Scenic Design On Broadway:

Scenic Design on Broadway Bobbi Owen, 1991-10-30 This book profiles scenic designers who worked on Broadway between the 1915-16 and 1989-90 theatre seasons. The more than 900 biographies provide information about the designer's backgrounds and professional credits. The profiles, approximately 200 words each, are followed by a chronological list of Broadway credits in scenic design, followed by lighting design and costume design credits. The introduction outlines the profession in the twentieth century on Broadway and the development of American design from the New Stagecraft. The appendixes cover four major awards that have acknowledged the contributions of scenic designers, among others, to the Broadway stage: The Tony Awards, the Donaldson and American Theatre Wing Awards. The index alphabetically lists each play followed by the designer's name when that information is available. A selected bibliography is included, as are 12 renderings of the designers' original work as illustrations. These illustrations span the history of the American theatre in the twentieth century, beginning with *The Man Who Married a Dumb Wife* designed by Robert Edmond Jones in 1915 and generally regarded as the beginning of the modern era on Broadway. The most recent design included is *Grand Hotel*, the musical designed by Tony Walton in 1989, which was nominated for a Tony Award for outstanding scenic design.

Mielziner Mary C. Henderson, 2001 Jo Mielziner 1901-1976 was an acclaimed scenic designer of the American theatre. Over five decades his career spanned the flowering of the modern theatre in the USA, and he designed many of its most famous productions, including *A Streetcar Named Desire*, *Death of a Salesman*, *Guys and Dolls*, and *Carousel*. He worked with a roster of great playwrights, directors, and producers on a staggering total of 260 shows, many of them theatrical premieres, but also including ballets, operas, and motion pictures. He pioneered many concepts of design, such as the capturing of a visual metaphor for the production that are taken for granted today. His influence on succeeding generations has been enormous. This study covers his life and work and is illustrated with sketches and fully rendered designs.

Designing Broadway Derek McLane, Eila Mell, 2022-11-22 In this richly illustrated and information-packed celebration of Broadway set design, Tony Award-winning designer Derek McLane explores the craft while reflecting on some of the greatest stage productions of the past few decades. Together with other leading set design and theatre talents, McLane invites us into the immersive and exhilarating experience of building the striking visual worlds that have brought so many of our favorite stories to life. Discover how designers generate innovative ideas, research, period and place, solve staging challenges, and collaborate with directors, projectionists, costume designers, and other artists to capture the essence of a show in powerful scenic design. With co-writer Eila Mell, McLane and contributors discuss *Moulin Rouge*, *Hamilton*, *Hadestown*, *Beautiful*, and many more of the most iconic productions of our generation. Among the Broadway luminaries who contribute are John Lee Beatty, Danny Burstein, Cameron Crowe, Ethan Hawke, Mois's Kaufman, Carole King, Kenny Leon, Santo Loquasto, Kathleen Marshall, Lynn Nottage, David Rabe, Ruben Santiago Hudson, Wallace Shawn, John Leguizamo, and Robin Wagner.
