Scholarly Executions:

Execution and Invention Beth A. Berkowitz, 2006-03-23 The death penalty in classical Judaism has been a highly politicized subject in modern scholarship Enlightenment attacks on the Talmud's legitimacy led scholars to use the Talmud's criminal law as evidence for its elevated morals But even more pressing was the need to prove Jews innocence of the charge of killing Christ The reconstruction of a just Jewish death penalty was a defense against the accusation that a corrupt Jewish court was responsible for the death of Christ In *Execution and Invention* Beth A Berkowitz tells the story of modern scholarship on the ancient rabbinic death penalty and offers a fresh perspective using the approaches of ritual studies cultural criticism and talmudic source criticism Against the scholarly consensus Berkowitz argues that the early Rabbis used the rabbinic laws of the death penalty to establish their power in the wake of the destruction of the Temple Following recent currents in historiography Berkowitz sees the Rabbis as an embattled almost invisible sect within second century Judaism The function of their death penalty laws Berkowitz contends was to create a complex ritual of execution under rabbinic control thus bolstering rabbinic claims to authority in the context of Roman political and cultural domination Understanding rabbinic literature to be in dialogue with the Bible with the variety of ancient Jews and with Roman imperialism Berkowitz shows how the Rabbis tried to create an appealing alternative to the Roman paganized culture of Palestine's Jews In their death penalty the Rabbis substituted Rome's power with their own Early Christians on the other hand used death penalty discourse to critique judicial power But Berkowitz argues that the Christian critique of execution produced new claims to authority as much as the rabbinic embrace By comparing rabbinic conversations about the death penalty with Christian ones Berkowitz reveals death penalty discourse as a significant means of creating authority in second century western religious cultures Advancing the death penalty discourse as a discourse of power Berkowitz sheds light on the central relationship between religious and political authority and the severest form of punishment [The International Library of Essays on Capital Punishment, Volume 2](#) Peter Hodgkinson, 2016-12-05 The essays selected for this volume develop conventional abolition discourse and explore the conceptual framework through which abolition is understood and posited Of particular interest is the attention given to an integral but often forgotten element of the abolition debate alternatives to capital punishment The volume also provides an account of strategies employed by the abolition community which challenges tired methodologies and offers a level of transparency previously unseen This collection tackles complex but fundamental components of the capital punishment debate using empirical data and expert observations and is essential reading for those wishing to comprehend the fundamental issues which underpin capital punishment discourse **The Death Penalty Today** Robert M. Bohm, 2017-11-13 More than 30 years after the US Supreme Court reinstated the death penalty it is still plagued with egregious problems Issues of wrongful conviction inhumane practices and its efficacy as a deterrent are hotly debated topics As of August 2007 two thirds of the world's countries have abolished the death penalty Today the US falls alongside I

Diplomatic Cultures at the Ottoman Court, c.1500-1630 Tracey A. Sowerby, Christopher Markiewicz, 2021-05-24 In the sixteenth century the Ottoman court in Constantinople emerged as the axial centre of early modern diplomacy in Eurasia. *Diplomatic Cultures at the Ottoman Court c. 1500-1630* takes a unique approach to diplomatic relations by focusing on how diplomacy was conducted and diplomatic cultures forged at a single court, the Sublime Porte. It unites studies from the perspectives of European and non-European diplomats with analyses from the perspective of Ottoman officials involved in diplomatic practices. It focuses on a formative period for diplomatic procedure and Ottoman imperial culture by examining the introduction of resident embassies on the one hand and on the other changes in Ottoman policy and protocol that resulted from the territorial expansion and cultural transformations of the empire in the sixteenth century. The chapters in this volume approach the practices and processes of diplomacy at the Ottoman court with special attention to ceremonial protocol, diplomatic sociability, gift giving, cultural exchange, information gathering and the role of para-diplomatic actors.

Latinos and Criminal Justice José Luis Morín, 2016-03-28 This unique compilation of essays and entries provides critical insights into the Latino experience with the U.S. criminal justice system. Among the wide range of topics covered are policing and police misconduct, incarceration, the war on drugs, gangs, border crime and racial profiling. Historically important issues and events relative to the Latino experience of criminal justice in the United States are also included, as are key legal cases.

spread In this book Robyn Linde tracks the diffusion of a single human rights norm the abolition of the death penalty for child offenders under the age of 18 The norm against the penalty diffused internationally through law specifically criminal law addressing child offenders usually those convicted of murder or rape Through detailed case studies and a qualitative comparative approach to national law and practice Linde argues that children played an important though little known role in the process of state consolidation and the building of international order This occurred through the promotion of children as international rights holders and was the outcome of almost two centuries of activism Through an innovative synthesis of prevailing theories of power and socialization Linde shows that the growth of state control over children was part of a larger political process by which the liberal state both paternal and democratic became the only model of acceptable and legitimate statehood and through which newly minted international institutions would find purpose The book offers insight into the origins spread and adoption of human rights norms and law by elucidating the roles and contributions of principled actors and norm entrepreneurs at different stages of diffusion and by identifying a previously unexplored pattern of change whereby resistant states were brought into compliance with the now global norm against the child death penalty From the institutions and legacy of colonialism to the development and promotion of the global child a collection of related still changing norms of child welfare and protection Linde demonstrates how a specifically Western conception of childhood and ideas about children shaped the current international system

The Death Penalty Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to

ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal
