Schemes for the Federation of the British Empire Seymour Ching-Yuan Cheng, 1968      Schemes for the Federation of the British Empire. A thesis. Seymour Ching-Juan CHENG, 1931      Schemes for the Federation of the British Empire Seymour Ching-Yuan Cheng, 1931 In this monograph the attempt has been made to collect all the definite schemes for imperial federation from 1850 to the present time and to study them comparatively and systematically Page 8      The British Tradition of Federalism Michael Burgess, 1995 Challenging orthodox assumptions concerning British federalism The British Tradition of Federalism offers a unique revisionist critique of Britain's recent constitutional past The central themes of Empire Ireland and Europe provide the empirical focus of this volume Together they reveal a fundamental continuity of British federal ideas a single intellectual tradition which spans the last century By reinstating a neglected dimension of the larger British political tradition Burgess shows how the continuing relevance of this federal tradition serves as both the source of and inspiration for a wide range of constitutional reform proposals in the 1990s      **Federal Britain** John Kendle, 2002-11-01 The United Kingdom faces with two major federal constitutional debates The first is about the nations which comprise the British state and hence the division of power between Westminster and regional parliaments of Wales Scotland and Northern Ireland The second surrounds the United Kingdom and the European Union This text explores the British engagement with the federal idea from the early 1600s onwards and sets contemporary discussions in context In the past four centuries the British have often looked to the federal idea as a possible solution to problems of the unity of the United Kingdom and of the British Empire This period has also seen successful adoption of federalism by many countries including Britain's former colonial possessions John Kendle examines the break up of the first British empire and the development of modern federalism As well as discussing the Anglo Irish relationship and the United Kingdom's relationship to Europe the author focuses on other contemporary issues such as the world order imperial federation and decolonization

**Delhi Reborn** Rotem Geva, 2022-08-16 Delhi one of the world's largest cities has faced momentous challenges mass migration competing governing authorities controversies over citizenship and communal violence To understand the contemporary plight of India's capital city this book revisits one of the most dramatic episodes in its history telling the story of how the city was remade by the twin events of partition and independence Treating decolonization as a process that unfolded from the late 1930s into the mid 1950 Rotem Geva traces how India and Pakistan became increasingly territorialized in the imagination and practice of the city's residents how violence and displacement were central to this process and how tensions over belonging and citizenship lingered in the city and the nation She also chronicles the struggle after 1947 between the urge to democratize political life in the new republic and the authoritarian legacy of colonial rule augmented by the imperative to maintain law and order in the face of the partition crisis Drawing on a wide range of sources Geva reveals the period from the late 1930s to the mid 1950s as a twilight time combining features of imperial framework

and independent republic Geva places this liminality within the broader global context of the dissolution of multiethnic and multireligious empires into nation states and argues for an understanding of state formation as a contest between various lines of power charting the links between different levels of political struggle and mobilization during the churning early years of independence in Delhi
