G. Jung, 2023-01-31 Jung s lectures on the psychology of Jesuit spiritual practice unabridged in English for the first time Between 1933 and 1941 C G Jung delivered a series of public lectures at the Swiss Federal Institute of Technology ETH in Zurich Intended for a general audience these lectures addressed a broad range of topics from yoga and meditation to dream analysis and the psychology of alchemy Here for the first time are Jung's complete lectures on Ignatius of Loyola's Spiritual Exercises delivered in the winter of 1939 1940 These illuminating lectures are the culmination of Jung's investigation into traditional forms of meditation and their parallels to his psychotherapeutic method of active imagination Jung presents Loyola's exercises as the prime example of a Christian

practice comparable to yoga and Eastern meditation and gives a psychological interpretation of the visions depicted in the saint's autobiographical writings Offering a unique opportunity to encounter the brilliant psychologist as he shares his ideas with the general public the lectures reflect Jung's increasingly positive engagement with Roman Catholicism a development that would lead to his fruitful collaborations after the war with eminent Catholic theologians such as Victor White Bruno de J sus Marie and Hugo Rahner Featuring an authoritative introduction by Martin Liebscher along with explanations of Jungian concepts and psychological terminology this splendid book provides an invaluable window on the evolution of Jung s thought and a vital key to understanding his later work Nietzsche on Tragedy M. Williamson, 2004-07 Since the dawn of Romanticism artists and intellectuals in Germany have maintained an abiding interest in the gods and myths of antiquity while calling for a new mythology suitable to the modern age In this study George S Williamson examines the factors that gave rise to this distinct and profound longing for myth In doing so he demonstrates the entanglement of aesthetic and philosophical ambitions in Germany with some of the major religious conflicts of the nineteenth century Through readings of key intellectuals ranging from Herder and Schelling

to Wagner and Nietzsche Williamson highlights three crucial factors in the emergence of the German engagement with myth the tradition of Philhellenist neohumanism a critique of contemporary aesthetic and public life as dominated by private interests and a rejection of the Bible by many Protestant scholars as the product of a foreign Oriental culture According to Williamson the discourse on myth in Germany remained bound up with problems of Protestant theology and confessional conflict through the nineteenth century and beyond A compelling adventure in intellectual history this study uncovers the foundations of Germany's fascination with myth and its enduring cultural legacy Reading Plato through Jung Paul Bishop, 2023-01-19 This book examines the Jungian imperative that the Third must become the Fourth through the lens of Carl Jung's complex reception of Plato While in psychoanalytic discourse the Third is typically viewed as an agent that brings about healing the author highlights that in the case of Jung an early emphasis on the Third as the transcendent function gave way to an increasing insistence on the importance of the Fourth And yet he asks why must the Third become the Fourth Paul Bishop begins with a survey of work on Jung's relation to Plato before turning to Jung's readings of the Timaeus and Black Books as well as Goethe's Faust II and Nietzsche's Zarathustra He proceeds to unpick Jung's statements on the Third and the Fourth though a compelling analysis of how Jung draws upon religious and alchemical traditions Pythagorean numerology his own dream like experiences and Plato's cosmology This book will appeal to practitioners and to scholars working in the history of ideas psychoanalysis philosophy and psychoanalytic theory **The Archaic** Paul Bishop, 2011-09-30 The Archaic takes as its major reference points C G Jung s classic essay Archaic Man 1930 and Ernesto Grassi s paper on Archaic Theories of History 1990 Moving beyond the confines of a Jungian framework to include other methodological approaches this book explores the concept of the archaic Defined as meaning old fashioned primitive antiquated the archaic is in fact much more than something very very old it is timeless inasmuch as it is before time itself Arch Urgrund Ungrund primordial darkness eternal nothing are names for something essentially nameless yet whose presence we nevertheless intuit This book focuses on the reception of myth in the tradition of German Idealism or Romanticism Creuzer Schelling Nietzsche which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth century thought Ludwig Klages Martin Heidegger The Archaic also includes studies of the Germanic dimension of the archaic Charles Bambach Alan Cardew a discussion of the mytho phenomenological approach to the archaic Robert Josef Kozljani a series of articles on Jung's understanding of the archaic Paul Bishop Susan Rowland Robert Segal This book will be of interest to psychoanalysts anthropologists and phenomenologists as well as students of psychology cultural studies religious studies and philosophy as it seeks to rehabilitate a concept of demonstrable and urgent relevance for our time **Philosophical** Perspectives on Esotericism Olli Pitkänen, 2024-11-12 This volume offers the first systematic philosophical study of esotericism and late modern philosophy It addresses fundamental philosophical questions related to esotericism and reveals that esoteric ideas have had decisive impact on countless important philosophers even if this fact has been neglected in

contemporary philosophy The first part of the book is dedicated to substantial and methodological questions What is philosophy what is esotericism and how should we think about their relationship The second section is more historically oriented and it is divided in two parts Part I is concerned with German romanticism and idealism with a specific focus on the influence of esotericism on Hegel and Schelling as well as the connection between romanticism and Kabbalah in the work of Gershom Scholem Part II explores esotericism in phenomenology pragmatism and post idealism specifically in the work of William James Martin Heidegger Henri Bergson and Roy Bhaskar Philosophical Perspectives on Esotericism will appeal to scholars and advanced students working in philosophy of religion history of philosophy and religious studies The Open Access version of this book available at www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Funded by Kone Foundation Symbol and Intuition Helmut Huehn, 2017-12-02 That a symbolic object or work of art participates in what it signifies as a part within a whole was a controversial claim discussed with particular intensity in the wake of Immanuel Kant's Critique of Judgment It informed the aesthetic theories of a constellation of writers in Jena and Weimar around 1800 including Moritz Goethe Schelling and Hegel Yet the twin concepts of symbol and intuition were not only tools of literary and mythological criticism they were integral even to questions of epistemology and methodology in the fields of theology metaphysics history and natural philosophy The international contributors to this volume further explore how both the explanatory potential and peculiar dissatisfactions of the symbol entered the Anglo American discourse focusing on Coleridge Crabb Robinson and Emerson Contemporary debates about the claims of symbolic as opposed to allegorical art are kept in view throughout Tsimtsum and Modernity Agata Bielik-Robson, Daniel H. Weiss, 2020-12-07 This volume is the first ever collection of essays devoted to the Lurianic concept of tsimtsum It contains eighteen studies in philosophy theology and intellectual history which demonstrate the historical development of this notion and its evolving meaning from the Hebrew Bible and the classical midrashic collections through Kabbalah Isaac Luria himself and his disciples up to modernity ranging from Spinoza B hme Leibniz Newton Schelling and Hegel to Scholem Rosenzweig Heidegger Benjamin Adorno Horkheimer Levinas Jonas Moltmann and Derrida
