial light in the hut This we did with the help of a Lux lamp of 200 candle power which gave an excellent light and kept the indoor temperature at about 68 F throughout the winter The ventilation was very satisfactory and we got sufficient fresh air The hut was directly connected with the house in which we had our workshop larder storeroom and cellar besides a single bathroom and observatory Thus we had everything within doors and easily got at in case the weather should be so cold and stormy that we could not venture out

The Return of the South Pole Sled Dogs Mary R. Tahan, 2021-02-25 This book documents the return of the surviving sled dogs of the Norwegian Antarctic Expedition of 1910 1912 from Antarctica where they had helped Roald Amundsen become the first human to reach the South Pole This book is the sequel to the highly acclaimed Roald Amundsen's Sled Dogs The Sledge Dogs Who Helped Discover the South Pole It chronicles how the sled dogs were used internationally to further promote the expedition's great achievement and follows some of the dogs as they undertake subsequent expeditions with Douglas Mawson's Australasian Antarctic Expedition of 1911 1914 which made scientific discoveries and with Arve Staxrud's Norwegian Arctic Rescue Mission of 1913 which saved members of the Herbert Schröder Stranz German Arctic Expedition The book tracks the remaining 39 sled dogs to their next challenging adventures and their final destinations in Argentina Norway Antarctica and Australia Like its predecessor the book portrays how Amundsen continued to utilize the Polar dogs both in their lives and in their deaths to propel his career and solidify his expedition's image

The Image in Early Cinema Scott Curtis, Philippe Gauthier, Tom Gunning, Joshua Yumibe, 2018-03-22 1 This book is a fascinating look at how early cinema and moving images inspired and were inspired by other more static forms of visual culture such as painting photography and tableaux vivants The contributors to this volume demonstrate how cinema responded to and was positioned within broader artistic and cultural frameworks 2 This book is another strong contribution to the Proceedings of Domitor series of which we are now the sole publishers 3 It will benefit from our well established reputation in early cinema studies

South: Scott and Amundsen's Race to the Pole Hunter Stewart, 2015-10-08 The race to reach the South Pole for the first time was an unparalleled adventure in the early twentieth century South by historian Hunter Stewart chronicles the competition between two fierce rivals Robert F Scott and Roald Amundsen to secure their place in history as the first man to lead an expedition to the most uninhabitable place on earth South dramatically tells the story of the quest that is marked by heartbreak greed ego and bravery not only by Scott and Amundsen but by the courageous crews and financial backers who supported them The journey to reach the South Pole was truly as it was later called The Heroic Age of Arctic Exploration

Roald Amundsen Explores the South Pole Nel Yomtov, 2015-08-01 For Roald Amundsen a passion for adventure started early on As a young boy he slept with the windows open even during frigid Norwegian winters to prepare himself for the life of polar exploration Be sure to bundle up for this thrilling read

The United States in Antarctica, 1997 This document represents the final report of the United States Antarctic Program External Panel The report has the unanimous approval of all 11 panel members and draws upon our collective experience which includes some 44 individual trips to Antarctica involving visits to all three U S stations each research ship support icebreakers and numerous field sites As a panel we visited McMurdo Station and South Pole Station and toured support facilities at Christchurch We received approximately 70 briefings and conducted 80 one on one meetings with individuals involved in virtually all aspects of the Antarctic Program Over 200 inputs were received in

response to our request for public comments During visits to McMurdo and the Pole the Panel conducted informal Town Meetings and was the beneficiary of numerous comments by members of those communities having first hand experience in day to day operations We are most appreciative of the candor and professionalism with which we were treated by all those with whom we came into contact and in particular the members of the National Science Foundation who so expertly and constructively supported our efforts We believe the U S Antarctic Program is well managed involves high quality science and is important to the region as well as to the United States We also believe that in the current budget environment costs must be reduced preferably through increased efficiency and reinvention but if not through reduced scope Recommendations are offered herein to help ensure the continued viability of the program into the 21st century **Bulletin of the Geographical**
