*Sbornik trudov Irkutskogo gosudarstvennogo universiteta*, 1923      **Europe on the move** Peter Gatrell, Lyubov Zhvanko, 2017-06-26 Mass population displacement affected millions of Europe's civilians across the different theatres of war in 1914-18. At the end of the war a senior Red Cross official wrote there were refugees everywhere. It was as if the entire world had to move or was waiting to move. *Europe on the move* refugees in the era of the Great War 1912-23 is the first attempt to understand their experiences as a whole and to establish the political, social and cultural significance and ramifications of the wartime refugee crisis. Drawing on original research by leading specialists from more than a dozen countries it will become the definitive work on the subject and will appeal to anyone who wishes to understand how governments and public opinion responded to refugees a century ago      *Combinatorial Optimization* Alexander Schrijver, 2003-02-12 This book offers an in-depth overview of polyhedral methods and efficient algorithms in combinatorial optimization. These methods form a broad coherent and powerful kernel in combinatorial optimization with strong links to discrete mathematics, mathematical programming and computer science. In eight parts various areas are treated each starting with an elementary introduction to the area with short elegant proofs of the principal results and each evolving to the more advanced methods and results with full proofs of some of the deepest theorems in the area. Over 4000 references to further research are given and historical surveys on the basic subjects are presented      **Sbornik trudov Irkutskogo gosudarstvennogo universiteta** Irkutskii gosudarstvennyi universitet im. As such it includes an up-to-date description of national treaty portals and other valuable Internet-based sources. At the same time it also includes descriptions of printed sources providing access to treaties and official diplomatic documentation difficult to locate in standard compilations. In addition this work includes a narrative section for each jurisdiction summarizing issues related to treaty succession and treaty implementation in municipal law. *Sources of State Practice in International Law* is an indispensable reference for researchers in both international law and international relations.
