New York's Secret Subway Matthew Algeo, 2025-09-30 In the nineteenth century Manhattan's streets were so choked with pedestrians horses vehicles and vendors that a trip from City Hall to Central Park could take hours Alfred Beach had the perfect solution build a giant pneumatic tube underneath Broadway from the Battery to Harlem New York's Secret Subway The Underground Genius of Alfred Beach and the Origins of Mass Transit tells a classic story of good versus evil pitting the mild mannered Beach a visionary inventor and entrepreneur against the oafish tyrant Boss Tweed the exemplar of corruption in the Gilded Age It also tells the story of one of the most astonishing feats of engineering in American history the surreptitious creation of the nation's first operational subway Richly illustrated and populated with larger than life characters New York's Secret Subway will captivate readers and provide historical context for today's clashes between public interests and powerful business and political groups Algeo tells this amazing true story in full for the first time and although it took place more than a century ago it will at times sound surprisingly familiar

**Ticket Scalping** Kerry Segrave, 2006-11-15 Ticket scalping is as much an American staple as apple pie Beginning as early as the mid 1800s scalpers known as sidewalk men were charging all the traffic would bear for event tickets Although these speculators were generally viewed as pariahs and public opinion was against the practice legal attempts to limit their activities were far from successful Boston enacted laws as early as 1873 while Pennsylvania followed suit in 1884 Still such measures did little good since some laws were declared unconstitutional and for the ones that were upheld the fines were negligible with jail time rarely served Over the years as moral objections to scalping dimmed the public became more tolerant as the practice became increasingly prevalent By the 1990s the capitalist mantras of free market and economic principles of supply and demand were even being used to justify the practice This volume details the ways in which scalping has changed over the years from a one man business to an agency controlled enterprise from performances by Jenny Lind to Billy Joel The book examines the general situation public opinion and legal perception of scalping for four distinct periods 1850 1899 1900 1917 1918 1949 and 1950 2005 Emphasis is placed on the ways in which public and legal perception of the practice has evolved over this period Scalping slowly gaining a more positive status has become more accepted as part of the economic practice of free markets
