SCARE TACTICS

THE POLITICS OF INTERNATIONAL RIVALRY

Scare Tactics The Politics Of International Rivalry

David Tal

Scare Tactics The Politics Of International Rivalry:

Scare Tactics Michael P. Colaresi, 2005-12-29 Why do international situations spiral out of control and into war Why do conflicts finally wind down after years if not decades of tension Various faults in conventional thinking ranging from relying on indeterminate predictions to ignoring the interaction between domestic and international events have impeded adequate explanations for the continuation escalation and dampening of rivalry conflict In **Scare Tactics The Politics of International Rivalry** Michael P Colaresi explains how domestic institutions and interactions among nations converge to create incentives for either war or peace Specifically domestic pressure to continue a rivalry and resist capitulating to the enemy can be exacerbated in situations where elites benefit from fear mongering a process Colaresi refers to as rivalry outbidding When rivalry outbidding becomes fused with pressure to change the status quo even a risky escalation may be preferable to cooperation or rivalry maintenance The eventual outcomes of such dynamic two level pressures if unchecked are increased conflict destruction and death Colaresi contends however that if leaders can resist pressures to escalate threats and step up rivalries a deteriorating status quo can instead spur cooperation and peace

The Politics of the First World War Scott Wolford, 2019-02-21 The Great War is an immense confusing and overwhelming historical conflict the ideal case study for teaching game theory and international relations Using thirteen historical puzzles from the outbreak of the war and the stability of attrition to unrestricted submarine warfare and American entry into the war this book provides students with a rigorous yet accessible training in game theory Each chapter shows through guided exercises how game theoretical models can explain otherwise challenging strategic puzzles shedding light on the role of individual leaders in world politics cooperation between coalitions partners the effectiveness of international law the termination of conflict and the challenges of making peace Its analytical history of World War I also surveys cutting edge political science research on international relations and the causes of war Written by a leading game theorist known for his expertise of the war this textbook includes useful student features such as chapter key terms contemporary maps a timeline of events a list of key characters and additional end of chapter game theoretic exercises

The World of Protracted Conflicts Michael Brecher, 2016-05-26 The World of Protracted Conflicts seeks to frame the models to answer three crucial questions about interstate protracted conflict what are the most likely conditions for the onset of a protracted conflict its escalation persistence and its termination It presents the findings on protracted conflict occurrence continuation and resolution through testing these models and their derived hypotheses against the evidence from 33 interstate protracted conflicts in the last century These findings will in turn shed further light on the conflict crisis war linkage This book examines and explains patterns that exist in the eruption evolution and winding down of these conflicts through a systematic comparison of recent and contemporary PCs

Theorizing Indian Foreign Policy Mischa Hansel, Raphaëlle Khan, Mélissa Levallant, 2017-04-21 Examined from a non Western lens the standard International Relations IR and Foreign Policy Analysis FPA approaches are ill adapted because of

some Eurocentric and conceptual biases These biases partly stem from first the dearth of analyses focusing on non Western cases second the primacy of Western born concepts and method in the two disciplines That is what this book seeks to redress Theorizing Indian Foreign Policy draws together the study of contemporary Indian foreign policy and the methods and theories used by FPA and IR while simultaneously contributing to a growing reflection on how to theorise a non Western case Its chapters offer a refreshing perspective by combining different sets of theories empirical analyses historical perspectives and insights from area studies Empirically chapters deal with different issues as well as varied bilateral relations and institutional settings Conceptually however they ask similar questions about what is unique about Indian foreign policy and how to study it The chapters also compel us to reconsider the meaning and boundary conditions of concepts e g coalition government strategic culture and sovereignty in a non Western context This book will appeal to both specialists and students of Indian foreign policy and International Relations Theory

The Puzzle of Peace Gary Goertz, Paul Francis Diehl, Alexandru Balas, 2016 The Puzzle of Peace moves beyond defining peace as the absence of war and develops a broader conceptualization and explanation for the increasing peacefulness of the international system The authors track the rise of peace as a new phenomenon in international history starting after 1945 International peace has increased because international society has developed a set of norms dealing with territorial conflict by far the greatest source of international war over previous centuries These norms prohibit the use of military force in resolving territorial disputes and acquiring territory thereby promoting border stability This includes the prohibition of the acquisition of territory by military means as well as attempts by secessionist groups to form states through military force International norms for managing international conflict have been accompanied by increased mediation and adjudication as means of managing existing territorial conflicts

