Silverman,2008-08-15 The late nineteenth century in Europe was a period of profound political social and technological change One result of these changes was the rise in France of an upper bourgeois bohemian class Many of its members stimulated interest in unique forms of artistic expression such as illustrated books On account of their influence an atmosphere of intense bibliophilic activity came to define French culture at the turn of the century The New Bibliopolis explores the role of amateurs in promoting the book arts in France during this period Drawing on extensive original research Willa Z Silverman looks at the ways in which book collectors supported print culture She shows how through the admiration demonstrated by collectors for this medium print came to be a crucial part of popular conceptions of aesthetics As collectors publishers authors designers and directors of bibliophile societies reviews and small presses these book lovers became passionate and prolific interlocutors of the printed word in a uniquely artistic epoch Silverman analyzes subjects as diverse as the relationship between book collecting and aesthetic and cultural currents such as Symbolism the gendered nature of book collecting the increased collaboration between authors and illustrators and the marketing of fine books at international exhibits The New Bibliopolis is an important contribution to the study of book history French sociocultural history and fine and decorative arts *The Versailles Effect* Mark Ledbury,Robert Wellington,2020-12-10 The essays in this volume show that Versailles was not the static creation of one man but a hugely complex cultural space a centre of power but also of life love anxiety creation and an enduring palimpsest of aspirations desires and ruptures The splendour of the Chateau and the masterpieces of art and design that it contains mask a more complex and sometimes more sordid history of human struggle and achievement The case studies presented by the contributors to this book cannot provide a comprehensive account of the Palace of Versailles and its domains the life within its walls its visitors and the art and architecture that it has inspired from the seventeenth century to the present day from the palace of the Sun King to the Penthouse of Donald Trump However this innovative collection will reshape or even radically redefine our understanding of the palace of Versailles and its posterity

Proust's Duchesses Caroline Weber,2019-11-26 PULITZER PRIZE FINALIST A brilliant look at turn of the century Paris through the first in depth study of the three women Proust used to create his supreme fictional character the Duchesse de Guermantes Weber has done a remarkable job of bringing to life a world of culture glamour and privilege The Wall Street Journal Geneviève Halvy Bizet Straus Laure de Sade Comtesse de Adhème de Chevalign and Lisabeth de Riquet de Caraman Chimay the Comtesse Greffulhe these were the three superstars of fin de siècle Parisian high society who as Caroline Weber says transformed themselves and were transformed by those around them into living legends paragons of elegance nobility and style All well but unhappily married these women sought freedom and fulfillment by reinventing themselves between the 1870s and 1890s as icons At their fabled salons they inspired the creativity of several generations of writers visual artists

composers designers and journalists Against a rich historical backdrop Weber takes the reader into these women s daily lives of masked balls hunts dinners court visits nights at the opera or theater But we see as well the loneliness rigid social rules and loveless arranged marriages that constricted these women s lives Proust as a twenty year old law student in 1892 would worship them from afar and later meet them and create his celebrated composite character for *The Remembrance of Things Past* *Widor* Andrew Thomson,1987 This comprehensive biography describes the life of this fascinating yet unjustly neglected French organist composer conductor teacher and writer amid the intellectual and political ferment of the Third Republic
