## **School Effectiveness For Whom:**

*School Effectiveness for Whom?* Roger Slee, Sally Tomlinson, Gaby Weiner, 2003-05-20 School effectiveness research together with what is now described as the school improvement movement Barber 1996 has captured both the Conservative and New Labour imaginations as a basis for educational planning and policy making in the UK Internationally school effectiveness enjoys and expanding and enthusiastic audience This book provides a critique of this research genre particularly in the light of the recent calls for teaching to go back to the basics The editors argue that this school effectiveness research is simplistic in its analysis of educational problems Far from getting to the bottom of the problem of failing students and schools they argue these movements are merely scratching at the surface of the problems and coming up with notions for superficial improvements *International Handbook of School Effectiveness and Improvement* Tony Townsend, 2007-09-21 This book reviews of the development implementation and practice of the disciplines of school effectiveness and school improvement Seven main topics are addressed History of the school effectiveness movement over the last 25 years Changes in accountability and standards Leadership in school effectiveness Changes in teacher education Impact of Diverse Populations Education Funding and its Impact and Best Practice Case Studies The contributors are active in school effectiveness research worldwide School Effectiveness Louise Morley, Naz Rassool, 2002-11 This book traces the development of the school effectiveness debate and raises key questions about how it has become a dominant discourse in theories of educational change today School Effectiveness Pamela Sammons, 1999-01-01 This volume explores the influence of students background on educational outcomes ways of contextualising school performance and current issues and developments in school effectiveness research Also investigated is how the research contributes to understanding of school and classroom processes *Teaching and Learning in the Effective School* Alma Harris, 2019-05-23 First published in 1999 this volume attempts to draw the literature on school effectiveness and teacher effectiveness together in one volume Its central tenet is that classroom effectiveness is central to school effectiveness and that there is much to be gained from integrating the literature on effective schooling and effective teaching Issues discussed include departments classroom communication and teacher expectation motivation and feedback Effective Schools Dennis M. McInerney, Martin Dowson, Shawn Van Etten, 2006-04-01 Students arrive in our classrooms with complex sociocultural histories that include family cultural physical social emotional and prior learning experiences In order to be effective schools must directly address these complex histories in meaningful relevant and creative ways The aim of this volume is to examine research on effective schooling from a sociocultural perspective with a focus on developing the capacities of diverse students in diverse educational contexts The chapters in this volume cover a wide range of important topics as listed below Schools Making a Difference Martin Thrupp, 1999-05-16 Does an effective school really come about through the actions of teachers and school leaders or does it also require an advantaged student intake This question reflects a longstanding research debate about

whether or not the social class mix of a school's student intake has much effect on individual achievement. *Schools Making a Difference Let's Be Realistic* presents new evidence which suggests that school mix is likely to be important because of the way many school processes are deeply influenced by student intake characteristics. Low socioeconomic schools face numerous intake related constraints which make them highly resistant to improvement efforts. By suggesting that failing schools are often overwhelmed rather than ineffective this book provides a sympathetic reappraisal of the performance of teachers and school leaders in such schools. It also offers a critical response to the often unrealistic claims of the school effectiveness and school improvement movement and a fresh critique of market reforms in education. **School Effectiveness, School Improvement** David Reynolds, 2004-11-01

The pressure on schools to improve and to raise achievement continues to be a dominant issue in both school and government policies. *School Effectiveness and School Improvement* seeks to develop the debate further providing academics and practitioners alike with a summary and discussion of research on school effectiveness and school improvement up to the present new perspectives on these fields developed from other traditions of thinking and research a consideration of the role of organization theory an integrated view of these current perspectives and clear practical implications for policy and practice. **Improvement Through Inspection?** Peter Earley, Brian Fidler, Janet Ouston, 2017-09-29

Originally published in 1996 the title of this book poses the question whether the motto of the Office for Standards in Education was an apt statement of its effects in practice. Beginning with the state of knowledge about OFSTED's early impact the Editors review the range of complementary approaches to school improvement most of them driven by the schools themselves that were in operation alongside the OFSTED system of inspection at the time. The major part of the book is taken up with the main quality initiatives that were at work in primary and secondary schools including Investors in People Deming TQM partnerships professional competence strategic planning and effective governorship. Each chapter examines critically sometimes with the aid of case studies of good practice the benefits such approaches might bring to schools in their attempts to raise standards. The book is a companion to *OFSTED Inspections The Early Experience* by the same Editors published and reissued simultaneously. **School Effectiveness and School Improvement** Bert P.M. Creemers, Ton Peters, David Reynolds, 2022-02-27

School effectiveness and school improvement have different origins. School effectiveness is more directed to finding out what works in education and why school improvement is practice and policy oriented and intended to change education in the desired direction. However in their orientation to outcomes input processes and context in education they also have much in common. In the theoretical part different orientations have been analysed and combined in a model for effective school improvement. Based on this analysis an evaluation framework was developed for the analysis of the case studies of school improvement projects in the participating countries. The theoretical model and the results of the analyses of the case studies were combined in a framework of effective school improvement. **School Improvement After Inspection?** Peter Earley, 1998-10-28
