## **Robert Lloyd Praeger And The Culture Of Science In Ireland 1865-1953:**

*Science and Society in Ireland* Peter J. Bowler, Nicholas Whyte, 1997      Robert Lloyd Praeger Seán Lysaght, 1998  
Praeger's achievement as a naturalist is examined in its cultural social and scientific context in this analysis of his life and writings      **Nature in Ireland** John Wilson Foster, Helena C. G. Chesney, 1998 How has Irish nature been studied How has it been expressed in literature and popular culture How has it influenced and been influenced by political economic and social change These long neglected questions are pursued in *Nature in Ireland* a pioneering collection of original essays by leading naturalists science writers and cultural historians who bring us from the geological prehistory of Ireland to the environmental threats of the late twentieth century      **Robert Lloyd Praeger and the Culture of Science in Ireland 1865-1953** Sean Lysaght, 1996      *Contemporary Irish Ecocentric Poetry and the Writing of Nature* Wit Pietrzak, 2025-10-02  
*Contemporary Irish Ecocentric Poetry and the Writing of Nature* explores how poetic language can apprehend non anthropocentric points of view It builds on the recent developments in environmental humanities and seeks to show that four Irish poets Derek Mahon Paula Meehan Moya Cannon and Seán Lysaght offer means of diversifying our perception of nature and our place in it This diversification in turn is intended to help us change our idea of natural environment from seeing it as a passive space which we can either exploit or preserve to a view of nature as an interrelated network of agents in which humans are one actor among numerous others Utilising a broad theoretical and philosophical context to help frame the analyses of verse in up to date conceptual schemes this volume serves as a critical foundation for the future work and research in Irish ecocriticism and on ecopoetics in general making the monograph an ideal read for postgraduates scholars and researchers in these fields      *Environmental Debates and the Public in Ireland* Mary Kelly, 2007      Irish University Review, 1999 A journal of Irish studies      **The National Union Catalog, Pre-1956 Imprints**, 1976      **Space, Place and Religious Landscapes** Darrelyn Gunzburg, Bernadette Brady, 2020-10-01 Exploring sacred mountains around the world this book examines whether bonding and reverence to a mountain is intrinsic to the mountain constructed by people or a mutual encounter Chapters explore mountains in England Scotland Wales Italy Ireland the Himalaya Japan Greece USA Asia and South America and embrace the union of sky landscape and people to examine the religious dynamics between human and non human entities This book takes as its starting point the fact that mountains physically mediate between land and sky and act as metaphors for bridges from one realm to another recognising that mountains are relational and that landscapes form personal and group cosmologies The book fuses ideas of space place and material religion with cultural environmentalism and takes an interconnected approach to material religious landscapes In this way it fills the gap between lived religious traditions personal reflection phenomenology historical context environmental philosophy myths and performativity In defining material religion as active engagement with mountain forming and humanshaping landscapes the research and ideas presented here provide theories that are widely applicable to other forms of material religion      New Survey of Clare

Island: History and cultural landscape Críostóir Mac Cárthaigh, Kevin Whelan, 1999 The first in a series of volumes presenting the new survey of Clare Island this text introduces the history and folklife of this island in Clew Bay County Mayo Topics covered include folklife farming and fishing practices the evolution of the landscape and the island's place names      **The Reception of Charles Darwin in Europe** Eve-Marie Engels, 2008 Beyond this pivotal place in the history of scientific thought Charles Darwin's writings and his theory of evolution by natural selection have also had a profound impact on art and culture and continue to do so to this day This book is a comprehensive survey of this enduring cultural impact throughout the continent With chapters written by leading international scholars that explore how literary writers and popular culture responded to Darwin's thought the book also includes a complete timeline of his cultural reception in Europe and bibliographies of major translations in each country      Science, Colonialism and Ireland Nicholas Whyte, 1999 This pioneering and accessible study employs a theoretical framework for an understanding of the role of science in Ireland refuting the assumption that science was an instrument of colonialism      **Long Room**, 1995      *Books in Print*, 1991

Irish Innovators in Science and Technology R. Charles Mollan, William J. Davis, Brendan Finucane, 2002 This book of pen portraits of men and women involved in Irish science and technology is a step in redressing the neglected state of the history of Irish science It should assist in bridging the gap between the earlier Irish scientific tradition and the present scientific activities of our universities and research institutes      **Subject Guide to Books in Print**, 2001      *Books Ireland*, 1998

**Éire-Ireland**, 1991      The Irish Mind Richard Kearney, 1985      **The Irish Naturalists' Journal**, 1953
