**Riley** Robert Kudielka, 2014-02-20 Eight never before seen gouache studies are at the centre of this volume illustrating Bridget Riley's dynamic approach to colour This volume documents a group of gouache studies by Bridget Riley from 1969 to 1972 Reflecting a major reconfiguration of Riley's style the shapes formed in these gouaches are arranged from a limited selection of colours namely violet green and pink Accompanying full colour illustrations a conversation between the artist and Robert Kudielka from 1972 posits the works within the context of Bridget Riley's oeuvre Bridget Riley Bridget Riley, Robert Kudielka, 2008 This catalogue accompanies Bridget Riley's exhibition Circles Colour Structure Studies 1970-71 at Karsten Schubert in London November 2008 January 2009 Here a series of 22 gouaches are shown for the first time In this publication the studies are accompanied by an interview between the artist and Robert Kudielka from 1972 just following the creation of these works The studies I make have different purposes At the beginning I try to be as unselective as possible to allow things to happen later gradually tightening up until all aspects have been drawn together I proceed by trial and error exploring and slowly establishing a particular situation Obviously many studies will be discarded en route to a painting though they may still be interesting as visual statements Bridget Riley 1972 **Bridget Riley, the Complete Paintings: 1959-1973** Robert Kudielka, Alexandra Tommasini, Natalia Naish, 2018 A stunning catalog bringing together for the first time the complete paintings of abstract artist Bridget Riley a must have for collectors of her work *Bridget Riley* Bridget Riley, Michael Bracewell, 2009 Bridget Riley Flashback is the first in a new series of monographic Hayward Touring exhibitions from the Arts Council Collection Each exhibition will bring together outstanding early works by high profile British artists and set them against major recent works borrowed from the artists themselves This book tracks Bridget Riley's career from its sensational beginnings in the early 1960s to the ambitious and powerful paintings and works on paper of recent years It includes an essay by Michael Bracewell and a new piece of writing by the artist discussing the genesis of a key early painting Movement in Squares 1961 A chronology illustrated with archive photographs and an illustrated inventory of works by the artist in UK public collections complete this rich survey Published to accompany the exhibition Bridget Riley Flashback touring in 2009-10 to Walker Art Gallery Liverpool Birmingham Museum and Art Gallery Norwich Castle Museum and Southampton City Art Gallery *Bridget Riley: Works from 1981-2015* Bridget Riley, 2016-07-26 Bridget Riley's explorations of perception through form and color have made her into one of the most significant painters working today Since the early 1960s she has used elementary shapes lines circles curves and squares to create visual experiences that immediately draw the viewer in often triggering optical vibrations and illusions More recently Riley has shifted back to black and white in her large scale paintings marking a departure from her recent colored stripe paintings and a return to the palette of some of her earliest works Published on the occasion of her 2015 solo exhibition at David Zwirner Bridget Riley Works 1981-2015 presents paintings from the last thirty four years of her career including images of Rajasthan a wall painting previously shown in Germany and England and exhibited for the first time in New York These dynamic

reproductions begin with stripe paintings from the 1980s and end with a coda of sorts a return to black and white that ties back to her work from the 1960s but bear traces of Riley's deep engagement with color in the interim As critic ric de Chassey puts it in his essay for Riley's 2015 catalogue with Galerie Max Hetzler The black and white paintings not only enter into a dialogue with the 1960s works but take stock of every painting experience Riley has created during a long career Also included is a selection of the artist's works on paper taken together these complementary aspects of her practice over the past four decades reveal the astonishing variety she has achieved by developing and rediscovering different forms An essay by art historian Richard Shiff helps contextualize the developments in Riley's practice since the early 1980s and further emphasizes her influence and lineage as a painter Rounding out the publication are biographical notes by Robert Kudielka one of the artist's foremost critics With a career spanning six decades Bridget Riley remains one of the most exciting painters today and Bridget Riley Works 1981-2015 presents a selection of works from what may be her richest period to date

**Bridget Riley** Robert Kudielka, 2003 *Bridget Riley: Recent Paintings 2014-2017* Bridget Riley, Richard Shiff, 2018-11-20 The quest for discovery through looking is the driving force of Bridget Riley's work as she has written More than anything else I want my paintings to exist on their own terms That is to say they must stealthily engage and disarm you There the paintings hang deceptively simple telling no tales as it were resisting in a well behaved way all attempts to be questioned probed or stared at and then for those with open eyes serenely disclosing some intimations of the splendors to which pure sight alone has the key This publication unfolds along the lines of Riley's 2018 exhibition at David Zwirner London Beginning with an exploration of black and white equilateral triangles Riley leads the viewer into an awareness of the ways in which a surface wall or canvas can affect a seemingly simple form the triangle While she demonstrates these subtle changes Riley manipulates this form by bending its sides At first sight the viewer may experience this as a breaking apart but as one continues to look serpentine movements appear or large shadowy triangles which advance and recede These paintings constantly reinvent themselves through looking Riley is revisiting and developing works which she initiated over fifty years ago as is shown here by the inclusion of Black to White Discs 1962-1965 in the exhibition This diamond formation of discs which graduates in tone from white to black and back again offers a lead in to her new body of work In Cosmos and the Measure for Measure series Riley recalls a group of subtly shaded colors used this time in discs While the compositions remain fundamentally the same the play of colors changes every time The exhibition ends with a surprisingly spacious wall painting that offers the viewer many delights not least among them a dance of fugitive white lights Here Riley disarms the viewer encouraging us once again in an adventure of discovery In his essay Richard Shiff explores Riley's ability to give new life to basic forms as she invites the audience any audience to help participate in the painting **Bridget Riley** Bridget Riley, Robert Kudielka, Arts Council of Great Britain, Whitworth Art Gallery, 1973\* *Chronophobia* Pamela M. Lee, 2006-02-17 An examination of the pervasive anxiety about and fixation with time seen in 1960s art In the 1960s art fell

out of time both artists and critics lost their temporal bearings in response to what E M Cioran called not being entitled to time This anxiety and uneasiness about time which Pamela Lee calls chronophobia cut across movements media and genres and was figured in works ranging from kinetic sculptures to Andy Warhol films Despite its pervasiveness the subject of time and 1960s art has gone largely unexamined in historical accounts of the period Chronophobia is the first critical attempt to define this obsession and analyze it in relation to art and technology Lee discusses the chronophobia of art relative to the emergence of the Information Age in postwar culture The accompanying rapid technological transformations including the advent of computers and automation processes produced for many an acute sense of historical unknowing the seemingly accelerated pace of life began to outstrip any attempts to make sense of the present Lee sees the attitude of 1960s art to time as a historical prelude to our current fixation on time and speed within digital culture Reflecting upon the 1960s cultural anxiety about temporality she argues helps us historicize our current relation to technology and time After an introductory framing of terms Lee discusses such topics as presentness with respect to the interest in systems theory in 1960s art kinetic sculpture and new forms of global media the temporality of the body and the spatialization of the visual image in the paintings of Bridget Riley and the performance art of Carolee Schneemann Robert Smithson's interest in seriality and futurity considered in light of his reading of George Kubler's important work *The Shape of Time Remarks on the History of Things* and Norbert Wiener's discussion of cybernetics and the endless belaboring of the present in sixties art as seen in Warhol's *Empire* and the work of On Kawara
