The Cambridge Introduction to German Poetry Judith Ryan, 2012-11 Exploring traditional poems alongside new examples this Introduction conveys the rich rewards that come with reading German poetry **The Mission and Message of Music** Michal Smoira Cohn, Shlomo Giora Shoham, 2010-01-08 This book is an English re-writing of the original Hebrew edition published by Dvir Publishing House in 2007 and written jointly with the late Herzl Shmueli The book probes into the nature and quality of the beauty and meaning of music According to the authors these have to be found within the musical phenomena themselves and serve as the basis for the aesthetical criteria of all music They maintain that similar to every linguistic phenomena music is a message in sound that moves within a certain time limit from musician to listener The musician on the one hand and the listener on the other are the two focal points between which the musical process takes

place Music is thus a covenant between the musician and the listener One sends the musical message the other takes it up and internalizes it one is the initiator the other proves the successful outcome of the artistic process The book is intended for music connoisseurs and for all who are interested in artistic thought in general and in musical thoughts in particular Every professional concept that had to be included in the book is duly explained so that any interested reader is able to broaden the scope of his/her outlook

Romantic Moods Thomas Pfau, 2005-10-20 Pfau focuses on three specific paradigms of emotive experience: paranoia, trauma, and melancholy. Along the trajectory of Romantic thought, paranoia characterizes the disintegration of traditional models of causation and representation during the French Revolution; trauma, the radical political, cultural, and economic restructuring of Central Europe in the Napoleonic era; and melancholy, the dominant post-traumatic condition of stalled post-Napoleonic history both in England and on the continent. **BOOK JACKET**

Leiblichkeit und Seele im Spannungsfeld von Weltbezug und Transzendenz Hermes Andreas Kick, 2021 Die Frage nach dem Status des Leibes, der Leiblichkeit in der Welt ist eine Grundfrage auf die jede Philosophie steht. Hier werden doch damit weitere große Fragen zusammengeführt: die nach dem Verhältnis von Leiblichkeit und Seele und die nach dem Weltbezug der Leiblichkeit in der Zeit. Damit aber sind Grenzfragen behrt wie sie im Bewusstsein der Endlichkeit aufscheinen. Sie verlangen nach Lösungen im Bereich konkreter Utopie oder der Transzendenz. Diesen Spannungsfeldern möchte sich der vorliegende Band widmen.

Politics of the Self Richard W. McCormick, 2014-07-14 Richard McCormick examines the concepts of postmodernity and postmodernism as they apply to West Germany, discussing them against the background of cultural and political upheaval in that country since the 1960s rather than exclusively in the more familiar setting of intellectual history. Considering six literary and cinematic texts that are marked by a preoccupation with the self and subjectivity, he underscores the crucial influence of feminism on writers and filmmakers and on the postmodern. In a broad international context, he describes the conflicting forces that affected the West German student movement: the rationalistic tradition of the Weimar Left and more

irrational influences such as French existentialism and surrealism as well as the American Beat movement and rock roll and shows how these forces played themselves out so that dogmatic Marxist Leninism was repudiated in favor of a New Subjectivity At the center of the discussion are the novels Lenz by Peter Schneider Class Love Klassenliebe by Karin Struck and Devotion by Botho Strauss and the films Wrong Move written by Peter Handke and directed by Wim Wenders Germany Pale Mother by Helma Sanders Brahm and The Subjective Factor by Helke Sander The author shows how ongoing attempts to attack the separation of emotion from reason life from art the private from the public and the personal from the political brought about changes in outlook from the 1960s to the early 1980s that are related to the rise of new political movements ecology nuclear disarmament and feminism Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
