Scar Culture:

Scar Culture Toni Davidson, 2009-10-08 Toni Davidson's *Scar Culture* is a hugely acclaimed debut dealing with the controversial subjects of incest, child abuse, and psychosexual healing. It appears destined to follow in the tradition of *One Flew over the Cuckoo's Nest* and *The Dice Man* as fiction that challenges the way we think about psychotherapy and dysfunctional sexuality. Shocking, thought-provoking, erotic, beautifully written, sharp-witted, and always riveting, *Scar Culture* marks the arrival of an extraordinary new voice.

Scar Culture Toni Davidson, 2000. Reminiscent of *One Flew Over the Cuckoo's Nest*, this darkly humorous novel is about a dysfunctional therapist who uses a dangerous experimental technique to bring his two clients out of a stupor induced by child abuse.

Winkler,2001-06-21 Classical Myth and Culture in the Cinema is a collection of essays presenting a variety of approaches to films set in ancient Greece and Rome and to films that reflect archetypal features of classical literature The diversity of content and theoretical stances found in this volume will make it required reading for scholars and students interested in interdisciplinary approaches to text and image and for anyone interested in the presence of Greece and Rome in modern popular culture *Environmentalism in Popular Culture* Noël Sturgeon,2022-04-12 In this thoughtful and highly readable book Noël Sturgeon illustrates the myriad and insidious ways in which American popular culture depicts social inequities as natural and how our images of nature interfere with creating solutions to environmental problems that are just and fair for all Why is it she wonders that environmentalist messages in popular culture so often naturalize themes of heroic male violence suburban nuclear family structures and U S dominance in the world And what do these patterns of thought mean for how we envision environmental solutions like green businesses recycling programs and the protection of threatened species Although there are other books that examine questions of culture and environment this is the first book to employ a global feminist environmental justice analysis to focus on how racial inequality gendered patterns of work and heteronormative ideas about the family relate to environmental questions Beginning in the late 1980s and moving to the present day Sturgeon unpacks a variety of cultural tropes including ideas about Mother Nature the purity of the natural and the allegedly close relationships of indigenous people with the natural world She investigates the persistence of the myth of the frontier and its extension to the frontier of space exploration She ponders the popularity and occasional controversy of penguins and penguin family values and questions assumptions about human warfare as natural The book is intended to provoke debates among college students and graduate students among their professors among environmental activists and among all citizens who are concerned with issues of environmental quality and social equality
