15 Years of Speculative Realism Charlie Johns, 2024-09-27 A definitive and invaluable re assessment of the last decade of speculative realism Critical Theory After Habermas Dieter Freundlieb, Wayne Hudson, John F. Rundell, 2004-01-01 The essays in this book engage with the broad range of I rgen Habermas work including politics and the public sphere nature aesthetics the linguistic turn and the paradigm of intersubjectivity Each essay responds to particular difficulties with Habermas approach to these topics Each contributor also draws on different theoretical and philosophical traditions in order to explore recent developments in critical theory Slavoj Žižek and Christianity Sotiris Mitralexis, Dionysios Skliris, 2018-07-18 Slavoj i ek s critical engagement with Christian theology goes much further than his seminal The Fragile Absolute 2000 or his The Puppet and the Dwarf 2003 or even his discussion with noted theologian John Milbank in The Monstrosity of Christ 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of i ek s thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of i ek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage i ek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of i ek s relationship to Christianity As such scholars of theology the philosophy of religion and i ek more generally will all find this book to be of great interest Suffering Religion Robert Gibbs, Elliot R. McGrath, Joseph Carew, 2016-06-27 The death of German Idealism has been decried innumerable times since its revolutionary inception whether it be by the 19th century critique of Western metaphysics phenomenology contemporary French philosophy or analytic philosophy Yet in the face of two hundred years of sustained extremely rigorous attempts to leave behind its legacy German Idealism has resisted its philosophical death sentence For this exact reason it is timely ask What remains of German Idealism In what ways does its fundamental concepts and texts still speak to us Drawing together new and established voices from scholars in Kant Fichte Hegel and Schelling this volume offers a fresh look on this time honoured tradition It uses myriad of recently developed conceptual tools to present new and challenging theories of its now canonical figures The Palgrave Handbook of German Idealism and Poststructuralism Tilottama Rajan, Daniel Whistler, 2023-06-01 The Palgrave Handbook of German Idealism and Poststructuralism offers a wide ranging dialogue between theory and German Idealism joining up the various lines of influence connecting German Idealist and Romantic philosophies in all their variety to post 68 European philosophies from Derrida and Deleuze to i ek and Malabou Key features Provides in depth reflections on the various conversations between German Idealism and theory including an expanded canon of Idealist philosophers and a wide range of contemporary anti foundationalist thinkers Includes marginalized voices and concepts that reflect both contemporary concerns as well as the sheer abundance of readings of German Idealism undertaken by European theorists over the last fifty years Expands the existing scholarship by focusing on new future directions emerging out of the idealism theory relationship The Palgrave Handbook of German Idealism and Poststructuralism is essential reading for researchers and students of all levels from senior scholars to advanced undergraduates working on the legacy of German Idealist philosophers within philosophy departments as well as all those

interested in theory from across the humanities *Proust, the One, and the Many Erika Fulop, 2017-12-02 One of the many* aspects that make Marcel Prousts A la recherche du temps perdu such a complex and subtle work is its engagement with metaphysical questions. The disparate nature of the narrators experiences hypotheses and statements has generated a number of conflicting interpretations based on parallels with the thought of one or another philosopher from Plato to Leibniz Spinoza Schopenhauer Nietzsche Bergson or Deleuze Through the analysis of the narrators two seemingly incompatible perceptions of the world which reveal reality to be either one or infinitely multiple Erika Fuelop proposes a reading of the novel that reconciles the opposites Rather than being undecided or self contradictory the narrative thematizes the insufficiency of the dualist perspective and invites the reader to take a step beyond it Erika Fuelop is an independent researcher whose doctoral thesis completed at the University of Aberdeen is at the basis of this monograph Materialism Michael Uhall, 2024-04-24 In Noir Materialism Freedom and Obligation in Political Ecology Michael Uhall reengineers the conceptual relationship between nature and politics by crafting the terms of a new philosophy of nature and exploring its consequences for political theory These consequences include major theoretical reformulations of indispensable political ideas including freedom obligation and the subject These ideas need to be retooled because the ecological crisis devastating our planet is at root a political crisis deeply inflected by the concepts used to help navigate decisional and material environments Noir Materialism stages pivotal encounters with Hannah Arendt Roberto Esposito and F W J Schelling as well as engaging critically with biopolitics environmental political thought new materialism the ontological turn in anthropology and surprisingly film noir Ultimately Noir Materialism argues that only a return to the nightside of nature can address the conceptual gridlock impeding attempts to register and respond to the ecological crisis Politics, Religion, and Art Douglas Moggach, 2011-04-14 The period from 1780 to 1850 witnessed an unprecedented explosion of philosophical creativity in the German territories In the thinking of Kant Schiller Fichte Hegel and the Hegelian school new theories of freedom and emancipation new conceptions of culture society and politics arose in rapid succession. The members of the Hegelian school forming around Hegel in Berlin and most active in the 1830 s and 1840 s are often depicted as mere epigones whose writings are at best of historical interest In Politics Religion and Art Hegelian Debates Douglas Moggach moves the discussion past the Cold War era dogmas that viewed the Hegelians as proto Marxists and establishes their importance as innovators in the fields of theology aesthetics and ethics and as creative contributors to foundational debates The Bloomsbury Companion to Heidegger Francois Raffoul, Eric S. about modernity state and society Nelson, 2013-08-15 The definitive reference guide to Heidegger's life and work including 57 original essays covering all the key aspects of his thought The German Aesthetic Tradition Kai Hammermeister, 2002-10-17 Publisher Description

'Being Towards Death' Sylvie Avakian, 2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the

West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger's being towards death Sein zum Tode as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the insightful creativity of which cannot be denied

<u>Deconstructive Subjectivities</u> Simon Critchley, Peter Dews, 1996-01-01 Explores the meanings of subjectivity in continental philosophy in the wake of post structuralism and critical theory
