Schleiermacher In Context:

Schleiermacher in Context Ruth Richardson, 1991 *Schleiermacher's Preaching, Dogmatics, and Biblical Criticism* Catherine L. Kelsey, 2007-05-25 Friedrich Schleiermacher the father of modern theology found his voice first in preaching This book demonstrates how Schleiermacher moved between the critical reading of Scripture the proclamation of Christian faith to congregations over a forty five year period and eventually the work of theology in all its disciplines Schleiermacher's *Preaching Dogmatics and Biblical Criticism* is the first work to fully unveil this interaction by focusing on Schleiermacher's 228 known sermons on the Gospel of John Kelsey shows in detail 1 how the central insights of his theology emerged first in his preaching and 2 that his dogmatic writings provided a context within which these insights could be related to all the major doctrinal themes of Christian faith The study concludes by drawing implications for theological reflection and its relation to worship life in our own time

What's Right with the Trinity? Hannah Bacon, 2016-02-11 The doctrine of the Trinity poses a series of problems for feminist theology At a basic level the androcentric nature of trinitarian language serves to promote the male as more fully in the image of God and as the archetype of humanity pushing women to the margins of personhood It is no surprise then that feminist scholarship on this doctrine has often focused on what's wrong with the Trinity setting out the problems raised by the use of traditional androcentric trinitarian language This book brings together a discussion of feminist theological methodology with a critical exploration of the doctrine of the Trinity Focussing on what's right with the Trinity as opposed to what's wrong with the Trinity it considers the usefulness of this doctrine for feminist theology today It replaces a stress on trinitarian language with an emphasis on trinitarian thought exploring how we might effectively think rather than speak God in light of feminist concerns In particular it asks how a trinitarian understanding of God might support and be supported by key values which underpin a feminist way of doing theology specifically values which underpin the methodological use of women's experience

in feminist theology The central argument is that thinking God as Trinity need not serve to reinforce patriarchal values and ideals but may in fact promote the subjectivity and personhood of women Schleiermacher's Interpretation of the Bible Ian S. Wishart, 2021-09-09 Schleiermacher was a preacher a clergyman of the Reformed Church in Germany based in Berlin He was also a popular author and teacher Karl Barth described him first as a pastor then a professor and last of all a philosopher He was controversial and remains controversial in all of these roles He remains a seminal thinker a pioneer in seeking to make Christianity speak with a modern voice He addressed nineteenth century Germany He raised issues relevant to the twenty first century His best known works are *On Religion Speeches to its Cultured Despisers* 1799 and *The Christian Faith* 1822 but little attention has been paid to his sermons although he preached regularly to large congregations for over thirty years This book is a glimpse at Schleiermacher in the pulpit *Schleiermacher's Influences on American Thought and Religious Life, 1835-1920* Jeffrey A. Friedrich Schleiermacher's Pathways of Translation

Piotr de Bończa Bukowski, 2023-01-30 This interdisciplinary study introduces readers to Friedrich Schleiermacher's diverse pathways of reflection and creative practice that are related to the field of translation. By drawing attention to Schleiermacher's various writings on a range of subjects including philology, criticism, hermeneutics, dialectics, rhetoric, and religion, the author makes it clear that the frequently cited lecture *ber die verschiedenen Methoden des bersetzens* 'On the Different Methods of Translating' represents but a fraction of Schleiermacher's contributions to modern-day insights into translation. The analysis of Schleiermacher's various pathways of reflection on translation presented in this book leads to the conclusion that translation is part of the essence of the world as it is a fundamental tool of our cognition and a foundation of our existence. In Schleiermacher's works, transfer, translation, mediation, and communication underpin our very existence in the world and our self-awareness. At the same time, they represent fundamental categories for a project that focuses on the consolidation and assimilation through translation of that which is foreign, different, diverse.

[The Constructive Promise of Schleiermacher's Theology](#) Shelli M. Poe, 2021-04-08 This volume demonstrates how Friedrich Schleiermacher's thought can be used to address contemporary doctrinal refinement and development. Taking a constructive approach, Shelli M. Poe weaves Schleiermacher's theology together with current scholarship in feminism, womanism, ecotheology, and queer theology. While Schleiermacher is widely acclaimed as the progenitor of modern theology, Poe is one of the first to use his work as a springboard to refine contemporary doctrine. This book demonstrates the promise of Schleiermacher's mature work for contemporary constructive forms of theology.

