Menéndez, 2023-09-06 *The Legitimacy of European Constitutional Orders* is a systematic and comparative study of European constitutional orders which takes into consideration the national constitutional trajectories of European countries as well as the defining power of EU law Drawing on a wealth of case studies this book explores the conceptual tools needed to undertake comparative reconstruction and assessment of national and supranational constitutional developments

in the European context      **Twentieth Century**, 1905 The Nineteenth century and after London      **Disability and Labour in the Twentieth Century** Radu Harald Dinu, Staffan Bengtsson, 2022-12-30 This volume puts disability and labour at the centre of historical enquiry It offers fresh perspectives on the history of disability and labour in the twentieth century and highlights the need to address the topic beyond regional boundaries Bringing together historians and disability scholars from a variety of disciplines and regions the chapters investigate various historical settings ranging from work cooperatives to disability associations and informal workplaces and analyse multiple meanings of labour in different political and economic systems through the lens of disability The book's contributors demonstrate that the nexus between labour and disability in modern industrialised societies resists easy generalisations as marginalisation and integration were often two sides of the same coin While the experience of many disabled people has been marked by exclusion from mainstream production labour also became a vehicle for integration and emancipation Addressing one of the research gaps of the disability history field which has long been dominated by British and North American perspectives the book sheds light on less studied examples from Scandinavian countries and Eastern Europe including Czechoslovakia Poland the Soviet Union Bulgaria and Romania Cutting across national cultural and class divides the volume provides a springboard for reflections on common experiences of disability and labour during the twentieth century It will be of interest to all scholars and students working in the field of disability studies sociology and labour history      [Bibliography of European Economic and Social History](#) Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily      [Women in Twentieth-Century Europe](#) Ann Allen, 2007-11-19 Women's lives changed more in the 20th century than in any previous century It was a period of transformation not only of the political realm but also the household family and workplace Ranging widely over Europe this fascinating account is one of the first comprehensive surveys of its kind      **The Twentieth Century**, 1926      *Finland in the Twentieth Century* D. G. Kirby, 1980-01-18 Examines Finland's search for a national identity      **Neutrality in Twentieth-Century Europe** Rebecka Lettevall, Geert Somsen, Sven Widmalm, 2012-08-21 Whether in science or in international politics neutrality has sometimes been promoted not only as a viable political alternative but as a lofty ideal in politics by nations proclaiming their peacefulness in science as an underpinning of epistemology in journalism and other intellectual pursuits as a foundation of a professional ethos Time and again scientists and other intellectuals have claimed their endeavors to be neutral elevated above the world of partisan conflict and power politics This volume studies the resonances between neutrality in science and culture and neutrality in politics By analyzing the activities of scientists intellectuals and politicians sometimes overlapping

categories of mostly neutral nations in the First World War and after it traces how an ideology of neutralism was developed that soon was embraced by international organizations This book explores how the notion of neutrality has been used and how a neutralist discourse developed in history None of the contributions take claims of neutrality at face value some even show how they were made to advance partisan interests The concept was typically clustered with notions such as peace internationalism objectivity rationality and civilization But its meaning was changeable varying with professional ideological or national context As such Neutrality in Twentieth Century Europe presents a different perspective on the century than the story of the great belligerent powers and one in which science culture and politics are inextricably mixed     **Scandinavian Immigrants in New York, 1630-1674** John Oluf Evjen, 1916 A collection of biographical articles on Norwegian Danish and Swedish immigrants who settled in New York between 1630 and 1674 and in Mexico South America and Canada Includes some German immigrants in New York from 1630 to 1674
