collection of women's stories, thoughts and poems about the domestic abuse they have experienced throughout their lives. Transcribed directly from Jan Rosenberg's interviews with eleven women in the Florida panhandle, their histories embody the epidemic of domestic violence in America. The eleven survivors are lower to middle class women of various ethnic orientations and range in age from their late twenties to mid sixties. The survivors' stories are clarified with the use of diagrams from The Domestic Abuse Intervention Project (DAIP) and examined as the women rebuild their lives hour by hour and day by day. These Are Our Stories provides two resource guides following the women's interviews. The first guide is adapted for use in north Florida to assist an abused woman in identifying her situation using these eleven women's stories as a thread. The second resource is a brief bibliography of literature and resources for domestic violence victims that can be used throughout the U.S.

Emergency Pulse: Stories from the Frontline of Paramedic Care Meshal Thunayyan Helal Alanazi, Bader Ghareeb Jazzaa Alanazi, Sultan Saud Hamoud Alotaibi, Naif Ali Abdullah Alshehri, Emergencies we know never take long to find yourself. One moment it is just another normal day, the next the world unravels. This is the chaos paramedics love, their sweet spot where they operate with seconds, not minutes, where life and death decisions are made and where comfort is offered. *Emergency Pulse: Stories from the Front Line of Paramedic Care* is a salute to the professionals who answer the call of life when it hits the fan with experience, commitment, and humanity. This book provides an inside look of what it means to be a prehospital emergency medicine provider beyond the lights and sirens through the grit and grime. In every tale they uncover the peaks and troughs of that collective experience, the successes and failures, and the invaluable bonds of friendship built in the heat of battle. This immersive experience, told through the eyes of those living it, paramedics, EMTs, first responders, does not simply showcase the clinical nature of emergency medicine but the humanity behind the uniforms. It is a reminder that behind each call, there is a story: a patient struggling to overcome the odds, a family on pins and needles, and a responder carrying the burden of it all. A book for anyone curious about the first response, desperate perhaps for emergency medical care at their lowest points, and for the brave men and women who put their lives on the line, saving the lives of others. Step into their world. **Pulse of Emergency Care**. And witness through their eyes what the call means in actuality. **Using Trauma-Focused**

Therapy Stories Pat Pernicano, 2014-02-03. *Using Trauma Focused Therapy Stories* is a groundbreaking treatment resource for trauma-informed therapists who work with abused and neglected children ages nine years and older, as well as their caregivers. The therapy stories are perfect accompaniments to evidence-based treatment approaches and provide the foundation for psychoeducation and intervention with the older elementary-aged child or early pre-teen. Therapists will also benefit from the inclusion of thorough guides for children and caregivers which illustrate trauma and developmental concepts in easy-to-understand terms. The psychoeducational material in the guides, written at a third to fourth grade reading level, may be used within any trauma-informed therapy model in the therapy office or sent home for follow-up. Each therapy story illustrates trauma concepts, guides trauma narrative, and cognitive restructuring work, and illuminates caregiver blind spots. The caregiver stories target issues that often become barriers to family trauma recovery. No therapist who works with young trauma survivors will want to be without this book, and school-based professionals, social workers, psychologists, and others committed to working with traumatized children will find the book chock-full of game-changing ideas for their practice.
