Schleiermacher's Early Philosophy of Life Albert L. Blackwell,1982 *Schleiermacher's Early Philosophy of Life* Albert L. Blackwell,1982 *Jesus and the Church* Paul Avis,2020-11-26 What is church's true foundation Was the Christian church founded by Jesus or does the Eucharist make the church Paul Avis sets out his own answer to these questions Gathering a wide range of critical scholarship he argues that there is something solid and dependable at the foundation of the church's life and mission Avis argues that Jesus wanted a church in a sense but not as we know it Christ proclaimed the gospel of the Kingdom and his disciples proclaimed the gospel whose content was Jesus himself the Kingdom in person The church is battered and divided but at its core is a treasure that is indestructible the gospel of Christ embodied in word and sacrament A central theme of the book is the relationship between the church and Christ the church and the gospel the church and the Kingdom Jesus Christ crucified and risen is the sole foundation of the church but he cannot be without his people

Heart of the Living God Michael G. Maness,2004-06-23 Maness asks us to tie up our sneakers for we are going to have some fun as we hike into the Grand Canyon of Love Love is the treasure of life It is Love all the way Nothing else really matters outside of Love Best of all our Love will only get better in heaven The treasured ability to have loving relationships is God's gift to us in our Imago Dei the image of God we all share Likewise what we know of Love this side of heaven is but a dusty image of what God experiences I want to get personally involved says Maness Can we have a free will relationship with anyone even God if all of what we do and think is settled I don't think so Love is greater than that and I shall prove that and that is indeed a Grand Canyon Manes brings some of the brain splitting complexities of this to light with good humor introduces dynamic foreknowledge and challenges Classical Theism's avoidance of Love And he exposes some foul play in the process That's the first half of the book For those wanting to strike out on their own wanting to see more of the depth and diversity of the Grand Canyon the second half contains reviews of about 60 major authors a 4 000 Abysmal Bibliography and a huge index to just about everything in the book Maness has thrown a gauntlet before the Classical Theists So tie up your sneakers and take a hike with Michael G Maness as he walks with you into the Grand Canyon see more at www.PreciousHeart.net

God's Being Towards Fellowship Justin Stratis,2019-05-30 Justin Stratis explores the meaning of the biblical phrase God is love through an examination of two quintessentially modern Protestant theologians Friedrich Schleiermacher and Karl Barth This book contains both a detailed engagement with Schleiermacher's untranslated lectures on Dialektik and their relation to his more well known work as well as a new assessment of Barth's doctrine of God which both respects his radical innovations and yet places him within the stream of traditional catholic trinitarianism After considering the complexities of theological predication and comparing several classical and contemporary approaches to the implication of love Stratis presents and ultimately commends the distinct approaches of Schleiermacher and Barth for their tendency to treat divine love as a conclusion to the doctrine of God rather than as a conceptual starting point In contrast to

many contemporary approaches Stratis concludes with the suggestion that God's love is best conceived as his being toward fellowship rather than as the eminent instance of loving fellowship understood according to human experiences of love

The Oxford Handbook of Theology and Modern European Thought Nicholas Adams, George Pattison, Graham Ward, 2013-02-28 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe's bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years

Schleiermacher on Christian Consciousness of God's Work in History Abraham Varghese

Kunnuthara, 2008-01-01 This work is a fresh unusually lucid approach to Christian theology and interfaith dialogue from India Its basic aim is to examine the Christian consciousness of God's work in history redemption history within the entire history of the world It uses Christian Faith by Friedrich Schleiermacher 1768 1834 as its main text so as to view this theme in a reversed order from the way it is presented there This approach which centers on God's new creation in Christ leads to an incisive understanding of Christianity's relation to other modes of faith Throughout Dr Kunnuthara compares the thought of another Indian Christian leader steeped in Hindu thought Pandippedi Chenchiah 1886 1959 to enable renewed interfaith dialogue across a wide spectrum

Orthodox yet Modern Cory C. Brock, 2020-07-22 Herman Bavinck showed that orthodox theology continues to speak authoritatively today Since the English translation from Dutch of Herman Bavinck's magisterial 4 volume Reformed Dogmatics there has been a blossoming interest in Bavinck's theology Readers have been drawn to Bavinck for his faithfulness to the Reformed tradition while also engaging the questions of 19th century Europe Far from simply revisiting the older dogmatic systems Bavinck faithfully engages modern trends like historical criticism the epistemological problems raised by Kant the rationalism of the philosophes and the radical changes ushered in through the French and

