Scene Of My Selves:

The Scene of My Selves Terence Diggory, Stephen Paul Miller, 2001 This volume collects critical essays on the generation of New York School poets who emerged in the 1950s From book cover **Encyclopedia of the New York School Poets** Terence Diggory, 2015-04-22 Presents an alphabetical reference guide detailing the lives and works of poets associated with the New York Schools of the early twentieth century **Hide/Seek** Jonathan D. Katz, David C. Ward, 2010-11-02 An entirely new interpretation of modern American portraiture based on the history of sexual difference Hide Seek Difference and Desire in American Portraiture companion volume to an exhibition of the same name at the National Portrait Gallery Smithsonian Institution traces the defining presence of same sex desire in American portraiture through a seductive selection of more than 140 full color illustrations drawings and portraits from leading American artists Arcing from the turn of the twentieth century through the emergence of the modern gay liberation movement in 1969 the tragedies of the AIDS epidemic and to the present Hide Seek openly considers what has long been suppressed or tacitly ignored even by the most progressive sectors of our society the influence of gay and lesbian artists in creating American modernism Hide Seek shows how questions of gender and sexual identity dramatically shaped the artistic practices of influential American artists such as Thomas Eakins Romaine Brooks Marsden Hartley Georgia O Keeffe Charles Demuth Jasper Johns Robert Rauschenberg Andrew Wyeth Andy Warhol Robert Mapplethorpe and many more in addition to artists of more recent works such as Felix Gonzalez Torres Glenn Ligon Catherine Opie and Cass Bird The authors argue that despite the late nineteenth century definition and legal codification of the homosexual in reality questions of sexuality always remained fluid and continually redefined by artists concerned with the act of portrayal In particular gay and lesbian artists of but not fully in the society they portrayed occupied a position of influential marginality from which vantage point they crafted innovative and revolutionary ways of painting portraits Their resistance to society's attempt to proscribe them forced them to develop new visual vocabularies by which to code disguise and thereby express their subjects identities and also their own Bringing together for the first time new scholarship in the history of American sexuality and new research in American portraiture Hide Seek charts the heretofore hidden impact of gay and lesbian artists on American art and portraiture and creates the basis for the necessary reassessment of the careers of major American artists both gay and straight as well as of portraiture itself **A Social Theory of Freedom** Mariam Thalos, 2016-03-17 In *A Social Theory of Freedom* Mariam Thalos argues that the theory of human freedom should be a broadly social and political theory rather than a theory that places itself in opposition to the issue of determinism Thalos rejects the premise that a theory of freedom is fundamentally a theory of the metaphysics of constraint and instead lays out a political conception of freedom that is closely aligned with questions of social identity self development in contexts of intimate relationships and social solidarity Thalos argues that whether a person is free in any context depends upon a certain relationship of fit between that agent's conception of themselves both present and future on

the one hand and the facts of their circumstances on the other Since relationships of fit are broadly logical freedom is a logic it is the logic of fit between one's aspirations and one's circumstances what Thalos calls the logic of agency The logic of agency once fleshed out becomes a broadly social and political theory that encompasses one's self-conceptions as well as how these self-conceptions are generated together with how they fit with the circumstances of one's life The theory of freedom proposed in this volume is fundamentally a political one

Beautiful Enemies Andrew Epstein, 2006-09-21 Although it has long been commonplace to imagine the archetypal American poet singing a solitary Song of Myself much of the most enduring American poetry has actually been preoccupied with the drama of friendship In this lucid and absorbing study Andrew Epstein argues that an obsession with both the pleasures and problems of friendship erupts in the New American Poetry that emerges after the Second World War By focusing on some of the most significant postmodernist American poets the New York School poets John Ashbery Frank O'Hara and their close contemporary Amiri Baraka *Beautiful Enemies* reveals a fundamental paradox at the heart of postwar American poetry and culture the avant-garde's commitment to individualism and nonconformity runs directly counter to its own valorization of community and collaboration In fact Epstein demonstrates that the clash between friendship and nonconformity complicates the legendary alliances forged by postwar poets becomes a predominant theme in the poetry they created and leaves contemporary writers with a complicated legacy to negotiate Rather than simply celebrating friendship and poetic community as nurturing and inspiring these poets represent friendship as a kind of exhilarating maddening contradiction a site of attraction and repulsion affinity and rivalry Challenging both the reductive critiques of American individualism and the idealized heavily biographical celebrations of literary camaraderie one finds in much critical discussion this book provides a new interpretation of the peculiar dynamics of American avant-garde poetic communities and the role of the individual within them By situating his extensive and revealing readings of these highly influential poets against the backdrop of Cold War cultural politics and within the context of American pragmatist thought Epstein uncovers the collision between radical self-reliance and the siren call of the interpersonal at the core of postwar American poetry

