Scholars And Entrepreneurs The Universities In Crisis:

Scholars and Entrepreneurs John Hinkson, Simon Cooper, Geoff Sharp, 2002 Scholars and entrepreneurs the universities in crisis
The Toxic University John Smyth, 2017-06-23 This book considers the detrimental changes that have occurred to the institution of the university as a result of the withdrawal of state funding and the imposition of neoliberal market reforms on higher education It argues that universities have lost their way and are currently drowning in an impenetrable mush of economic babble spurious spin offs of zombie economics management speak and militaristic corporate jargon John Smyth provides a trenchant and excoriating analysis of how universities have enveloped themselves in synthetic and meaningless marketing hype and explains what this has done to academic work and the culture of universities specifically how it has degraded higher education and exacerbated social inequalities among both staff and students Finally the book explores how we might commence a reclamation It should be essential reading for students and researchers in the fields of education and sociology and anyone interested in the current state of university management

On Critical Pedagogy Henry A. Giroux, 2020-03-19 Alongside Paulo Freire Henry A Giroux is widely considered to be the founding father of critical pedagogy This classic work represents his best writing on critical pedagogy spanning the past 40 years The 2nd edition includes four new chapters covering the rise of fascist culture in America and across the globe and the dictatorship of ignorance in the age of Trump and post truth This impassioned work opens by discussing critical pedagogy in schools before extending the notion to the educational force of culture politics and society Giroux analyses the increasingly empirical orientation of teaching focusing on the culture of positivism and examines some of the major economic social and political forces undermining the promise of democratic schooling in both public and higher education He argues against the tendency by both right wing and neo liberal interests to reduce schooling to training and students merely to customers He points to the increasing attack on public and higher education by right wing populists and the Trump administration in an age of growing authoritarianism Giroux also considers the legacy of Freire and issues a fundamental challenge to educators public intellectuals and others who believe in the promise of radical democracy

Giroux Reader Henry A. Giroux, Christopher G. Robbins, 2015-11-17 One of the world's leading social critics and educational theorists Henry A Giroux has contributed significantly to critical pedagogy cultural studies youth studies social theory and cultural politics This new book offers a carefully selected cross section of Giroux's many scholarly and popular writings which bridge the theoretical and practical integrate multiple academic disciplines and fuse scholarly rigor with social relevance The essays underscore the continuities and transformations in Giroux's thought just as they offer invaluable approaches to understanding a range of social problems Giroux's work suggests that a more humane and democratic world is possible and provides critical tools that can assist concerned citizens in bringing it into being

University in Chains Henry A. Giroux, 2015-10-23 President Eisenhower originally included academic in the draft of his landmark oft quoted speech on the military industrial complex Giroux tells

why Eisenhower saw the academy as part of the famous complex and how his warning was vitally prescient for 21st century America Giroux details the sweeping post 9 11 assault being waged on the academy by militarization corporatization and right wing fundamentalists who increasingly view critical thought itself as a threat to the dominant political order Giroux argues that the university has become a handmaiden of the Pentagon and corporate interests it has lost its claim to independence and critical learning and has compromised its role as a democratic public sphere And yet in spite of its present embattled status and the inroads made by corporate power the defense industries and the right wing extremists Giroux defends the university as one of the few public spaces left capable of raising important questions and educating students to be critical and engaged agents He concludes by making a strong case for reclaiming it as a democratic public sphere

Re-Positioning University Governance and Academic Work, 2010-01-01 This book examines changing ways that academic work is governed from outside and inside universities in the shifting social cultural and political contexts of new times Chapters trace developments in institutions national sectors and internationally all applying a global scope to identify significant shifts in the broader conditions of university operation Attention is given to governance processes across all key domains of academic work teaching research leadership management and institutional organisation Key trends are analysed including risk management audit culture league tables techniques of accountability and more These investigations bring forth re conceptions of university governance as involving increasingly distributed and networked arrays of mechanisms affecting academic work practices relations values emotional labours and identities Ambiguities tensions and complexities of academic work are explored and questions are raised as to whether prevailing managerial modes of governance can address these features of university engagement with globalising contexts

