Henry Barnard,1908 **Lesson Study for Learning Community** Eisuke Saito,Masatsugu Murase,Atsushi Tsukui,John
Yeo,2014-09-25 Lesson Study has been actively introduced from Japan to various parts of the world starting with the US Such
introduction is heavily connected with a focus on mathematics education and there is a strong misconception that Lesson
Study is only for mathematics or science The introduction is usually done at the departmental or form level and there has
been a strong question about its sustainability in schools This book comprehensively explores the idea of Lesson Study for
Learning Community LSLC and suggests that reform for the culture of the school is needed in order to change learning levels
among the children teachers and even parents In order for this to happen the ways of management and leadership are also
included as objectives of LSLC as are practices at the classroom level It argues that LSLC is a comprehensive vision and
framework of school reform and needs to be taken up in a holistic way across disciplines Chapters include How to Create
Time How to Build the Team How to Promote Reform How to Reform Daily Lessons How to Conduct a Research Lesson How
to Discuss Observed Lessons How to Sustain School Reform based on LSLC Strong interest in LSLC is already prevalent in
Asian countries such as Japan China Korea Taiwan Indonesia Vietnam and Singapore and is now being introduced more in
the west This book will be of great interest to those involved in education policy and reform and for practitioners of education
