Underhill, 2016-12-09 Great poets like Shelley and Goethe have made the claim that translating poems is impossible And yet poems are translated not only that but the metrical systems of English French Italian German Russian and Czech have been shaped by the translation of poems Our poetic traditions are inspired by translations of Homer Dante Goethe and Baudelaire How can we explain this paradox James W Underhill responds by offering an informed account of meter rhythm rhyme and versification But more than that the author stresses that what is important in the poem and what must be preserved in the translated poem is the voice that emerges in the versification Underhill's book draws on the author's translation experience from French Czech and German His comparative analysis of the versifications of French and English have enabled him to revise the key terms involved in translating the poetic voice and transposing the poem's versification. The theories of versification from the Prague School of Linguistics the French and Swiss schools of versification and recent scholarship in metrics and rhythm in the UK and in the USA have been integrated into this synthetic but rigorously coherent approach to translating poems The extensive glossary at the end of the book will prove useful for both students and teachers alike And the detailed case studies on translating poems by Baudelaire and Emily Dickinson allow the author to categorize and appraise the various poetic and aesthetic strategies and theories that are brought to bear in translating Baudelaire into Reference Guide to Short Fiction Noelle Watson, 1994 Devoted to English and Dickinson into French Published in English those practitioners of the art of short fiction this new 2nd edition offers thorough coverage of approximately 375 authors and 400 of their works In a single volume Reference Guide to Short Fiction features often studied authors from around the world and throughout history all selected for inclusion by a board of experts in the field Reference Guide to Short Fiction is divided into two sections for easy study The first section profiles the authors and offers personal and career details as well as complete bibliographical information A signed essay helps readers understand more about the author These authors are