The Reputational Imperative Mahesh Shankar, 2018-09-25 India's first prime minister Jawaharlal Nehru left behind a legacy of both great achievements and surprising defeats Most notably he failed to resolve the Kashmir dispute with Pakistan and the territorial conflict with China In the fifty years since Nehru's death much ink has been spilled trying to understand the decisions behind these puzzling foreign policy missteps Mahesh Shankar cuts through the surrounding debates about nationalism idealism power and security with a compelling and novel answer reputation India's investment in its international image powerfully shaped the state's negotiation and bargaining tactics during this period The Reputational Imperative proves that reputation is not only a significant driver in these conflicts but also that it's about more than simply looking good on the global stage Considerations such as India's relative position of strength or weakness and the value of demonstrating resolve or generosity also influenced strategy and foreign policy Shankar answers longstanding questions about Nehru's territorial negotiations while also providing a deeper understanding of how a state's global image works The Reputational Imperative highlights the pivotal yet often overlooked role reputation can play in a broad global security context

Volatile States in International Politics Eleonora Mattiacci, 2022-12-19 An in depth account of why countries

treacherous foreign policies often have harmless origins how this predicament shapes international politics and what to do about it The increasing unpredictability of state behavior in recent world politics is a surprising development The uncertainty that results intensifies conflict and stymies trust In *Volatile States in International Politics* Eleonora Mattiacci offers the first account of this issue that investigates which states have been volatile and why Leveraging statistical techniques and archival data in a probing analysis of rivals and allies since the end of World War II she rejects attempts at dismissing volatility as reflecting mercurial leaders or intractable issues Instead Mattiacci explains that a state acts in a volatile manner when its clashing domestic interests leverage power to achieve their goals on the international arena In demonstrating states potential for volatile behaviors she asks us to reconsider how much we really know about change and instability in international politics When properly understood she shows volatile behavior can become less confusing for observers and potentially less dangerous This book offers novel evidence based tools to cope with volatility in the global arena

The Oxford Handbook of U.S. National Security Derek S. Reveron, Nikolas K. Gvosdev, John A. Cloud, 2018-05-01 National security is pervasive in government and society but there is little scholarly attention devoted to understanding the context institutions and processes the U S government uses to promote the general welfare The Oxford Handbook of U S National Security aims to fill this gap Coming from academia and the national security community its contributors analyze key institutions and processes that promote the peace and prosperity of the United States and by extension its allies and other partners By examining contemporary challenges to U S national security contributors consider ways to advance national interests The United States is entering uncharted waters The assumptions and verities of the Washington consensus and the early post Cold War have broken down After 15 years of war and the inability of two presidents to set a new long term U S foreign policy approach in place the uncertainties of the Trump administration symbolize the questioning of assumptions that is now going on as Americans work to re define their place in the world This handbook serves as a how to guide for students and practitioners to understand the key issues and roadblocks confronting those working to improve national security The first section establishes the scope of national security highlighting the important debates to bridge the practitioner and scholarly approaches to national security The second section outlines the major national security actors in the U S government describes the legislative authorities and appropriations available to each institution and considers the organizational essence of each actor to explain behavior during policy discussions It also examines the tools of national security such as diplomacy arms control and economic statecraft The third section focuses on underlying strategic approaches to national security addressing deterrence nuclear and cyber issues and multilateral approaches to foreign policy The final section surveys the landscape of contemporary national security challenges This is a critical resource for anyone trying to understand the complex mechanisms and institutions that govern U S national security

The Broken Olive Branch: Nationalism, Ethnic Conflict, and the Quest for Peace in Cyprus Harry Anastasiou, 2009-01-19 In the second volume

