Selected Poems Of Saint Coleridge:

Selected Poetry Samuel Coleridge, 2003-06-26 Living in a revolutionary age Coleridge's poetry was written in a spirit of moral and emotional inquiry into the absolutes of the human condition He is best known for his visionary poetry Kubla Khan and his ballads The Rime of the Ancient Mariner but he used and transformed a variety of verse forms from the sonnet to the conversation poem on subjects as diverse as nature love and politics This selection calls attention to the range of Coleridge's work its strong autobiographical content and its artistic development throughout his career The old chronological form has been abandoned and the poems are organised according to genre with each section displaying its own individual development in craft and theme

Coleridge Samuel Taylor Coleridge,Richard Holmes,1996 Coleridge is a great and daring poet His presence is felt echoing through the English language by anyone who has heard the magical names of Kubla Khan or Christabel or The Ancient Mariner But he is also an unknown poet much of whose work has been neglected and whose range and skill has never been properly appreciated The Poet he once said is the man made to solve the riddle of the Universe Contrary to the legend Coleridge continued to produce challenging poems for over forty years and later in life began to make new selections of his work by genre Now Richard Holmes Coleridge s prize winning biographer follows his example grouping the poetry not chronologically as in most previous selections but thematically and generically Holmes presents one hundred and one poems each with a detailed critical and biographical note which together form a new survey of Coleridge s work In his general introduction he reviews Coleridge s place in the Romantic Movement and in a short preface to each section explains Coleridge s originality his experimental use of language and his imaginative genius in exploring traditional eighteenth century forms Holmes s selection gives a fresh and enlarged sense of Coleridge s creative powers and provides a revised approach to the study of Coleridge s poetic development both for the student and the general reader A great Poet must be a profound Metaphysician He may not have it in logical coherence in his Brain but he must have it by Tact for all sounds forms of human nature he must have the ear of a wild Arab listening in the silent Desert the eye of a North American Indian tracing the footsteps of an Enemy upon the Leaves that strew the Forest the touch of a blind Man feeling the face of a darling Child