International Handbook of Early Childhood Education Marilyn Fleer, Bert van Oers, 2017-10-10 This international handbook gives a comprehensive overview of findings from longstanding and contemporary research theory and practices in early childhood education in the Northern and Southern hemispheres The first volume of the handbook addresses theory methodology and the research activities and research needs of particular regions The second volume examines in detail innovations and longstanding programs curriculum and assessment and conceptions and research into child family and communities The two volumes of this handbook address the current theory methodologies and research needs of specific countries and provide insight into existing global similarities in early childhood practices By paying special attention to what is happening in the larger world contexts the volumes provide a representative overview of early childhood education practices and research and redress the current North South imbalance of published work on the subject

Space, Curriculum and Learning David Scott, 2006-01-01 In recent years there has been increasing interest in issues of space and spatiality in the social sciences and humanities generally if less so in the study of education This relative lack of interest is surprising given the importance of space and time in the organization of teaching learning and research For instance the timetable and project timeline are central to the organization of learning and

knowledge production whether in schools colleges or universities Classrooms workshops and laboratories have different spatial layouts which support certain forms of interaction and communication When we add to this the increasing distances across which knowledge understanding and competence are being distributed through the use of information and communications technologies the fact that issues of space have not been taken up seems more than an oversight This relative lack of interest in space becomes even more surprising when one considers the extensive use of spatial metaphors in the discussion of education and pedagogy For instance the notions of open distance and distributed learning and student centredness border crossing and communities of practice all have a spatial dimension to them Notions of a spiral curriculum act as a spatial imaginary Indeed some metaphors such as flexibility seem to be suggestive of the possibility that all constraints of space and time can be conquered in the provision of learning opportunities throughout life This collection of chapters from researchers around the world attempts to address these issues to examine the significance of space for curriculum learning and identity

Re-Reading Education Policies, 2009-01-01 This book collects studies with a critical education policy orientation and presents itself as a handbook of matters of public concern The term critical does not refer to the adoption of a particular theoretical framework or methodology but rather it refers to a very specific ethos or way of relating to the present and the belief that the future should not be the repetition of the past This implies a concern about what is happening in our societies today and what could or should be happening in the future As a consequence the contributors to the book rely on a general notion of public policy that takes on board processes practices and discourses at a variety of levels in diverse governmental and non governmental contexts and considers the relation of policy to power to politics and to social regulation Following the detailed introduction that aims at picturing the landscape of studies with a critical education policy orientation the book presents re readings of six policy challenges globalization knowledge society lifelong learning equality democracy social inclusion accountability control efficiency and teacher professionalism It seeks to contextualise these in relation to issues of current global concern at the start of the 21st century Despite the diversity of approaches this collection of critical education policy studies shares a concern with what could be called the public and its education and represents a snapshot of education policy research at a particular time

Innovation and Tradition Jane Kenway, Elizabeth Bullen, Simon Robb, 2004 Knowledge economy policies typically seek to harness higher education to economic outcomes Tensions between the arts and humanities and the commercial imperatives of the knowledge economy are growing This book explores how these tensions are played out within international and national higher education policies within university arts and humanities departments and within the process of writing itself Essays in this collection investigate the impact of the knowledge economy phenomenon on the arts and humanities and suggest both practical and creative ways of responding to this global policy environment This book is relevant to scholars who are re thinking the theory and practice of the arts and humanities within the context of globalization information technology and entrepreneurship It will interest

