Selected Speeches Statements Of Genera:

Selected Speeches and Statements of the Quaid-i-Azam Mohammad Ali Jinnah, 1911-34 and 1947-48 Mahomed Ali Jinnah, 1966 **General George C. Marshall** John T. Nelsen, 1993 The study of strategic leadership as a formal analytical concept is relatively new Therefore concrete historical examples of leaders who have wrestled with the width and breadth of strategic level challenges are of inestimable value Marshall s contributions were no accident of history They resulted from the exercise of effective strategic leadership consciously and consistently applied across a broad spectrum of activities and interests This study analyzes the nature and effects of that leadership and captures the magnitude of Marshall s achievements as a strategic leader during what were frequently regarded as the unglamorous prewar years *Oppenheim's International Law: United Nations* Rosalyn Higgins, Philippa Webb, Dapo Akande, Sandesh Sivakumaran, James Sloan, 2018-12-13 The United Nations whose specialized agencies were the subject of an Appendix to the 1958 edition of *Oppenheim's International Law* Peace has expanded beyond all recognition since its founding in 1945 This volume represents a study that is entirely new but prepared in the way that has become so familiar over succeeding editions of *Oppenheim* An authoritative and comprehensive study of the United Nations legal practice this volume covers the formal structures of the UN as it has expanded over the years and all that this complex organization does All substantive issues are addressed in separate sections including among others the responsibilities of the UN financing immunities human rights preventing armed conflicts and peacekeeping and judicial matters In examining the evolving structures and ever expanding work of the United Nations this volume follows the long held tradition of *Oppenheim* by presenting facts uncoloured by personal opinion in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored It is book that while making all necessary reference to the Charter the Statute of the International Court of Justice and other legal instruments tells of the realities of the legal issues as they arise in the day to day practice of the United Nations Missions to the UN Ministries of Foreign Affairs practitioners of international law academics and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN Research for this publication was made possible by The Balzan Prize which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation **Federal Records of World War II.: Military agencies** National Archives (U.S.), 1951 **Maulana Azad, Selected Speeches & Statements, 1940-47** Abūlkālām Āzād, 1990 **Federal Records of World War II.: Military agencies** United States. National Archives and Records Service, 1951 *The Select Speeches* Daniel O'Connell, 1871 *A Commentary on Selected Speeches of Isaios* Brenda Griffith-Williams, 2013-09-30 In *A Commentary on Selected Speeches of Isaios* Brenda Griffith Williams offers a fresh insight accessible to non Greek readers into four disputed inheritance cases from the Athenian courts in the 4th century B C The only comprehensive English language commentary on *Isaios* Wyse 1904 reflects a negative view of the Athenian legal system as one in which the judges who had no legal training could be easily outwitted by an unscrupulous

speechwriter with no regard for the truth By addressing the complex interplay of factual legal and rhetorical issues in the selected speeches Brenda Griffith Williams identifies the strengths and weaknesses of each speaker s case and presents a more balanced assessment of Isaias s work **India, Nigeria, and the Congo Crisis, 1960-65** Raja Joyce Singh,2019-06-06 After the great devastation of the Second World War 51 world leaders established an international organization for the purpose of maintaining peace and security in the world by preventing escalation of conflicts promoting mutual cooperation and developing friendly relations among them called the United Nations UN Despite its noble aims and objectives the UN could not maintain total global peace because many sporadic individual skirmishes still took place among nations One such conflict began in the Congo during 1960s which later escalated into an international crisis and made the Big Powers take sides for a major showdown At this juncture to save the international organization the Non Aligned countries under the leadership of India and Nigeria came to the fore to support the UN in its efforts for peace keeping in the Congo and preventing the Super Powers from getting involved in this conflict All these details events of the crisis and the role of the Non Aligned nations towards its diffusion are discussed in this book Nobel Lectures in Peace Frederick W.
