Scattering The Ashes:

A Scattering of Ashes George Dewey, 1979 **The Buddhist Dead** Bryan J. Cuevas, Jacqueline Ilyse Stone, 2007-01-01
In its teachings practices and institutions Buddhism in its varied Asian forms is centrally concerned with death and the dead This title offers a comparative investigation of this topic across the major Buddhist cultures of India Sri Lanka China Japan Tibet and Burma Invisible Population Natacha Aveline-Dubach, 2012-05-11 The issue of population ageing in East Asia has been extensively studied but we remain in the dark as to the fate of the region's growing dead population particularly in the largest metropolitan areas where there is bitter competition for space among the various human activities From private cemetery developers to undertakers not to mention a vast array of sub contractors death is discreetly helping a multitude of industry players to prosper The result has been the transformation of funeral services into a fully fledged industry that is rapidly expanding and adapting to the needs of urban societies with their extreme lack of space In the specific context of East Asian megacities funeral rituals and practices are evolving rapidly in an attempt to conform to spatial constraints and address emerging challenges such as urban sustainability and growing social inequalities Research dealing with death in East Asia has so far focused on symbolic and religious issues ignoring the social economic and spatial dimensions that have become crucial in a context of rapid urbanization This book aims to remedy this situation while highlighting for the first time the shared characteristics of funerary issues across Japan Korea and China When a Loved One Dies K. D. Pryor, 2011
Brittany France Near the coast A picturesque inn Spectacular scenery Tasty French treats Time off from school Tallis Challinor imagines this as the perfect vacation scenario so when her grandfather suggests that she accompany him to the country of her ancestors she is more than happy to tag along What Tallis doesn't bargain on is another ghostly encounter especially not so soon after she's sealed up a bunch of unruly ghosts on their side of the portal between the human and spirit realms But when she feels the energy radiating from the megalithic standing stones dotting the countryside around Carnac France an energy that feels frighteningly like the power exuding from the portal in her basement back home she has a feeling she might be in trouble And she is right When her grandfather goes missing Tallis leaps into action She calls the only ghostbuster she knows in France and with help on the way she gears up to battle another set of spirits bent on causing destruction Along the way Tallis is forced to examine her life her relationships and her tightly held beliefs about who she is and where she comes from She also has to juggle two impossible males both attractive but annoying both seemingly set on driving her nuts or breaking her heart **Seeds of Sin** Yvonne A. Cremation in America Fred Rosen,2010-10-05 In this captivating review of the history the practice and the industry of cremation in America award winning former New York Times columnist Fred Rosen provides an authoritative source of information and many revealing facts about an increasingly common yet still controversial alternative to burial Rosen gives an entertaining first person account of his inquiry into the practice of cremation and its roots He describes the early ancient custom of cremation by funeral pyre and then explores why the rising Church banned the practice as a sacrilege He then traces the underpinnings of the modern cremation movement in the late 19th century among a colorful group of intellectuals and physicians This 19th century group endorsed this then illegal practice as a means to improve public health as a way to prevent seepage of burial grounds from polluting ground water and spreading disease Rosen goes on to examine in today's world people's feelings about death and religion as well as their sensitivities to cremation Given certain abuses he believes that this industry needs to be regulated However he finds much in favor of cremation when firsthand comparing its costs vs the excesses and extravagances of the burial funeral industry In an age when over 25 percent of the population is turning to cremation as a preferred funeral arrangement this book offers much timely useful and engrossing information

Death Mario Erasmo,2021-03-25 Personal and yet utterly universal inevitable and yet unknowable death has been a dominant theme in all cultures since earliest times Different societies address death and the act of dying in culturally diverse

ways yet remarkably across the span of several millennia we can recognize in the customs of ancient Greece and Rome ceremonies and rituals that have enduring present day resonance For example preparing the corpse of the deceased holding a memorial service the practice of cremation and of burial in resting places are all liminal processes that can trace their origin to ancient practices Such rites described by Cicero and Herodotus among others have defined traditional modern funerals Yet of late there has been a shift away from classical ritual and sombre memorialization as the dead are transformed into spectacles Ad hoc roadside shrines virtual burials online guest books and even jazz memorial processions and firework displays have come to the fore as new modes of marking even celebrating bereavement What is causing this change and how do urbanisation economic factors and the rise of individualism play a part Mario Erasmo creatively explores the nexus between classical and contemporary approaches to dying death and interment From theme funerals in St Louis to Etruscan sarcophagi he offers a rich and insightful discussion of finitude across the ages