students and academics whose courses engage with notions of the commodity knowledge and creativity within the fields of cultural and media studies education and sociology It will be of particular interest to academics and postgraduates researching contemporary higher education policy cultural policy and research policy Strategic Leadership in Social Work Education Marie Connolly, Charlotte Williams, Darla Spence Coffey, 2019-10-15 Social work leaders constantly strive to incorporate cutting edge research and promote international collaboration in a dynamic contemporary environment To address these ongoing concerns this unique book focuses specifically on strategic leadership asking critical questions about change making political strategy and the opportunities that present themselves to lead new directions in social work education Among the topics covered Disruptive agendas and research dialogues in social work education Diversity leadership and perspectives beyond the mainstream The role of international bodies in advancing social work education Intellectual leadership and anticipating future advances in teaching strategies Democratising social work education Collaborative leadership models Strategic Leadership in Social Work Education examines the ability of social work to shape futures through education training and effective leadership and suggests strategies for advancing responsible social work education in order to best meet tomorrow's needs and aspirations *Handbook of Research on Entrepreneurship and Organizational Resilience During Unprecedented Times* Aloulou, Wassim J., 2022-08-12 Managerial organizational and entrepreneurial scholars across disciplines have discussed the topic of resilience from developed economies yet much remains unknown on its practice during modern times and the crises that have recently affected daily lives business and workplaces Moreover few experiences of economic instability have been reported from emerging countries where global competition economic social environmental and sanitary concerns remain as real challenges It is essential that both researchers and practitioners explore new perspectives and tools to study resilience at many diverse levels and contexts The Handbook of Research on Entrepreneurship and Organizational Resilience During Unprecedented Times explores experiences in different managerial organizational and entrepreneurial issues particularly from the perspective of emerging countries By investigating different levels with interdisciplinary approaches and integrative frameworks it advances new perspectives for future research Covering topics such as employee creativity economic crisis and supply chain management this major reference work is an indispensable resource for entrepreneurs business leaders and executives marketing managers human resource managers organization behavior specialists consultants government officials politicians librarians students and faculty of higher education researchers and academicians Academic Units in a Complex, Changing World Deanna de Zilwa, 2010-09-17 As clocks struck midnight on the 31st December 2009 announcing the dawn of a new decade amidst the jubilation of a new beginning we paused momentarily to reflect on the decade that had just past It was a difficult era for many people and organisations Many were affected by war terrorism famine and tsunamis First world citizens enjoyed opportunities to relax in a technologically driven environment People on streets trains and planes from London Tokyo to New York sported the white ear

buds of iPhones as de rigueur adornments The pace and intensity of our lives now seems to run at warp speed we rush from appointment to appointment swigging vitamin enhanced mineral water obsessing about fluctuations in our body mass index and the Dow Jones index in equal measure Yet as individuals we can choose to accept or reject some of these changes Those with sufficient material resources can cocoon themselves in high security fortress homes or relocate to safer more tranquil environs or even redesign themselves with the aid of Botox and a skilled plastic surgeon Yet some organisations do not have the luxury of volition they cannot choose whether to accept or reject the affects of environmental changes A type of organisation that has found itself situated in environments that are increasingly complex and turbulent are academic units departments schools and faculties in many publicly funded universities around the globe Deconstructing Derrida M. Peters,P. Trifonas,2005-11-04 Responding to Jacques Derrida's vision for what a new humanities should strive toward Peter Trifonas and Michael Peters gather together in a single volume original essays by major scholars in the humanities today Using Derrida's seven programmatic theses as a springboard the contributors aim to reimagine as Derrida did the tasks for the new humanities in such areas as history of literature history of democracy history of profession idea of sovereignty and history of man Deconstructing Derrida engages Jacques Derrida's polemic on the future of the humanities to come and expands on the notion of what is proper to the humanities in the current age of globalism and change *Men, Law and Gender* Richard Collier,2010-04-05 This book presents the first published comprehensive overview and critical assessment of the relationship between law and masculinities It provides a general introduction to the subject whilst engaging with the difficult question of what it means to speak of the masculinity of law in the first place **Privatising the Public University** Margaret Thornton,2011-08 First Published in 2011 Routledge is an imprint of Taylor Francis an informal company **The Entrepreneurial Scholar** Dimo Dimov,2020-06-26 Dimo Dimov's innovative book examines what it means to be an entrepreneurial scholar drawing on a range of philosophical ideas to investigate the study of entrepreneurs Dimov makes the case for entrepreneurial scholarship to become more future oriented and creates a framework highlighting four styles and approaches to the field theoretical integrative craft and clinical This thought provoking book will be a stimulating read for academics and students of entrepreneurship and its accessible format will also appeal to reflective practitioners *Bulletin of the Atomic Scientists* ,1969-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world The Quest for Entrepreneurial Universities in East Asia K. Mok,2013-12-18 With the rise of the knowledge economy universities are under pressure to embrace not just their traditional missions of teaching and research but a third mission of serving economic and social development This book examines the major strategies that governments in East Asia have adopted to promote this kind of innovation in the education sector **International Encyclopedia of Business Management** ,2025-09-01 The Encyclopedia of Business Management Four
