Scandinavia On 35:

Scandinavia Georg Sophus Strandvold, 1924 **Scandinavia and the Great Powers 1890-1940** Patrick

Salmon, 2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890 1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours **The Journal of the Linnean Society of London**, 1890 **Scandinavia in World**

Politics Christine Ingebritsen, 2006 This clear and engaging text offers a sustained appraisal of Scandinavia's foreign policy and role in the global economy in the post Cold War period In an era when good citizenship in the global community has become a diplomatic priority for many states Christine Ingebritsen argues that Scandinavia has both the legitimacy and the domestic political attributes to be an important international player She examines how social innovators such as Sweden and Finland seek to influence European integration and how Norway has cultivated a unique and innovative niche in its foreign relations Scandinavia she convincingly shows has become a norm entrepreneur exercising its influence abroad through moral leadership from sponsoring the Nobel Prize and participating in global peacekeeping efforts to providing generous foreign aid and monitoring human rights abuses in the international community Demonstrating how Scandinavia has made its model of the good society viable on a global scale this text offers a fascinating case of small state success and individuality in an increasingly globalized world ing case of small state success and individuality in an increasingly globalized world ing case of small state success and individuality in an increasingly globalized world *Management in Scandinavia* Jette Schramm-Nielsen, Peter Lawrence, Karl Henrik

Sivesind, 2004-12-20 This book contributes to the expanding field of cross cultural and comparative management and addresses the issue of whether the main Scandinavian countries Denmark Norway and Sweden exhibit such similarities in management style and practice as to constitute a country cluster It is based on a qualitative interview driven study of managers in companies matched by industry in the three countries and seeks to contextualise the research findings in a general discussion of the Scandinavian countries showing their intertwined histories and similar institutions and values The book argues that the central values of these managers are equality informality decency and conflict avoidance it shows that the behaviour of Scandinavian managers is inspired by these values and that they can be attributed to national culture and not to the peculiarities of any particular industry Management in Scandinavia will be of interest to students and teachers of

international management as well as practitioners of business and management *Scandinavia* ,1924 *Scandinavia, Ancient and Modern* Andrew Crichton, Henry Wheaton, 1878 **The Americanization of Europe** Alexander Stephan, 2006 Using Germany as a case study of the impact of American culture throughout a period characterized by a totalitarian system two destructive wars ethnic cleansing and economic disaster this book explores the political and cultural parameters of Americanization and anti Americanism *Readers' Guide to Periodical Literature* ,1910 **Readers' Guide to Periodical Literature** Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1905 An author subject index to selected general interest periodicals of reference value in libraries **Census of Canada, 1890-91** Canada. Department of Agriculture, 1893 **The Conversion of Scandinavia** Anders Winroth, 2012-01-24 In this book a MacArthur Award winning scholar argues for a radically new interpretation of the conversion of Scandinavia from paganism to Christianity in the early Middle Ages Overturning the received narrative of Europe's military and religious conquest and colonization of the region Anders Winroth contends that rather than acting as passive recipients Scandinavians converted to Christianity because it was in individual chieftains' political economic and cultural interests to do so Through a painstaking analysis and historical reconstruction of both archeological and literary sources and drawing on scholarly work that has been unavailable in English Winroth opens up new avenues for studying European ascendancy and the expansion of Christianity in the medieval period

Proceedings of the Estonian Academy of Sciences, Biology and Ecology ,1998-06 **Forestry in Sweden and Adjacent Lands from the Viewpoint of an American Forester** George Sargent Perry, 1929 *Movable Types* David Finkelstein, 2018 This is a study of international print networks developed across the English speaking world over a significant part of the long nineteenth century The first study of its kind it draws on unique sources from Australasia North America South Africa the British Isles and Ireland to explore how printers interacted and shared trade and cultural identities across international boundaries during the period 1830-1914 Morality mobility mobilisation and solidarity were central to how compositors and print trade workers defined themselves during this period These themes are addressed in case studies on roving printers striking printers and creative printers The case studies explore the cultural values and trade skills transmitted and embedded by such actors the global networks that enabled print workers to travel across continents in search of work and experience the trade actions reliant on mobilization and information sharing across the printing world and the creative ideas that printers shared through such means as memoirs poetry prose and trade news contributions to print trade journals and other public outlets *Juvenile Justice in Global Perspective* Franklin E. Zimring, Maximo Langer, David S. Tanenhaus, 2017-05 Provides a comparison of criminal justice and juvenile justice systems across the world looking for points of comparison and policy variance that can lead to positive change in the United States Contributors discuss important issues such as the relationship between political change and juvenile justice the common labels used to unify juvenile systems in different regions and in different forms of government the types of juvenile systems that exist and

how they differ and more Furthermore they use data on criminal versus juvenile justice in a wide variety of nations to create a new explanation of why separate juvenile and criminal courts are felt to be necessary From publisher description

Political Repression in 19th Century Europe Robert Justin Goldstein,2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries *Class List* Tufts Library,1900 The Year Book of the Congregational Christian Churches of the United States of America General Council of the Congregational and Christian Churches of the United States,1898 The Congregational Year-book ,1898