European revolutions The question then is was Bavinck orthodox modern or both In Orthodox yet Modern Cory C Brock argues that Bavinck acts as a bridge between orthodox and modern views insofar as he subsumes the philosophical theological questions and concepts of theological modernity under the conditions of his orthodox confessional tradition By exploring the relation between Bavinck and Schleiermacher Orthodox yet Modern presents Herman Bavinck as a theologian eager to engage the contemporary world rooted in the catholic and Reformed tradition absorbing the best of modernity while rejecting its excesses Bavinck represents a theologian who is at once orthodox yet modern *Songs of Experience* Martin Jay, 2005-01-10 Few words in both everyday parlance and theoretical discourse have been as rhapsodically defended or as fervently resisted as experience Yet to date there have been no comprehensive studies of how the concept of experience has evolved over time and why so many thinkers in so many different traditions have been compelled to understand it *Songs of Experience* is a remarkable history of Western ideas about the nature of human experience written by one of our best known intellectual historians With its sweeping historical reach and lucid comparative analysis qualities that have made Martin Jay's previous books so distinctive and so successful *Songs of Experience* explores Western discourse from the sixteenth century to the present asking why the concept of experience has been such a magnet for controversy Resisting any single overarching narrative Jay discovers themes and patterns that transcend individuals and particular schools of thought and illuminate the entire spectrum of intellectual history As he explores the manifold contexts for understanding experience epistemological religious aesthetic political and historical Jay engages an exceptionally broad range of European and American traditions and thinkers from the American pragmatists and British Marxist humanists to the Frankfurt School and the French poststructuralists and he delves into the thought of individual philosophers as well including Montaigne Bacon Locke Hume and Kant Oakeshott Collingwood and Ankersmit Provocative engaging erudite this key work will be an essential source for anyone who joins the ongoing debate about the material linguistic cultural and theoretical meaning of experience in modern cultures Body Dialectics in the Age of Goethe ,2016-08-09 In opposition to an essentialist conceptualization the social construct of the human body in literature can be analyzed and described by means of effective methodologies that are based on Discourse Theory Theory of Cultural Transmission and Ecology System Theory and Media Theory In this perspective the body is perceived as a complex arrangement of substantiation substitution and omission depending on demands expectations and prohibitions of the dominant discourse network The term Body Dialectics stands for the attempt to decipher and for a moment freeze the web of such discursive arrangements that constitute the fictitious notion of the body in the framework of a specific historic environment here in the Age of Goethe **From Roman to Early Christian Thessalonikē** Laura Nasrallah, Charalambos Bakirtzis, Steven J. Friesen, 2010 This volume brings together international scholars of religion archaeologists and scholars of art and architectural history to investigate social political and religious life in Roman and early Christian Thessalonik an important metropolis in the Hellenistic Roman and early Christian periods and beyond This volume

is the first broadly interdisciplinary investigation of Roman and early Christian Thessalonik in English and offers new data and new interpretations by scholars of ancient religion and archaeology The book covers materials usually treated by a broad range of disciplines New Testament and early Christian literature art historical materials urban planning in antiquity material culture and daily life and archaeological artifacts from the Roman to the late antique period Radical Orthodoxy: Annual Review I Neil Turnbull,2012-11-06 The Radical Orthodoxy Annual Review examines emerging agendas in contemporary theology and philosophy Today in an era of biotechnology and a growing ecological consciousness it is rapidly becoming clear that the key question for our times is how to make sense of the nature and significance of life In this the inaugural edition of the Review some of today s most influential and important thinkers address this issue through wide ranging discussion of the way in which life is currently being redefined in the work of orthodox theologians and philosophers In so doing they show the extent to which contemporary theology and philosophy are helping us to make better of sense of the natural world the human body contemporary techno science as well as the possibility of a living transcendence allowing us to see why theology and philosophy remain absolutely crucial to any attempt to understand the current state of the modern world and its likely future development *The Theological Project of Modernism* Kevin W. Hector,2015-06-25 Modernism s theological project was an attempt to explain two things firstly how faith might enable persons to experience their lives as hanging together even in the face of disintegrating forces like injustice tragedy and luck and secondly how one could see such faith and so a life held together by it as self expressive Modern theologians such as Kant Schleiermacher Hegel Ritschl and Tillich thus offer accounts of how one s life would have to hang together such that one could identify with it of the oppositions which stand in the way of such hanging together of God as the one by whom oppositions are overcome such that one can have faith that one s life ultimately hangs together and of what such faith would have to be like in order for one to identify with it too So understood modern theology not only sheds light on faith s potential role in enabling persons to identify with their lives but stands in unexpected continuity with contemporary contextual theologies This book offers clear careful readings of modernism s key figures in order to explain their relevance to practical concerns and to contemporary understandings of faith **Schleiermacher** Julia A.