New Horizons in Hermeneutics Anthony C. Thiselton, 1992 This book explores the rapidly growing interdisciplinary area of hermeneutics and its significance for biblical studies, combining wide fundamental, rigorous, and creative theoretical concerns with practical questions about how we read biblical texts.

Conviviality in Contexts of Religious Plurality Andrea Bieler, Claudia Hoffmann, Lisa Ketges, 2025-02-27 How do religious individuals, communities, and political institutions navigate diversity, and how do they foster social cohesion? This volume focuses on convivial practices in religiously diverse settings and includes theoretical, empirical, and practice-oriented approaches. Through an interdisciplinary lens, the contributors examine conceptual reflections, boundary work, rituals, multilingualism, and spatial dynamics. This volume represents an important milestone in conviviality research and provides valuable insights for further research in the fields of theology, religious studies, and sociology.

Friedrich Schleiermacher's Philosophy of Religion Stefan Lang, Klaus Viertbauer, 2025-07-09 This volume provides a comprehensive account of Friedrich Schleiermacher's philosophy of religion. The contributors cover the historical context of Schleiermacher's work, specific aspects of his philosophy of religion, and the ways that his work can contribute to contemporary debates. Friedrich Schleiermacher is considered one of the outstanding representatives of 19th-century Protestant theology. This volume brings together scholars from both continental and analytic traditions to explore

Schleiermacher's preeminent role in post-Kantian philosophy of religion. The chapters are divided into three thematic sections. The first section situates Schleiermacher in the context of the 18th and 19th-century philosophy of religion. These chapters analyze his relation to thinkers such as Kant, Fichte, Hegel, Schelling, and also to Kierkegaard and Heidegger, as well as to prominent theologians in the Protestant and Catholic traditions. The second section explores different aspects of Schleiermacher's philosophy of religion, such as absolute dependence or religious feeling. Finally, the third section addresses how Schleiermacher's insights can contribute to contemporary philosophy of religion. These chapters address current debates, particularly on religious experience, feminism, and philosophy of emotions. Friedrich Schleiermacher's *Philosophy of Religion* will be of interest to scholars and advanced students working in philosophy of religion, history of philosophy, and 19th-century religious thought.

The Development of Schleiermacher's Philosophy of Religion in Its Cultural Context Ronald Edward Benson, 1970

An Analysis of Friedrich Schleiermacher's On Religion Ruth Jackson, 2018-05-11

On Religion is a major text for the development of modern religious thought in the West, and its author, German theologian Friedrich Schleiermacher, is remembered as the Father of Modern Protestant Theology, as well as for his contributions to philosophy, ethics, and hermeneutics. Comprising five lively speeches which defend religion as a universal element of human life, the text was addressed to the young intellectual elite of early nineteenth-century Berlin. It demonstrates Schleiermacher's critique of Kant's religious and moral thought while also showing his indebtedness to the divergent movements of Enlightenment rationalism and Romanticism.

Self, Christ and God in Schleiermacher's Dogmatics Maureen Junker-Kenny, 2020-12-07

Since its first appearance in 1821, *The Christian Faith* has had a fractious history of reception. It implements decisive departures for theology, founding the possibility to speak about God on human freedom. It recognises the role of historical consciousness and the need to relate to advances in the natural sciences. The study investigates the early critiques of Schleiermacher's analysis of the feeling of utter dependence of his conception of Christ as the archetype of the God-consciousness and of his doctrine of God in terms of absolute causality. It reconstructs the revisions carried out in the second edition of 1830/31 as a breakthrough to a transcendental argumentation. Does Schleiermacher's elaboration of the anthropological turn in theology leave it defenseless against the dissolution of faith in a saving God in Feuerbach's projection thesis? Does it offer a naturalising account of religion? And where does the interconnectedness of nature, established by God, leave what was prized by the Romantics: human individuality? Ongoing objections and new constellations of questions are examined in their relevance for a modern theology that spells out faith in God as a practical self-understanding. Maureen Junker-Kenny's book is an outstanding presentation of Schleiermacher's theology. She attends not only to the development of his method from the first to the second edition of *The Christian Faith*, but also to his concrete interpretation of Creation, Christology, Redemption, Theological Anthropology.
