Starnes, 2010-03-12 A sophisticated inquiry into tourism's social and economic power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region s New

South industry After 1865 the development of railroads and the bugeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was futher bolstered by partnerships between state and federal agencies local boosters and outside developers to create the atrtactions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes s study provides a better understanding of the significant role that tourism played in shaping communities across the South A Bibliography of Tennessee History, 1973-1996 W. Calvin Dickinson, Eloise R. Hitchcock, 1999 With some 6 000 entries A Bibliography of Tennessee History will prove to be an invaluable resource for anyone students historians librarians genealogists engaged in researching Tennessee s rich and colorful past A sequel to Sam B Smith s invaluable 1973 work Tennessee History A Bibliography this book follows a similar format and includes published books and essays as well as many unpublished theses and dissertations that have become available during the intervening years The volume begins with sections on Reference Natural History and Native Americans Its divisions then follow the major periods of the state s history Before Statehood State Development Civil War Late Nineteenth Century Early Twentieth Century and Late Twentieth Century Sections on Literature and County Histories round out the book Included is a helpful subject index that points the reader to particular persons places incidents or topics Substantial sections in this index highlight women's history and African American history two areas in which scholarship has proliferated during the past two decades The history of entertainment in Tennessee is also well represented in this volume including for example hundreds of citations for writings about Elvis Presley and for works that treat Nashville and Memphis as major show business centers. The Literature section meanwhile includes citations for fiction and poetry relating to Tennessee history as well as for critical works about Tennessee writers Throughout the editors have strived to achieve a balance between comprehensive coverage and the need to be selective. The result is a volume that will benefit researchers for years to come The Editors W Calvin Dickinson is professor of history at Tennessee Technological University Eloise R Hitchcock is head reference librarian at the University of the South **The Blue Ridge Stemwinder** John R. Moonshiners and Prohibitionists Bruce E. Stewart,2011-04-22 A masterly study of how the business of homemade liquor shaped the history and culture of a region Journal of American History Homemade liquor has played a prominent role in the Appalachian economy for nearly two centuries The region endured profound transformations during the extreme prohibition

movements of the nineteenth century when the manufacturing and sale of alcohol an integral part of daily life for many Appalachians was banned Moonshiners and Prohibitionists The Battle over Alcohol in Southern Appalachia chronicles the social tensions that accompanied the region s early transition from a rural to an urban industrial economy It analyzes the dynamic relationship of the bootleggers and opponents of liquor sales in western North Carolina as well as conflict driven by social and economic development that manifested in political discord and also explores the life of the moonshiner and the many myths that developed around hillbilly stereotypes A much needed contribution to our understanding of the complex social economic religious and cultural issues underlying the prohibition impulse that swept the South between 1880 and 1920 Journal of Southern History Wildlife, Wildflowers, and Wild Activities Jennifer A. Bauer, 2006 The outdoors come to life in this collection of stories games crafts investigations and hands on activities meant to accompany excursions into the fields forests and wetlands of southern Appalachia The region s rich natural diversity is highlighted from its low elevation coves to its highland ridges and balds Because the southern Appalachian Mountains provide diverse habitats for plants and animals every visit presents a new adventure With an emphasis on the importance of a good conservation ethic along with suggestions on how to get involved in community conservation efforts explorers of all ages can learn about topics such as plants animals microscopic life life after dark and environmental awareness Mitchell County Michael C. Hardy, 2009 Nestled in the mountains of western North Carolina Mitchell County was created in 1861 and was named for Dr Elisha Mitchell a University of North Carolina professor who died in 1857 while remeasuring the mountain that now bears his name Although the appropriately named mountain lies in adjacent Yancey County Mitchell County has no shortage of claims to fame it is well known for the Clinchfield Railroad the Carolina Theater the Blue Ridge Parkway the Penland School and the infamous Frankie and Charlie Silver murder case There is also much more to Mitchell County than its best known sites and figures Mica and feldspar mining the orchard at Altapass churches the Wing Academy Bakersville and Spruce Pine all have their own unique histories Within the pages of this book are images of the famous and the ordinary the routine and the remarkable the lasting and the transitory The photographs come from all over Mitchell County and celebrate the area s unique Appalachian culture Space, Place and Religious Landscapes Darrelyn Gunzburg, Bernadette Brady, 2020-10-01 Exploring sacred mountains around the world this book examines whether bonding and reverence to a mountain is intrinsic to the mountain constructed by people or a mutual encounter Chapters explore mountains in England Scotland Wales Italy Ireland the Himalaya Japan Greece USA Asia and South America and embrace the union of sky landscape and people to examine the religious dynamics between human and non human entities. This book takes as its starting point the fact that mountains physically mediate between land and sky and act as metaphors for bridges from one realm to another recognising that mountains are relational and that landscapes form personal and group cosmologies. The book fuses ideas of space place and material religion with cultural environmentalism and takes an interconnected approach to material religio landscapes In

this way it fills the gap between lived religious traditions personal reflection phenomenology historical context environmental philosophy myths and performativity In defining material religion as active engagement with mountain forming and humanshaping landscapes the research and ideas presented here provide theories that are widely applicable to other forms of material religion High Vistas George Ellison, 2011-11-18 High Vistas is the first anthology devoted to nature and descriptive writing from Western North Carolina and the Great Smoky Mountains inclusive of the Tennessee side of the present day Great Smoky Mountains National Park Arranged chronologically with annotations the twenty one selections in this second of two volumes display the variety and development of nature and descriptive writing in the region during the twentieth century through today Blue Ridge Fire Towers Robert Sorrell, 2015-04-06 Fire lookout towers have graced the highest peaks in the Blue Ridge Mountains for more than a century Early mountaineers and conservationists began constructing lookouts during the late 1800s By the 1930s states and the federal government had built thousands of towers around the country many in the Blue Ridge While technology allowed forestry services to use other means for early detection of fires many towers still stand as a testament to their significance Author Robert Sorrell details the fascinating history of the lookouts in the Blue Ridge's forests Seekers of Scenery Kevin E. O'Donnell, Helen Hollingsworth, 2004 Eighteen articles culled from this body of literature including work by Rebecca Harding Davis W E B DuBois Charles Dudley Warner and Constance Fenimore Woolson make up this volume Some passages now read as environmental elegy descriptions of old growth forests long since cut waterfalls now dammed vistas now hidden behind pollution on high ridges My Days J. Parker Huber, 2006 Compiled from John Muir's journal entries letters and hundreds of additional sources this resource presents a detailed examination of Muir's travels throughout New Englandfrom the mountains of Maine to the halls of Harvard University With comprehensive insights into Muir's wanderings this unique reference discusses the beginnings of the environmental movement as well as how 19th century New England literary society evolved This distinctive look at Muir showcases how he was just as much shaped by the cultural landscapes of the East as he was by the pathless expanses of the Tennessee Wildlife and Conservationist ,2002 West