The Grammar of Consciousness E. Moss, 1995-01-18 Beginning from the scientist

philosopher Michael Polanyi's theory of tacit knowing and drawing upon a remarkably original model of the mind and its workings Edward Moss develops the thesis that all consciousness is grammatically structured Comparison is made in detail with the theories of Daniel Dennett based on the computer analogy and with the neurophysiological theories of Gerald Edelman It is suggested that Moss's top down psychological model can be integrated with Edelman's bottom up analysis Two final chapters explore the philosophical implications of this discussion

Toss of Coin Ashok Sharda, 2019-05-13 Toss of Coin is an anthology of stories intended to reevaluate human relationship with their god fellow beings animals and plants Centuries together people have lived without establishing any kind of real communication The invariable underlying reason is a conditioned self centered mind that closes all doors and windows that lead one to the other The other in relationship becomes object of subjective convenience They turn into a replaceable commodity A is equal to B is equal to C is equal to D and if D is unavailable can be replaced by C and so on In normal course relationship is a happening guided by three metaphysical laws epitomized by the toss of coin People become prey to their own internalized self hypnotic autosuggestions He or she has light brown hair and eyes he or she has confident masculine or feminine strides and they see the aura Incidentally the color of the eyes and hair remain the big frame and the strides remain and yet the aura turns into that of an abominable bummer when the law turns friend into foe Relations commencing from akinness of vibrations are built on different footing developed on some different levels and is everlasting Such relationships don't confine to one of umpteen selves but one's whole being Unfortunately humans are fond of nomenclaturing relationships but have failed to traverse the path where they can meet one another They have failed to realize that a good father only exists when exists a bad father Humans owing to their insensitive egocentric and violent character traits have failed to establish any kind of relationship with animals and plants who live around us In three of the stories the author emphasizes the need to extend human hand in love to win their trust These stories are real life stories if not in the depiction of the events in author's experience seen not through two normal eyes but on some different dimension personifying the whole experience His approach to any happening is metaphysical

Henry Fielding - Plays, Volume II, 1731 - 1734 Thomas Lockwood, 2007-10-11 This is the second of three volumes representing the only modern edition of Fielding's dramatic works Most of these plays have not appeared in print for a century and never previously in fully edited form Fielding is best known as a classic novelist and the author of Tom Jones but like his great model Cervantes he came to novel writing from an important first career in professional theatre He wrote twenty eight plays including comedies satiric extravaganzas and ballad operas He was the leading playwright of his

generation an experimentalist and entrepreneur of dramatic form who sometimes also brought contemporary politics and public figures onto his stage with results even more dramatic off stage This volume presents nine plays from one of the most productive and successful periods of Fielding s theatre career One of them The Grub Street Opera is a ballad opera cheerfully mocking various public characters including the Prime Minister Prince of Wales and even King and Queen Another The Modern Husband is a dark comedy attacking the cynical merchandising of sex marriage and influence among what passes for polite society in 1730s London Most of the plays in this volume were major hits with long stage lives in repertory including The Lottery The Intriguing Chambermaid and two of the great Moli re adaptations of the century The Mock Doctor and The Miser Fielding wrote all four of those plays as star vehicles for the great Drury Lane musical actress Catherine Clive The plays are given in critical unmodernized texts based on careful collation of the original editions with explanatory notes and commentary on sources stage history and critical reception All music is included with appendices giving complete accounts of textual variation and bibliographic history for each play
