SCAM Edzard Ernst,2018-06-22 So called alternative medicine SCAM is popular and therefore important no matter whether we love or loathe it Consequently an impressive number of books about SCAM are already available Most of them however are woefully uncritical overtly promotional and dangerously misleading Not so this one This book was written by someone who received SCAM as a patient practised SCAM as a doctor and researched SCAM as a scientist It provides an insider s perspective by covering aspects of SCAM which most other books avoid and by questioning the many tacitly accepted assumptions and wild extrapolations that underpin SCAM The text is factual occasionally dosed with a touch of humour or satire The aim is not only to inform but also to entertain It is written principally for members of the general public who have an interest in healthcare and are tired of the promotional counter knowledge produced by SCAM enthusiasts It is an exercise in critical thinking that might prevent you from wasting your money on or endangering your health with bogus treatments *Cassell's household guide* Cassell, ltd,1877 *Scam School* Brian Brushwood,2013-07 From street cons and hustles to bar scams and mind **Paradoxes of Professional Regulation** Michael J.
