Caricature and Realism in the Romantic Novel Olivia Ferguson, 2023-11-02 What was caricature to novelists in the Romantic period Why does Jane Austen call Mr Dashwood's wife a strong caricature of himself Why does Mary Shelley describe the body of Frankenstein's creature as in proportion but then distorted in its proportions and does caricature have anything to do with it This book answers those questions shifting our understanding of caricature as a literary critical term in the decades when the English novel was first defined and canonised as a distinct literary entity Novels incorporated caricature talk and anti caricature rhetoric to tell readers what different realisms purported to show them Recovering the period's concept of caricature Caricature and Realism in the Romantic Novel sheds light on formal realism's self reflexivity about the caricature of artifice exaggeration and imagination This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Waverley Walter Scott, 1912 A novel of the Jacobite Rebellion Boudica's Odyssey in Early Modern England Samantha Frénée-Hutchins, 2016-04-15 This diachronic study of Boudica serves as a sourcebook of

references to Boudica in the early modern period and gives an overview of the ways in which her story was processed and exploited by the different players of the times who wanted to give credence and support to their own belief systems The author examines the different apparatus of state ideology which processed the social religious and political representations of Boudica for public absorption and helped form the popular myth we have of Boudica today By exploring images of the Briton warrior queen across two reigns which witnessed an act of political union and a move from English female rule under Elizabeth I to British Scottish masculine rule under James VI I the author conducts a critical cartography of the ways in which gender colonialism and nationalism crystallised around this crucial historical figure Concentrating on the original transmission and reception of the ancient texts the author analyses the historical works of Hector Boece Raphael Holinshed and William Camden as well as the canonical literary figures of Edmund Spenser William Shakespeare and John Fletcher She also looks at aspects of other primary sources not covered in previous scholarship such as Humphrey Llwyd s Breuiary of Britayne 1573 Petruccio Ubaldini s Le Vite delle donne illustri del regno d Inghilterra e del regno di Scotia 1588 and Edmund Bolton s Nero Caesar 1624 Furthermore she incorporates archaeological research relating to Boudica