Anastasiou focuses on emergent post nationalist trends their implications for peace and recent attempts to reach mutually acceptable agreements between Greek and Turkish Cypriots He documents the transformation of Greece Cyprus and Turkey within the context of Europeanization and globalization While leaders of both communities have failed to resolve the conflict Anastasiou argues that the accession of Cyprus into the European Union has created a structure and process that promises a multiethnic democratic Cyprus With great depth and balance *The Broken Olive Branch* presents a fresh analysis of the Cyprus conflict and new insights on the influence of nationalism *Taming Ethnic Hatred* Patrice C. McMahon, 2007-04-05 With its unique emphasis on ethnic cooperation rather than discord this work provides insights into how the international community can help to restrain ethnic conflict in the Twenty First century By examining the construction of ethnic peace in post Soviet Eastern Europe Patrice McMahon accurately describes how the international community worked to quell growing tensions in the East Key was a network of public and private organizations whose goal it was to work in overlapping ways to manage inter ethnic relations which in turn kept ethnically charged clashes far below levels forecast Inspired by the Conference on Security and Cooperation in Europe CSCE this network included Western governments intergovernmental organizations as well as non governmental organizations Although each actor had its own reason for involvement in this network she highlights the shared principles and overlapping strategies actors used and how their interaction translated into a modern form of decentralized governance This book addresses these issues by considering ethnic relations in Romania and Latvia In so doing it brings to the fore important stories too long ignored by the West and academic research Writing in a direct readable fashion the author connects her subject to a larger review of changes in global governance *The American Nuclear Disarmament Dilemma, 1945-1963* David Tal, 2008-09-25 the atomic bombs dropped on Hiroshima and Nagasaki in 1945 quickly ushered in a popular and political movement toward nuclear disarmament Across the globe heads of state high ranking ministers and bureaucrats led intense efforts to achieve effective disarmament agreements Ultimately these efforts failed In *The American Nuclear Disarmament Dilemma* David Tal offers a detailed analysis of U S policy from 1945 to the summer of 1963 exploring the reasons for failure and revealing the complex motivations that eventually led to the Limited Test Ban Treaty While previous books have focused on the policies of specific administrations Tal s is the first to consider negotiations as an evolving phenomenon that preoccupied three presidents from Truman to Kennedy Drawing on extensive archival research the author examines the profound dilemma faced by leaders on all sides forced by political pressure to engage in negotiations whose success they saw as injurious to national interests Far from believing that the nuclear arms race would inevitably lead to war the United States regarded nuclear weapons as the greatest guarantee that war would not happen **Back Channel Negotiation** Anthony Wanis-St. John, 2011-02-02 Wanis St John takes on the question of whether the complex and often perilous secret negotiations between mediating parties prove to be an instrumental path to reconciliation or rather one that disrupts the process Using the Palestinian Israeli peace process as a frame work the author

focuses on the uses and misuses of back channel negotiations Wanis St John discusses how top level PLO and Israeli government officials often resorted to secret negotiation channels even when they had designated acknowledged negotiation teams already at work Intense scrutiny of the media pressure from constituents and the public's reaction all become severe constraints to the process causing leaders to seek out back channel negotiations The impact of these secret talks on the peace process over time has largely been unexplored Through interviews with major negotiators and policymakers on both sides and a detailed history of the conflict the author analyzes the functions and consequences of back channel negotiations Wanis St John reveals the painful irony that these methods for peacemaking have had the unintended effect of inflaming the conflict and sustaining its intractability *What Do We Know about War?* Sara McLaughlin Mitchell, John A.

Vasquez, 2021-04-01 This invaluable text assesses the current research and theory on the causes of both war and peace In a completely new set of chapters leading international relations scholars explore the role of territorial disputes power alliances arms races rivalry and nuclear weapons in bringing about war the outcomes and consequences of war and the factors that promote peace including democracy norms capitalist economies and stable borders The third edition includes a new section on emerging trends in research on cyber war the environment and climate change leaders war financing and trends in interstate conflict Reviewing fifty years of scientific research the contributors provide an accessible and up to date overview of current knowledge and an agenda for future research *Handbook of Conflict Analysis and Resolution* Dennis J.D.

