Portuguese poet Fernando Pessoa 1888 1935 Pessoa has become many things to many people in the years that have passed since his untimely death For some he is simply the greatest Portuguese poet of the twentieth century For others he has gradually emerged as a forgotten voice in 20th century modernism And yet Pessoa was also a philosopher and it is only very recently that the philosophical importance of his work has begun to attract the attention it deserves Pessoa composed systematic philosophical essays in his pre heteronymic period defending rationalism in epistemology and sensationism in the philosophy of mind His heteronymic work decisively breaking with the conventional strictures of systematic philosophical writing is a profound and exquisite exploration in the philosophy of self In *Virtual Subjects Fugitive Selves* Jonardon Ganeri pulls together the strands of Pessoa's philosophy and rearticulates it in a way that does justice to its breathtaking originality He reveals the extraordinary power of Pessoa's theory by applying it to the analysis of some of the trickiest and most puzzling problems about the self to have appeared in the global history of philosophy

Selected Prose Works of G.E. Lessing Gotthold Ephraim Lessing, 1879 **Silent Catastrophes** W.G. Sebald, 2025-03-25 From the renowned author of *Austerlitz* named a Top 10 Book of the 21st Century by the New York Times comes the first English translation of his extraordinary essays on the Austrian writers who shaped his life and work *Silent Catastrophes* brings together the two books W G Sebald wrote on the Austrian writers who meant so much to him *The Description of Misfortune* and *Strange Homeland* published in Austria in 1985 and 1991 As a German in self-chosen exile from his country of birth Sebald found a particular affinity with these writers from a neighboring nation The traumatic evolution of Austria from vast empire to diminutive Alpine republic followed by its annexation by Nazi Germany meant that concepts such as home land borderland and exile occupy a prominent role in its literature just as they would in Sebald's own Through a series of remarkable close readings of texts by Bernhard Stifter Kafka Handke Roth and more Sebald charts both the pathologies which so often drove their work and the seismic historical forces which shaped them This sequence of essays will be a revelation to Sebald's English language readers tracing as they do so many of the themes which animate his own literary writings to which these essays form a kind of prelude This is an essential new edition from a writer whose life and work has become a wonderful vindication of literary culture in all its subtle and entrancing complexity *The Guardian*

Embodying Pessoa Anna Klobucka, Mark Sabine, 2007-12-15 The multifaceted and labyrinthine oeuvre of the Portuguese poet Fernando Pessoa 1888 1935 is distinguished by having been written and published under more than seventy different names These were not mere pseudonyms but what Pessoa termed heteronyms fully realized identities possessed not only of wildly divergent writing styles and opinions but also of detailed biographies In many cases their independent existences extended to their publication of

letters and critical readings of each other's works and those of Pessoa himself Long acclaimed in continental Europe and Latin America as a towering presence in literary modernism Pessoa has more recently begun to receive the attention of an English speaking public Embodying Pessoa responds to this new growth of interest The collection's twelve essays preceded by a general introduction and grouped into four themed sections apply a range of current interpretative models both to the more familiar canon of Pessoa's output and to less familiar texts in many cases only recently published As a whole this work diverges from traditional Pessoa criticism by testifying to the importance of corporeal physicality in his heteronymous experiment and to the prominence of representations of gendered sexuality in his work

MacNeice and the Irish Poetry of his Time Tom Walker, 2015-09-17 This study focuses on Louis MacNeice's creative and critical engagement with other Irish poets during his lifetime It draws on extensive archival research to uncover the previously unrecognised extent of the poet's contact with Irish literary mores and networks Poetic dialogues with contemporaries including F R Higgins John Hewitt W R Rodgers Austin Clarke Patrick Kavanagh John Montague and Richard Murphy are traced against the persistent rhetoric of cultural and geographical attachment at large in Irish poetry and criticism during the period These comparative readings are framed by accounts of MacNeice's complex relationship with the oeuvre of W B Yeats which forms a meta narrative to MacNeice's broader engagement with Irish poetry Yeats is shown to have been MacNeice's contemporary in the 1930s reading and reacting to the younger poet's work just as MacNeice read and reacted to the older poet's work But the ongoing challenge of the intellectual and formal complexity of Yeats's poetry also provided a means through which MacNeice across his whole career dialectically developed various modes through which to confront modernity's cultural political and philosophical challenges This book offers new and revisionary perspectives on MacNeice's work and its relationship to Ireland's literary traditions as well as making an innovative contribution to the history of Irish literature and anglophone poetry in the twentieth century **Between 'Race' and Culture** Bryan
