v 24 Nos 1 148 March 1927 March 1928      *Admirals of the World* William Stewart, 2014-11-26 This work provides biographies of more than 500 men and women who have served as admiral vice admiral or rear admiral While officers from the U S British French and Japanese navies make up the bulk of the work officers from 22 countries including Australia Canada Germany India Italy the Netherlands Russia and Spain are also included The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral but not necessarily in enemy action This effectively rules out people who were granted the rank on retirement as a courtesy title or posthumously The book also includes lists of admirals organized by nationality and by year of birth      *If Ignorance Is Bliss, Why Aren't There More Happy People?* John Lloyd, John Mitchinson, 2009-08-04 John Lloyd and John Mitchinson have proven themselves to be masters at digging up obscure facts abstruse information and amusing anecdotes and presenting them effortlessly somewhat slyly with either great wit or at least a little bit of tongue in cheek Their gifts are on full display in Quote Interesting a lively wonderfully enjoyable anthology of hundreds of quotes you probably have never heard before arranged thematically from A to Z From laugh out loud funny bon mots to some real headscratchers Lloyd and Mitchinson have gathered a universe of star studded blurbs like The Beatles are dying in the wrong order Victor Lewis Smith When you forget to eat you know you re alive Henry James I think people would be alive today if there were a death penalty Nancy Reagan You know that look women get when they want sex Me neither Steve Martin      *The Foreign Office List and Diplomatic and Consular Year Book* , 1881      **American Architects and the Mechanics of Fame** Roxanne Kuter Williamson, 2014-03-07 Why does one talented individual win lasting recognition in a particular field while another equally talented person does not While there are many possible reasons one obvious answer is that something more than talent is requisite to produce fame The something more in the field of architecture asserts Roxanne Williamson is the association with a famous architect at the moment he or she first receives major publicity or designs the building for which he or she will eventually be celebrated In this study of more than six hundred American architects who have achieved a place in architectural histories Williamson finds that only a small minority do not fit the right person right time pattern She traces the apprenticeship connection in case studies of Louis Sullivan Frank Lloyd Wright Henry Hobson Richardson the firm of McKim Mead White Latrobe and his descendants the Bulfinch and Renwick Lines the European immigrant masters and Louis Kahn Although she acknowledges and discusses the importance of family connections the right schools self promotion scholarships design competition awards and promotion by important journals Williamson maintains that the apprenticeship connection is the single most important predictor of architectural fame She offers the intriguing hypothesis that what is transferred in the relationship is not a particular style or approach but rather the courage and self confidence to be true to one s own vision Perhaps she says this is the case in all the arts *American Architects and the Mechanics of Fame* is sure to provoke thought and comment in architecture and other creative fields      *Catalog of Copyright Entries* Library of Congress.