Sandole, Sean Byrne, Ingrid Sandole-Staroste, Jessica Senehi, 2008-07-31 This major Handbook is a collection of work from leading scholars in the Conflict Analysis and Resolution CAR field The central theme is the value of interdisciplinary approaches to the analysis and resolution of conflicts **Louis Kriesberg: Pioneer in Peace and Constructive Conflict**

Resolution Studies Louis Kriesberg, 2016-07-06 On the occasion of his 90th birthday Louis Kriesberg provides an informative account of his career tracing the trajectory of his discoveries contributions and stumbles as he sought to help the advance toward a more sustainable and just peace in the world His work contributes to ideas and practices in several areas of conflict studies notably intractable conflicts and their transformation reconciliation conflict analysis and waging conflicts constructively Although neither an autobiography nor a memoir he embeds the course of his work in the context of historical events and in the evolving fields of peace studies and conflict resolution In addition he discusses the interaction of those fields with major conflicts The book includes seven previously published exemplary pieces on these and other topics a comprehensive list of his publications and several photos A discussion of Kriesberg's work and its significance is provided by George A Lopez Professor of Peace Studies University of Notre Dame *Asian Rivalries* Sumit Ganguly, 2011-08-17 The first book that explores and explains the complex two level rivalries domestic and inter state that exist between states such as India and Pakistan that are engaged in serial conflict **Western Sahara** Stephen Zunes, Jacob Mundy, 2010-08-04 The Western Sahara conflict has proven to be one of the most protracted and intractable struggles facing the international

community Pitting local nationalist determination against Moroccan territorial ambitions the dispute is further complicated by regional tensions with Algeria and the geo strategic concerns of major global players including the United States France and the territory s former colonial ruler Spain Since the early 1990s the UN Security Council has failed to find a formula that will delicately balance these interests against Western Sahara s long denied right to a self determination referendum as one of the last UN recognized colonies The widely lauded first edition was the first book length treatment of the issue in the previous two decades Zunes and Mundy examined the origins evolution and resilience of the Western Sahara conflict deploying a diverse array of sources and firsthand knowledge of the region gained from multiple research visits Shifting geographical frames local regional and international provided for a robust analysis of the stakes involved With the renewal of the armed conflict continued diplomatic stalemate growing waves of nonviolent resistance in the occupied territory and the recent U S recognition of Morocco s annexation this new revised and expanded paperback edition brings us up to date on a long forgotten conflict that is finally capturing the world s attention

Re-Centering Culture and Knowledge in Conflict Resolution Practice Mary Adams Trujillo,S. Y. Bowland,Linda James Myers,Phillip M. Richards,Beth Roy,2022-09-01 The field of conflict resolution centers on relationships and ways of approaching methods for problem solving These relationships and approaches vary deeply depending on the individual society and background proving that cultural perspective is fundamental to any dispute intervention Re Centering Culture and Knowledge in Conflict Resolution Practice is a collection of original essays by scholars and practitioners of conflict resolution and others working in marginalized communities The volume offers a sampling of the cultural voices essential to effective practice yet not commonly heard in the discourse of conflict resolution The authors explore the role of culture race and oppression in resolving disputes Drawing on firsthand experience and sound research the authors address such issues as culturally sensitive mediation practices the diversity of perspectives in conflict resolution literature and power dynamics The first anthology of its kind this book combines personal narratives with formal scholarship By melding these varied approaches the authors seek to inspire activism for social justice in today s multicultural society

The Shanghai Cooperation Organization and Conflict De-escalation James MacHaffie,2023-03-10 This book s main objective is to determine the role if any the Shanghai Cooperation Organization SCO plays in de escalating tensions among its members It argues that the SCO is uniquely suited to keep its disparate members many of whom have border disputes with each other from escalating tensions among themselves The book proposes a rivalry de escalation model that differs from the standard belief that rivalries de escalate due to a shock or external pressure This model states that trust can be built between two rival states when confidence building measures are instilled and utilized repeatedly over a long period of time The SCO provides these mechanisms in the form of annual summits between state leaders and routine military exercises involving military units from every member Examining three case studies involving the founding six members of the organization the book argues that the SCO is effective in keeping rivalries de escalated among

its members This book will be of much interest to students of Asian politics regional security and international relations

Demonization in International Politics Linn Normand, 2016-06-08 This book investigates demonization in international politics particularly in the Middle East It argues that while demonization's origins are religious its continued presence is fundamentally political Drawing upon examples from historical and modern conflicts this work addresses two key questions Why do leaders demonize enemies when waging war And what are the lasting impacts on peacemaking In providing answers to these inquiries the author applies historical insight to twenty first century conflict Specific attention is given to Israel and Palestine as the author argues that war time demonization in policy media and art is a psychological and relational barrier during peace talks
