Imitations of the Self: Jiang Yan and Chinese Poetics Nicholas Morrow Williams,2014-11-06 *Imitations of the Self* reevaluates the poetry of Jiang Yan 444 505 long underappreciated because of its pervasive reliance on allusion by emphasizing the self conscious artistry of imitation In context of imitation poetry the popular genre of the Six Dynasties era Jiang s work can be seen as the culmination of central trends in Six Dynasties poetry His own life experiences are encoded in his poetry through an array of literary impersonations reframed in traditional literary forms that imbue them with renewed significance A close reading of Jiang Yan s poetry demonstrates the need to apply models of interpretation to Chinese poetry that do justice to the multiplicity of authorial self representation
