O'Donnell, M. O'Rourke, 2005-09-27 This book offers the most up to the minute snapshot of scholarship on queer gay historiographies in a number of geographical regions in western Europe Asia and the US It features the work of the most established scholars in the field of the history of same sex desire and promises to take the study of same sex relations in the early modern period in radical new directions **You play me false, by Mortimer and Frances Collins. 1883** Mortimer Collins, 1883 *Education Outlook*, 1929 **The Educational Times and Education Outlook**, 1929 Educational Times, 1929 Unmarriages Ruth Mazo Karras, 2012-03-19 The Middle Ages are often viewed as a repository of tradition yet what we think of as traditional marriage was far from the only available alternative to the single state in medieval Europe Many people lived together in long term quasimarrital heterosexual relationships unable to marry if one was in holy orders or if the partners were of different religions Social norms militated against the marriage of master to slave or between individuals of very different classes or when the couple was so poor that they could not establish an independent household Such unions where the protections that medieval law furnished to wives and their children were absent were fraught with danger for women in particular but they also provided a degree of flexibility and demonstrate the adaptability of social customs in the face of slowly changing religious doctrine Unmarriages draws on a wide range of sources from across Europe and the entire medieval millennium in order to investigate structures and relations that medieval authors and record keepers did not address directly either in order to minimize them or because they were so common as not to be worth mentioning Ruth Mazo Karras pays particular attention to the ways women and men experienced forms of opposite sex union differently and to the implications for power relations between the genders She treats legal and theological discussions that applied to all of Europe and presents a vivid series of case studies of how unions operated in specific circumstances to illustrate concretely what we can conclude how far we can speculate and what we can never know **Cultivating Democracy** Mukulika Banerjee, 2021-10 An ethnographic study of Indian democracy that shows how agrarian life creates values of citizenship and active engagement that are essential for the cultivation of democracy Cultivating Democracy provides a compelling ethnographic analysis of the relationship between formal political institutions and everyday citizenship in rural India Banerjee draws on deep engagement with the people and social life in two West Bengal villages from 1998 2013 during election campaigns and in the times between to show how the micro politics of their day to day life builds active engagement with the macro politics of state and nation Her sensitive analysis focuses on several events in the life of the villages shows how India's agrarian rural society helps create practices and conceptual space for these citizens to be effective participants in India's great democratic exercises Specifically she shows how the villagers' creative practices around their kinship farming and religion while navigating encounters with local communist cadres constitute a vital and continuing cultivation of those republican virtues of cooperation civility solidarity and vigilance which the visionary Ambedkar considered essential for the success of Indian democracy At a time when so much of that constitutional vision is under threat this book provides a crucial

scholarly rebuttal to all on Right or Left who dismiss rural citizens political capacities and democratic values This book will appeal to anyone interested in India s political culture and future its rural society or the continuing relevance of political anthropology *British Film Catalogue* Denis Gifford,2016-04-01 First published in 2001 The standard work on its subject this resource includes every traceable British entertainment film from the inception of the silent cinema to the present day Now this new edition includes a wholly original second volume devoted to non fiction and documentary film an area in which the British film industry has particularly excelled All entries throughout this third edition have been revised and coverage has been extended through 1994 Together these two volumes provide a unique authoritative source of information for historians archivists librarians and film scholars Forest Leaves ,1915
